ACKNOWLEDGEMENTS

A project of this nature cannot be effectively carried out without the support of informed colleagues around the world, and indeed we are indebted to many individuals who took the time to assist us in this complex work.

We are especially grateful for the contributions of Jeroen Huisman, Nian Cai Lui, Hans de Wit, Akiyoshi Yonezawa, and Maria Yudkevich, who provided thoughtful feedback on the earliest iterations of our survey.

Our collection of information on US programs—which form a substantial part of the program section of the Inventory—was greatly enhanced by the generosity of the Association for the Study of Higher Education (ASHE). ASHE willingly shared the program data collected through its Council for the Advancement of Higher Education Programs (CAHEP). We are especially grateful to Lester Goodchild for his role in helping us liaise with our ASHE colleagues, and to Adrienne E. Hyle and Karen Card for assisting us with access to the relevant data.

Individuals in different countries and world regions were exceedingly kind to respond to our calls to review information, requests to share data, or prompts for new avenues to pursue in our search to account for as many higher education centers and programs across the globe as possible. We are especially thankful for the input provided by: Pawan Agarwal, Norzaini Azman, Elizabeth Balbachevsky, Szilvia Barta, Andrés Bernasconi, Ivar Bleiklie, Kiyong Byun, Nico Cloete, Bojana Colum, Daria Dydzinskaya, Heather Eggins, Leo Goedegebuure, Ellen Hazelkorn, Hugo Horta, Angela Hou, Futao Huang, Jonathan Hughes, Fiona Hunter, You Jiang, James Jowi, Sholpan Kalanova, Marion Kamphans, Barbara Kehm, Maria Kelo, Manja Klemencic, Marek Kwiek, Jason Lane, Molly Lee, Liudvika Leisyte, Simon Marginson, Felix Maringe, Eldho Mathews, Dianne McCarthy, Goolam Mohamedhai, José-Gines Mora, Poul Erik Mouritzen, Hiroshi Ota, Elisa L. Park, Pabian Petr, Byung Rhee, Jan Sadlak, Alexander Sidorkin, Cristina Sin, Sibry Tapsoba, Damtew Teferra, and Qi Wang.

Here at the Center for International Higher Education (CIHE), Iván Pacheco assisted us greatly in our efforts to cover Latin America adequately, while the overall organization of our work, and particularly its movement from a motley collection of details to a much more presentable user-friendly publication, was significantly enhanced by Kara Godwin.

This project is part of the research program of CIHE at Boston College, and we remain deeply grateful to Boston College for its ongoing support.

INTRODUCTION

Building on two past research projects and their resulting publications (Altbach and Engberg 2000; Altbach et. al. 2006), this book presents an up-to-date perspective on the global landscape of research, academic training, and publication in the field of higher education. The purpose of this effort is to provide researchers, policymakers, and others with a meaningful overview of where higher education training and research is taking place around the world. The inventory data also provide insight into the scope of these activities, and give indications about the specific areas in which different actors are choosing to focus.

This book contains three main parts. The first is an essay that provides an overview of higher education research and training. It brings into focus the history and current trends of the field, reflects on the immense recent growth in this area, and outlines the main factors driving the (urgent) need for more and better data and analysis to guide higher education policy- and decision-making. The second section consists of an analytical essay that seeks to provide deeper understanding of what the inventory data tell us about the worldwide phenomenon of higher education research and training. The third component of this book is the inventory itself. This provides key information on each of the higher education-focused centers/institutes, academic programs, and journals (as well as other relevant publications) identified by this project.

Altogether, this publication represents an important contribution to our emerging appreciation of how higher education as a field of study, research, and practice is organized and undertaken around the world.

Our Intellectual Starting Point

Our interest in undertaking this 3rd edition inventory project is driven by our conviction that higher education is fast moving from the margins to the center of much discussion and debate among policymakers around the world. There is a pressing need to understand what higher education institutions, systems, and their stakeholders require in order for higher education to effectively play its many crucial roles in economic and social development around the world. Yet, when compared to many other fields and disciplines, the scholarly study of higher education is a relatively new phenomenon worldwide, as is the professional or academic training of higher education leaders and professionals. Our book is therefore anchored by an introductory essay by Philip G. Altbach, which provides a brief summary of the development of the field and a discussion of current trends in research and training worldwide.

This consideration of the state of higher education research, policymaking, and practice—and the dynamics across these realms—has also been informed to some extent by the “Shanghai Statement.” This statement (formally titled *The Future of Higher Education: The Need for Research and Training for the Higher Education Enterprise*) was issued by the Boston College Center for International Higher Education after organizing the November 2013 “International Higher Education Research and Policy Roundtable” in Shanghai.* The roundtable was an unprecedented gathering of higher education research center directors from around the world, as well as a small number of individuals representing the policymaking domain, who came together to discuss the crucial need to improve the channels of communication and collaboration between higher education policymakers and researchers. Identifying the challenges and opportunities facing higher education worldwide, and linking researchers and policymakers to engage in a consideration of where we are now and how to move forward, is vitally important work. This inventory contributes to the goal of improving our understanding of higher education research and training by making more visible the broad spectrum of actors engaged in this field across the globe.

* The “International Higher Education Research and Policy Roundtable,” held in Shanghai in November 2012, was made possible by the generous support of Innovation, Higher Education, and Research for Development (IHERD), an initiative funded by the Swedish International Development Cooperation Agency.

The Inventory

Criteria

Consistent with our approach in 2006, the research centers/institutes, academic programs, and journals/publications had to meet certain criteria in order to be considered for inclusion in this inventory. These basic criteria are as follows:

Criteria for Centers or Institutes

1. Be primarily focused on higher education research, policy analysis, or related activities
2. Have at least one full-time professional staff member (or equivalent combination of part-time professional staff)
3. Have an assigned budget; funding may come from a variety of sources

Criteria for Academic Programs

1. Be focused on teaching and professional preparation and offering a formal degree or credential in the field of higher education
2. Have at least one full-time faculty member (or equivalent combination of part-time academic staff) with significant involvement in the program
3. Award a graduate-level degree (master's or doctoral) or other formal credential

Criteria for Journals/Publications

1. Be focused primarily on issues of higher education
2. Be recognized as a credible source of information

Our research team made every effort to apply these criteria as consistently as possible. However, it is important to note that not all of the items included in our inventory conform precisely to these standards, for a number of reasons. Most notably, we recognize that important research and training activities may occur in configurations that do not align perfectly with our notions of “centers” or “programs.” Loosely coupled research groups (rather than formalized centers) may be undertaking key research activities in some national contexts, while in others graduate-level study may not be delivered in formal “programs” of higher education, but rather in research center settings and the like. We appreciate these different approaches around the world, and have done our best to include all relevant configurations that are, in some organized way, focusing their energies in our areas of interest: research and graduate-level study in the field of higher education. A limitation of our work is that some such configurations will inevitably have been overlooked because of the way our search was principally organized around particular understandings of centers and programs.

Similarly, when it came to making decisions about the items to include in our listing of journals/publications, we wanted to be purposeful in terms of what to include, but did not want to overlook relevant items that may not appear to be appropriate at first glance. For example, our main interest was to focus on those publications that are essentially research-oriented journals. However, given the proliferation in recent years of newsletters and bulletins, online newspapers, and magazines providing news and analysis of higher education, we have included a number of these kinds of publications in this inventory. The same is true when it comes to the question of whether or not our inventory should include only those publications focused exclusively on topics related to higher education. This is mostly the case. However, in countries where there are few publications dealing with higher education at all, we have listed a small number of those which (according to input provided by our various country experts and informants) do deal in some “significant” or “serious” way with higher education as a topic. Finally, we actively sought to include higher education journals and publications published in any language. Given our language skills and orientations, however, there may have been an unintended bias towards those publications that are published in English, and the various other languages with which our team is best acquainted.

Overall, we endeavored to be discerning in our analysis of what would “fit” in our inventory when measured thoughtfully against our criteria. We also leaned toward a somewhat inclusive approach to this work, believing that casting a wider net with our inquiry would ultimately be more helpful than not to our readers.

Data Collection: Centers/Institutes and Academic Programs

The first step in our effort to build the current inventory was to revisit our survey instrument from the 2006 iteration of our work to determine if the same instrument would meet our needs. Working with feedback from a small number of external experts from different world regions, we made a few modifications to the 2006 survey for the purposes of this new round of data collection, eliminating several categories of information from 2006 and adding a small number of new items. In general, this resulted in a more streamlined version of the inventory for this 3rd edition. These modifications were introduced in an effort to

enhance the utility of our findings in light of changes in the field since 2006 [for example, the spread of online or hybrid delivery of some graduate programs]. Meanwhile, we adopted something of a less-is-more approach to this work. The inventory should not simply recreate extensive information already available online, but helpfully point users to the relevant websites for these activities, and provide useful synopses of information not readily accessible elsewhere.

In order to create as comprehensive an inventory as possible, we asked expert informants to help identify active centers and academic programs by using the list of institutions that were included in the 2006 edition of the inventory as a baseline. After identifying those research centers and academic programs that seemed to fit our basic criteria (outlined above), we sent a link via email to each of the relevant institutions, requesting that recipients complete our online questionnaire. In the cases of incomplete responses and total non-responses, we gathered basic information from online sources in order to at least nominally list those centers and programs that we understood to be active and relevant to our search. In the end, 78 percent of our data on centers/institutes and 60 percent of our information on academic programs came directly from completed questionnaires.

In the cases of the United States and China, which both have a significant number of higher education centers and programs, the data collection involved some slightly different approaches. In the case of the United States, the Association for the Study of Higher Education (ASHE) graciously shared an extensive data set on US graduate programs in higher education that its Council for Higher Education Programs (CAHEP) had collected in 2012 and 2013. For this reason, our US entries consist of information that was collected via survey in some cases, gathered through online research in other instances, or was delivered to us by ASHE. The programs and centers we have included from China primarily come from a list of key higher education centers and programs provided to us by colleagues at Shanghai Jiao Tong University. We took this approach because of our understanding that many of the Chinese centers and programs are at particularly early stages of development, which may limit the scope and quality of their work. As this sector matures in China, we would be exceedingly interested in seeing colleagues there develop a detailed inventory of the Chinese higher education research and training landscape, something we are much less qualified to undertake.

The Questionnaire for Centers/Institutes and Programs

Our online questionnaire (a copy of which is provided in the Appendix) consisted of 18 items, including such details as:

- Formal name of the center/program
- Host organization
- Location within host organization
- Country, city, and region
- Mission or purpose
- Website
- Email address
- Year established
- Funding source(s)
- Regular publications
- Key research/expertise
- Number of faculty, researchers, and professional staff
- Academic Program Details (if an academic program)
 - Credential(s) Granted
 - Numbers of students, degrees offered, time to complete the programs, and delivery method

Data Collection: Journals/Publications

In parallel with our approach to scanning the landscape for higher education centers and programs, we worked with national and regional experts around the world in an effort to include as many relevant higher education publications, in as many languages as possible. We began by updating our 2006 journals list, retaining those we determined are still active and relevant, and eliminating those no longer publishing. Through desk research and in consultation with our network of experts, we then added in those relevant journals/publications that have emerged since 2006, or those that may have escaped our notice during that previous effort. For each journal/publication we endeavor to provide key basic data points—such as the publication's name, focus, publisher, and frequency, along with a website address. Given the large number of periodicals published in China, we have opted to include just under 30 key journals that are circulated nationally, excluding many others that are mainly circulated at the local university level.

What We Have Learned, What We (May Have) Missed

This inventory has identified 277 graduate-level higher education programs and 217 higher education research centers/institutes around the world—up from a combined total of 199 centers and programs in 2006. Our journals/publications list now consists of 280 distinct publications, up from 191 in 2006. These numbers indicate robust growth (or perhaps better research on our part!) since 2006, also evident is the notable geographic expansion of these activities. In 2006, our inventory captured the existence of centers/institutes, programs, and journals/publications in just 25 countries. In 2014, our research shows that activity in one or more of these areas is taking place in 56 different countries around the world.

Much more in-depth information on the data we have collected and what we believe it tells us can be found in the Chapter 2 of this volume. Several key points deserve special attention here, however. The first is that we feel confident that our inventory has managed to assemble the most comprehensive picture available of the world's higher education research, training, and publications landscape. We think this is a crucial step in developing a much stronger sense of a global community active in this area. We believe it is important that the various nodes of activity in this field take note of one another and become further empowered to network with, and learn from, one another. This is crucial given the ongoing expansion of the higher education enterprise worldwide and given that higher education systems around the world face many common challenges.

At the same time, it must be acknowledged that the business of mapping the world's higher education research, training, and publications activities is immensely difficult work. There are many different ways in which this kind of research and training may be organized and undertaken, and the existence of these activities is often somewhat “hidden” within larger organizations or across an informal network of interested individuals. Our inventory has likely not captured every initiative that deserves to be recognized. For example, given our particular interest in identifying research centers/institutes focused specifically on the study of higher education, centers focused on the scholarship of teaching and learning in higher education are likely under-represented in our count. We are also sensitive to the fact that leadership development in higher education is a growing and important aspect of training activities in our field. However, because such training sits somewhat outside our interest in cataloguing academic programs leading to a graduate-level degree, we have not adequately profiled the organizations focused on this type of training.

Despite these limitations, we have done our utmost to make sense of a highly scattered landscape of activities and believe this effort contributes meaningfully to a more extensive and refined understanding of this worldwide community of higher education knowledge and talent development, both professional and academic in nature.

1. Knowledge for the Contemporary University: Higher Education as a Field of Study and Training*

PHILIP G. ALTBACH

While advanced study has been a central element of most civilizations, the university model universally used today emerged in Europe in the 11th century, with the establishment of universities in Bologna and Paris and then in other parts of Europe (Rashdall 1895; Haskins 1923). Academic institutions existed in much of the world prior to that time, including Confucian academies in China, Nalanda University in India, Islamic madrassas, and others. However, the modern university is a European invention, and it came to dominate the globe. Indeed, all contemporary universities stem from the European model. Philosophers, from Confucius to Aristotle and beyond, have thought about knowledge transmission and education. But few have thought systematically about higher education; and no institutions devoted to the study of higher education or educating those who are responsible for university leadership or management emerged until the 20th century. Statistics and analysis concerning higher education was largely absent until the middle of the 20th century.

It was assumed that universities—generally small institutions that served an elite, with a tiny proportion of the age group studying—could be managed by senior academics, generally elected by their peers for limited terms as rectors. Budgets were modest and organizational structures simple.

Postsecondary education is now a major enterprise worldwide. Massification has dramatically increased global enrollments; there are more than 170 million students enrolled in 2013, with expansion continuing worldwide. This growth has transformed higher education institutions and systems, and there are now more than 18,000 universities worldwide. At the same time, the emergence of a global knowledge economy has placed more emphasis on the research universities at the top of the academic hierarchy. Internationalization, in the form of flows of students across borders, increased mobility of academics, and branch campuses have broadened the scope of higher education.

Higher education, for centuries a small and elite sector in most societies and of concern only to a few, is now a major societal institution that plays a key role in economic and social development. Perhaps most important, higher education plays a major role in social mobility for growing populations, which now care about university access and other issues. Higher education requires significant expenditure to support mass access on the one hand and research capacity on the other.

The field of higher education emerged slowly, as postsecondary expanded starting in most of the world in the mid-20th century. It became clear that knowledge about the academic enterprise was needed, and that leaders and administrators of institutions and systems required expertise about the expanding size and scope of the higher education enterprise.

Higher Education's Needs in Terms of Data, Analysis, and Training

Universities were traditionally managed by senior professors. Typically, a rector or vice chancellor was selected by the senior academic staff from among their ranks, sometimes with the approval of government or clerical authorities, to serve for a short term and then returned to teaching duties. There were few if any administrative staff. These arrangements worked well enough in small institutions that had established roles and required little management. Massification and expanded responsibilities have changed all of this.

Many postsecondary institutions and systems are now large and complex organizations—requiring skilled management, innovative leadership, and effective frameworks for decision making. Some compare the contemporary university to a large business enterprise, but that is misleading. While universities are complex organizations and share many traits with large businesses, they are also communities of scholars and researchers with a long tradition of shared governance and self-management. Also, they are quintessential public good institutions—educating, producing knowledge for society, and in many instances serving as major cultural resources.

* An earlier version of this chapter appeared in the journal *Studies in Higher Education* (2014, Volume 39, Issue 8).

Universities are not only knowledge producers and educational enterprises, they are also knowledge consumers. They require sophisticated data to ensure effective decision making and management. Academic institutions need information concerning students, faculty and staff, financial projections, and many other kinds of data. This information is often referred to as institutional research, and many universities have offices devoted to the collection and analysis of key data. Higher education systems and governments also need sophisticated data and analysis to ensure that effective policy is devised and implemented. Quality-assurance agencies, within academic institutions as well as serving systems and countries, also require careful research and data. In sum, contemporary higher education institutions and systems have become significant users of data about the entire higher education enterprise.

Universities and academic systems also need professional expertise. Specialist knowledge concerning academic administration, student services, research management, facilities management, financial affairs, legal issues, and many others are all required by the modern university. Traditionally, university management was left to academics with no expertise or experience who were temporarily elected or appointed to managerial positions. While academic leadership should remain in the hands of academics—day-to-day management of academic institutions and systems requires professional expertise (Goodall 2009).

There are at least two levels of academic leadership and management that require a sophisticated understanding of the academic enterprise and systems. Senior university leaders, typically chosen from among the senior academic ranks, require knowledge of institutional management and leadership to work effectively in today's large and complex institutions. A cadre of middle management has evolved in most countries—professionals who manage financial affairs, student services, information technology, fund raising, and a broad range of other tasks. These administrators require professional training in their specializations and, like senior leaders, need to know about the special characteristics of universities in modern society.

Higher education systems and institutions require policies to ensure that they are managed effectively and that they serve the needs of society. In an unprecedented way, higher education policy has become an area of broad societal and political interest—and debate and controversy, as well. Issues such as access, public support, levels of tuition charges, the role of the private sector, and many other themes are topics of sharp debate. Institutions themselves, as they have become larger and more diverse, also debate policies regarding financing, orientation toward research, and many other issues. The internal governance and management of academic institutions often require intense policy debate.

All of these factors, and others as well, have contributed to the emergence of higher education as the subject of study, an arena for the training of leaders and managers, a vehicle for policy analysis, and a source for debate and analysis in many countries. This discussion focuses on the central elements of the emergence of a field.

The Emergence of an Academic Field

To meet these and other needs, the field of higher education administration has emerged in the past half century. While higher education is not an academic discipline—the study of universities is an interdisciplinary endeavor based on the social sciences—it has emerged in a growing number of countries as a recognizable field of study, developing the standard accouterments of any academic field. These include journals, publishers that focus on higher education, Web sites, national and international conferences, research centers and organizations, and others. While the development of the field is quite uneven globally, it now exists on all continents and in many countries.

Like other fields, there are centers and peripheries in the higher education knowledge network. Unsurprisingly, the main centers in terms of knowledge production and research are in the major English-speaking developed countries, with significant strength in western Europe and in China (Kehm and Musselin 2013). China is an interesting example, because at least 400 Chinese universities have included the study of higher education beginning in the 1960s, with major academic programs or research centers at 30 or more. According to the recent global survey of higher education centers and programs contained in this volume, at least 29 countries have a total of approximately 277 academic programs with some focus on higher education—with a serious undercounting of some less important Chinese programs—a dramatic increase in the past several decades (Rumbley, et al. 2014).

Researchers have traditionally been reluctant to study the institution in which they work. Social scientists preferred to focus their scholarly attention elsewhere, especially on subjects that might yield more useful theories. Most people interested in pedagogy and education focused on primary and secondary schools and not on higher education. As a result, postsecondary education was ignored by researchers in the field of education as well as by social scientists. Despite only limited interest from academic social scientists in higher education, the field emerged mostly in universities. Psychologist G. Stanley Hall is said to have taught the first academic course on higher education, at Clark University in Massachusetts, in 1893 (Goodchild 1996, and

2014). Visionary academic leaders, from Wilhelm von Humboldt to Robert M. Hutchins, have articulated their views on the development of the university. A few social scientists, perhaps most notably Max Weber, analyzed higher education. In the second half of the 20th century, when higher education became a topic of significance, social scientists—such as Burton Clark, Martin Trow, Clark Kerr, and S. M. Lipset in the United States, and A. H. Halsey and others in the United Kingdom, Michio Nagai and Ikuro Amano in Japan—all did pioneering research on higher education. Within the more traditional education faculties, academic programs in higher education spawned research as well—much of it in applied areas such as student development, teaching and learning, higher education administration and personnel management, and others.

The emergence of organizations of higher education researchers and professionals is another key indicator of the expansion and maturity of the field. The Association for the Study of Higher Education in the United States, the main organization of researchers and professors of higher education, sponsors a respected journal and other publications. The Consortium of Higher Education Researchers in Europe has a similar function (Teichler 2013; Kehm and Musselin 2013). Other similar groups exist in China, Japan, and several other countries.

Academic Degree Programs

There are more than 450 academic degrees offered in the field of higher education globally. Approximately half of them are located in the United States, where the academic administration was professionalized first. The study of higher education has been traditionally located in schools of education, where it is often considered peripheral to the main missions of these schools. Further higher education is a multidisciplinary field and, perhaps as a result, does not have a clear base in any of the academic disciplines. While interdisciplinarity is much praised, it often means that such a field has no real academic home. In addition, schools and faculties of education are seen in many universities as less prestigious than departments in the social sciences or other fields, thus further marginalizing higher education as a field of academic research. Despite these challenges, higher education has emerged as a field of research and professional training in universities around the world.

In the 21st century, academic programs in higher education have to some extent expanded beyond faculties of education. Several institutions in the United Kingdom and Australia have begun to offer higher education concentrations in schools of management. Interdisciplinary programs have been emerging as well, combining education faculties with management schools and some social science departments. The Erasmus Mundus initiative—funded by the European Union and managed by several (mostly) European universities—has supported at least two multinational higher education programs.

There are many different kinds of degree programs offered. Traditional full-time master's degree programs are common in many countries. Typically requiring one or two years of coursework, some of these programs may have a thesis or long research paper component, while others are based on examinations. Some programs are designed for new entrants to the field, while others cater for professionals who want to upgrade their skills and earn a degree that will assist in their careers. Part-time programs are increasingly popular for those already employed in higher education institutions. Degree study that is fully or partly offered through distance education or blended study is available in about a quarter of master's programs offered worldwide (Rumbley, et al. 2014).

Doctoral programs also vary considerably. American programs typically require coursework plus a research-based or professional dissertation, resulting in either a Ph.D. and Ed.D. degree (Freeman, et al. 2014). European doctorates are often research-based and require few if any courses. Online or programs that combine some in-class with distance instruction have emerged in doctoral programs as well. Some programs at both the doctoral and master's degree level are cohort based.

Higher education programs typically offer a general introduction to the nature and sometimes the history of universities, because it is understood that academic institutions are unique institutions and their management and leadership requires special knowledge of their history, tradition, financing, and patterns of governance. The “customers” (students) also require understanding, precisely because they are more than customers. They are learners, and their participation in the academic enterprise is more than “transactional.” As higher education has expanded and serves a larger and more diverse student body, more careful understanding of the student population is crucial.

There is a trend to provide a more specialized curriculum in higher education, reflecting the specific positions that administrators typically take. Thus, a general introduction to the academic enterprise considers specialized areas such as financial management, student services, institutional research, and others.

The academic field of higher education has for the most part emerged from the need to provide training for higher education professionals. The research function of all but a few of the most prestigious programs is less central than the training programs.

Most programs offer master's degrees. A smaller number provide doctorates, and some also offer specialist certification in a variety of specialized fields. These academic programs produce many thousands of graduates. The majority of these graduates go into university administration. A smaller number of graduates, mostly at the doctoral level and from the more prestigious universities, join the ranks of faculty members in higher education departments and programs or in some countries become senior university administrators or work in universities as policy or planning officers. Some take positions in government agencies and work on higher education planning and policy.

Higher education programs are still limited in scope in all but a few countries and do not yet exist in much of the world. Of the 277 located in a new inventory, two-thirds are in the United States, with the second largest number in China—perhaps 100 or more programs although the inventory only looked at the top programs. The United Kingdom has 13 programs and continental Europe 8. While Japan has 6 programs, the rest of Asia, not including China, has fewer than 10. Africa has 7—4 of them in South Africa, and Latin America has 3. Thus, the professionalization of higher education management globally, at least as measured by the existence of degree-based academic programs, remains in its infancy.

Non-degree Leadership Programs

Providing some knowledge of higher education leadership and of the role of universities to those appointed or elected to post-secondary leadership positions has been recognized as a key need. Most top academic leaders, especially presidents, vice chancellors, and rectors, after all, are chosen for their jobs from the ranks of senior professors, many of whom have little knowledge of the role or management of universities. In several countries, agencies have been established to provide seminars and courses for higher education leaders. For example, the National Academy of Educational Administration of China is a large government-sponsored agency that provides courses and seminars of various lengths and foci to senior higher education officials. Programs range from short seminars to year-long courses. In Russia, the Skolkovo Institute of Management in Moscow offers a year-long part-time program for university rectors and senior managers on higher education leadership, while the Ministry of Higher Education in Saudi Arabia provides training for rectors of Saudi universities. The Institutional Management in Higher Education program of the Organization for Economic Cooperation and Development provides conferences and guidelines for higher education leaders. The American Council on Education, an organization of American universities, offers seminar programs for senior higher education managers. Many universities offer seminars for academic leaders—a well-known example is the Harvard seminar for university presidents. There are other similar programs in many countries. In a few cases, leadership programs are provided on a regional basis. For example, the University of Hong Kong has organized for several years a program for academic leaders from Southeast Asia, with funding in part from the Asian Development Bank.

There is general agreement that leaders of postsecondary institutions, in general drawn from the ranks of the academic profession, require knowledge of academic administration, the role of universities and other postsecondary institutions, and the fundamentals of leadership. Academic leaders who are elected to their posts often have no experience with administration or leadership, and they are most in need of in-service training. But, even those who have served in other leadership positions often require additional background and training, in order to do the best job possible. Without doubt, the vast majority of academic leaders have had no training for their jobs. The provision of training and educational programs for higher education leaders is in its infancy, but at the same time is of great importance.

Research Centers and the Research Community

Research on higher education takes place in a large variety of settings [Zgaga 2013]. As noted, most university-based higher education programs conduct some research, but their main focus is teaching and the credentialing of higher education professionals. The top American programs emphasize research and are often able to obtain funds from foundations and other organizations to support large-scale research [Sadlak 1981; Teichler and Sadlak 2000]. Similarly, well-known European programs, such as the university-based Center for Higher Education Policy Studies in the Netherlands and the International Center for Higher Education Research in Germany, obtain funding from European and national agencies for applied research. The Hiroshima University-based Research Institute for Higher Education and several centers in Chinese universities also combine well-regarded research with small-scale training programs and are funded by governmental sources.

A range of research organizations focus on higher education. The scope, size, sponsorship, and orientation of these groups make it difficult to generalize about them. Many are located within government agencies, most often in ministries or departments focused on higher education. They are responsible for collecting statistics and other information and often conducting

policy-based research. Some can be quite large and influential in shaping policy. There is no data concerning the size or scope of higher education research capacity within government agencies, but there is no doubt that this sector has expanded significantly in recent years.

Independent research establishments are quite varied in scope, size, focus, and financing. Some are mainly consulting firms that undertake research and advising for higher education institutions, government agencies, or companies on higher education issues. Some undertake policy or other research for those who sponsor the research, engaging in “contract research” on a range of topics. Some are specialized research organizations that may work on specific themes, such as financial issues. Research subjects may range from specialized research for universities, government departments, or other groups to broad policy questions that may relate to national debates, legislation, or broader initiatives affecting the academic community generally. It is quite difficult to generalize about the many independent research organizations.

Some countries, such as the United States or several European nations, have many higher education research organizations that are especially clustered in the capital. Others have very few such organizations. In China, for example, while there is much higher education taking place, but few independent organizations—research takes place in government agencies and in universities. Many countries simply have little research about higher education. Even large and complex academic systems—such as India, Russia, Brazil, and others—have little research capacity.

Many organizations concerned with higher education conduct research, and some have research offices to perform this task [Bassett and Maldonado-Maldonado 2009]. Other groups “subcontract” research to others. In most countries, organizations representing the university community are concerned with research to assist their work. For example, in the United States, large organizations such as the American Council on Education (ACE), which represents the university community to the government, has research capacity to collect information and shape policy and other recommendations. Smaller American organizations—such as the Council of Graduate Schools, the Association of Catholic Universities, or groups representing law or engineering schools—sponsor research in their specific areas. In Britain, UniversitiesUK has a similar function as the ACE. Many countries have organizations that speak for the higher education sector, and these often have research offices to assist them in their work.

The inventory includes a total of 217 organizations in 48 countries conducting research on post-secondary education [Rumbley, et al. 2014]. Research centers in the United States (50), China (44), and the United Kingdom (18) account for over half. The number of researchers employed by each organization varies considerably. The total number of researchers across the globe is impossible to estimate since many conduct research independent of a center. However, the number is substantial. If one adds up the membership of the several higher education research associations in such key regions as North America, western Europe, and China, there are at least 6,000 higher education researchers worldwide—no doubt an underestimate of the total. For example, some estimates are that there are 3,000 higher education researchers in China. If the number of researchers involved in institutional research, most of whom are based in the administrations of universities, the number doubles. Thus, a total conservative estimate of professionals who are involved in research on higher education is probably more than 12,000.

Scholarly and Professional Organizations

The field of higher education has also built up, over a half-century—a nexus of associations devoted to many aspects of post-secondary education. These organizations are essential for the field, as they create a community of researchers and practitioners, are hubs of communication, and often sponsor journals, books, research, and other reports. Most hold periodic conferences that bring together their members and often others, with related interests.

Most countries with a significant research and practitioner community in higher education have at least one organization focused on the field of higher education. One of the largest, reflecting the size of the research community, is the Association for the Study of Higher Education (ASHE) in the United States. ASHE sponsors a respected journal in the field, a book series, and holds an annual conference drawing several thousand participants. Similar organizations exist worldwide—in China, the United Kingdom, Canada, Japan, and others. Major organizations representing university leaders also hold conferences and reflect the interests and concerns of presidents and other senior administrators.

A large number of specialized organizations reflect specific interests. In the United States, which has a large, complex, and well-organized postsecondary sector, organizations reflect the interests of planners and architects, housing staff, student affairs professionals (two national organizations), international education administrators (two national organizations), Catholic colleges and universities, accrediting associations, university lawyers, and many others. No other country has quite the number or specialism of the United States, but many have rapidly developing professional organizations.

The Funding of Higher Education Research and Policy Analysis

Although the field of higher education has expanded impressively in recent years, the funding for many of its programs is tenuous and multifaceted. Most degree programs are funded by the universities that sponsor them and often by tuition fees paid by the students. In some cases, training programs are funded by sponsoring universities or governmental agencies or, occasionally, by the individuals participating in them. There are a small number of organizations that maintain capacity for training, with funding coming from a range of sources, but predominantly from governments.

Funding for research is even more varied and often tenuous. Institutional research, which, as noted, is the largest element of higher education research even though seldom available to a broader audience, is almost exclusively funded by the sponsoring university. A small number of research centers, such as the Research Institute for Higher Education at Hiroshima University, receive continuing government funding. Some research centers receive core funding from their sponsoring universities—examples include the International Center for Higher Education Research at the University of Kassel in Germany and the Center for International Higher Education at Boston College in the US. Some university-based research centers depend on external funding for research, and thus are guided by the interests of external funding agencies.

Higher education research and data collection is often funded by governments—sometimes conducted directly by government departments but also done on the basis of contracts awarded to external agencies.

In a small number of mainly industrialized countries, research and other higher education activities are supported by philanthropic foundations and other organizations. Foundations may be interested in supporting university development or particular academic programs or initiatives. Some organizations with a particular policy or other agenda may support higher education research that assists that agenda—for example, the conservative American Enterprise Institute in the United States occasionally provides funds for work on initiatives that it supports.

Research and development on higher education is perennially short of funding. In much of the world, there is no funding at all for research in this field: with the result that there is almost no data, analysis, or knowledge about postsecondary education. Even in countries where there is some funding for higher education research, the amounts are seldom adequate or sustained.

Institutional Research

Although seldom considered part of the higher education research, institutional research constitutes a large and important sector in the field of higher education. Institutional research may be defined as the research and data collection that is conducted by individual academic institutions to aid in management, planning, and improvement of that institution. While there are no statistics concerning how many of the world's 18,000 universities engage in institutional research or have specific offices or departments devoted to this task, it might be estimated that perhaps half participate: thus close to 10,000 are involved in institutional research. The number of universities and individuals engaged is growing rapidly as the need for data and analysis for larger and complex academic institutions is required.

Universities that conduct institutional research typically have an office with dedicated staff responsible for this task. In large and sophisticated universities, these departments or offices may be large and responsible for a range of data collection and analysis. Institutional research contributes to budgetary management and planning, student services, admissions, curricula development, and many other functions. In many public universities, governments and system managers require data on individual academic institutions for system-wide planning or to assess government policies or programs. Thus, there is an increasing need for institutional research analysis for external purposes.

Globalization and Internationalization

As higher education has become internationally engaged in a globalized world, the field has also moved in a more international direction (Altbach 2004; de Wit, 2002). The internationalization phenomenon includes ever-increasing numbers of mobile students—close to 4 million—as well as branch campuses, franchised academic programs, international massive open online courses (MOOCs), and many others. Universities increasingly look outside their borders for innovations, management ideas, and academic staff; and they often compete with institutions in other countries. These factors, among others, have internationalized the field of higher education. Research insights from other countries are often taken into account in formulating research agendas and considering policy directions. International journals have been established, and conferences increasingly include participants from many countries. Web sites, blogs, and elements of social media are international as well.

For the most part, the knowledge produced and communicated by the English-medium research community in the main knowledge centers dominates the global higher education dialogue, although there is some scope for inputs from around the world. The advent of an international perspective in a significant part of the field of higher education is a recent and quite significant development for the field.

International Research and Organizations

Despite both globalization and the massification of higher education in the past half century, it is surprising that there is only a modest international participation in higher education research and policy (Altbach 2014). However, several international organizations have played a role in higher education research and policy over time. These include the World Bank, the United Nations Educational, Scientific, and Cultural Organization (UNESCO), and the Organization for Economic Cooperation and Development (OECD), although both have recently cut back on their higher education focus. All have sponsored some international research and have collected statistics. The UNESCO Institute of Statistics is the only source of international statistical information on higher education. The World Bank has sponsored several influential reports on higher education, including one cosponsored with UNESCO (Task Force on Higher Education and Society 2000; World Bank 2002). These organizations also publish books and other documents.

Several other organizations also participate in international higher education initiatives. The Global University Network for Innovation, based in Spain, has sponsored conferences on global issues (Global University Network for Innovation 2007). Groups such as the International Association of Universities (IAU) have also sponsored research. The IAU, for example, sponsored an annual survey on higher education internationalization and publishes a book relating to that research project. It also publishes a journal.

Regional entities such as the European Union provide funding for higher education research. Regional organizations such as the European Universities Association, the Academic Cooperation Association, the European Association for International Education, and others sponsor research and issue publications relating to their research and other activities.

Quality Assurance and Accreditation

A relatively new area of research relates to quality assurance and accreditation of academic institutions. Many countries require accreditation of academic institutions, and a growing number are assessing the quality of academic institutions and programs—and some require both. Universities and/or academic programs may be accredited by external agencies—either government or nongovernmental—and in all cases accrediting procedures require the collection and analysis of data. Most countries require some kind of accreditation of postsecondary education, although procedures, purposes, orientations, and agencies differ substantially. In many places, institutions must be accredited in order to function, offer degrees, or qualify for governmental funding, access to loan programs, or other resources. Quality assurance is a more recent development and is in some countries related to accreditation or occasionally provides the equivalent of accreditation. Quality assurance may be more limited in scope than accreditation and typically tries to evaluate an institution or program for the quality it offers, sometimes providing a basic stamp of acceptable quality or in some cases providing “grades.”

These agencies require professional staff skilled in evaluation, measurement, and related fields in order to appropriately plan, administer, and evaluate accreditation and quality assurance. The organizations require staff, as do the academic institutions and programs, that produce data, develop documentation, and in other ways assist in the process. Other than a small number of seminars provided by accrediting and quality-assurance organizations, there are no training programs in these fields.

English as the Dominant Language of Research and Communication

International research and discussion of higher education, as is the case for all scientific fields in the 21st century, take place largely in English, although national and regional communication is generally in national and regional languages (Altbach 2007). Larger academic systems—such as China, Russia, Japan, Germany, and some others—have well-developed communications networks in their own languages and produce research and analysis in these languages. Regional discussion in Latin America takes place in Spanish, in French in Francophone Africa, and in Russian in the former Soviet countries—although English is making inroads in some of these areas.

English dominates the research literature on higher education—and is increasing its position even in non-English-speaking countries. Most international organizations work mainly in English, even where other languages are officially recognized. Virtu-

ally all of the research journals in higher education are published in English—and with pressure in many countries for researchers to publish in recognized international journals, more is written in English to conform to journal requirements.

While there has been no research on the languages of the many Web sites in higher education, research concerning academic Web sites generally indicates that English is most widely used on the Web sites that have an international reach.

While the use of English enhances international dialogue and creates a common means of communication, it also gives significant advantages to the countries and academic systems that use English as their first language. Language has an impact on the research culture, and most of the journals are edited by English speakers who are located in the main English-speaking academic “powers” since they are published in English. The norms, methodologies, and values of the English-speaking academic systems have a significant advantage. Similarly, books published in English have a greater international circulation and more influence. The reality of the 21st century is that English is the dominant medium of research and communication in the field of higher education, as it is in most scientific areas.

The Communications Network in Higher Education

As the field of higher education has matured and expanded—and as postsecondary education worldwide dramatically grew—the scope, amount, and complexity of research and analysis in the field has exploded. At the same time, the information technology revolution has taken place, making knowledge distribution easier and more complex. The creation of knowledge networks and the means for communicating information is central to the establishing of any scientific field; and makes it possible for research and analysis to be provided to academic leaders, government officials, and other stakeholders.

Much of the research, statistical development, and analysis on higher education is carried out for specific purposes and does not become available to the broader research and policy communities. Almost all institutional research would fall into this category, as would many studies carried out by stakeholders for their own purposes. In many ways, this is unfortunate, since both raw data and analysis done for specific purposes could be useful to the broader community. This situation is also understandable, since research intended for particular purposes in many cases is considered proprietary and confidential. Much research may end up as “gray literature”—available only with careful search and not easily obtained.

The traditional means of scholarly and scientific communication are books and journals, and the field of higher education has become quite active in publishing. It is not possible to estimate the number of books on higher education published worldwide annually, but it is at least several thousand. The largest number is probably published in English, and this is certainly the case of books that reach an international audience. Many publishers have established book series that focus specifically on higher education or have taken a specific interest in the field. A few examples of English-medium publishers with strong higher education interests are Routledge, Palgrave-Macmillan, Johns Hopkins University Press, Springer, Sense, and others. Several publishers that are not based in English-speaking countries publish extensively in English, such as Dutch-based Sense Publishers and Springer, a global brand, indicating the dominance of English as the key global scientific language. Publishers in Germany, France, Japan, China, Argentina, and many other countries have higher education specializations as well. Many of the books published are guides for academic administration, teaching, and other practical themes, but a large number are also research-based studies and policy-focused volumes. Several of these publishers have established specific book series that are typically edited by prominent higher education researchers.

Several higher education encyclopedias have been published—all in English—that have brought together knowledge and trends in the field (Clark and Neave 1992; Forest and Altbach 2006). Now in its 29th year, the *Higher Education: Handbook of Theory and Research*, published by Springer, while largely US-based, provides an overview of current research trends and literature in the field of higher education.

Like most academic fields, much of the research is disseminated through academic journals, and these publications are often indexed and thus easier to locate (Huisman 2013). Although knowledge distribution networks are changing as a result of the expansion of research and especially advances in information technology, peer-reviewed journals remain central to the field. In 2006, a listing of higher education journals worldwide listed 191—with almost half of them located in the United States (Altbach, et al. 2006). The 2014 listing includes 280 journals, with somewhat one-third from the United States, with 35 countries publishing journals in the field (Rumbley, et al. 2014). China has a large number of journals focusing on higher education—the CIHE journals listing had to limit the Chinese journals to a small number that are recognized as the most influential because the larger majority of an estimated more than 200 journals are local and have little impact beyond the sponsoring university. English dominates the journals—with 190 of a total of 280. Other commonly used languages for journals are Chinese (27), Japanese (26), Spanish (15), and French (8).

Several of the key journals, such as *Higher Education and Higher Education Policy*, are international in scope, have international editorial teams, and publish articles on all areas of higher education. Other journals also have a wide scope of subjects as well. However, there is a growing trend in the field to establish journals that specialize on specific topics such as student development, quality assurance, or that focus on specific parts of the world. This specialization is not surprising as many academic fields tend to focus more on themes and fields and disciplines grow larger.

It is fair to say that only a small number of the journals published have significant influence on research trends or policy debates in the field of higher education. These tend to be the journals that are indexed by the Social Science Citation Index and similar agencies.

In addition to research and academic journals, there are also magazines and related publications that are important parts of the global, regional, and national communications networks in the field. Two internationally focused publications, *University World News (UWN)* and *International Higher Education (IHE)*, one weekly and the other quarterly, provide news and analysis on a global scale. *UWN* is published online only, while *IHE* appears in both print and electronic editions. *Times Higher Education (THE)* and the *Guardian*, both British publications, provide detailed coverage of UK higher education as well as considerable international news. *THE*, which also sponsors the global higher education rankings, is exclusively focused on higher education. The main US-based higher education publications, the weekly *Chronicle of Higher Education* and the daily online *Inside Higher Education*, both provide some international news and analysis but are mainly focused on the United States. National higher education newspapers and magazines exist in many countries. Examples include *Deutsches Universitätszeitung* in Germany, *Edutech* and *University News* in India, and many others.

Higher education organizations, of all kinds, sponsor magazines and other periodical publications. On the international level, the International Association of Universities publishes *IAU Horizons*, while aimed mainly at IAU member institutions, provides news and analysis. Regional and national organizations also sponsor magazines and other periodicals.

A large variety of blogs in many languages provide additional information, analysis, and opinions concerning higher education issues. Some blogs are organized by individuals, while others are affiliated to organizations and publications of all kinds. There is no estimate of the number of bloggers, blog networks, or organizations sponsoring blogs. In addition, information and analysis concerning higher education is communicated by Twitter posts, “retweets”, and other social networking arrangements.

It is not surprising that the nexus of communications in higher education is so dense in the 21st century. Research, analysis, opinion, and news about higher education have expanded exponentially. This expansion has been stimulated by the increased size and scope of postsecondary education itself, the growth of the field of higher education studies with its expanding number of researchers, students, and other experts, and the increased ease of communication aided by the Internet. Without doubt, the internationally influential communications networks, journals, and Web sites are dominated by those in English that in general emanate from the main academic centers. Yet, the Internet permits some democratization of communications, and journals, Web sites, and others can be found in most countries.

Conclusion: An Impressive Development

The emergence of higher education as a viable field of research, scholarship, training, and professional concern during the latter part of the 20th century and the first part of the 21st reflects the growing size and importance of higher education globally. The field in this short period of time has built all of the infrastructures of a traditional academic field—communities of researchers, journals, centers for research and training, and others. Higher education professionals are, of course, specialists in organizational development and thus they have been able to build relevant organizations.

Clearly, higher education is not a scholarly or scientific discipline; it has no central and accepted methodology nor does it have a set of concerns for research and study. Rather, it is a field that uses the disciplinary insights of other fields, mainly in the social sciences, to inform research themes that often require interdisciplinary insights.

Higher education, as a field, is significantly unbalanced. Most of the research and publication reflects the realities of the industrialized nations, despite the fact that most growth is taking place in developing and middle-income countries. However, with the exceptions of China and to some extent South Africa, the rapidly growing regions have little or no base of higher education research, few researchers, and only a limited number of organizations and networks.

Higher education is a field without a clear intellectual, methodological, or disciplinary center. This is inevitable, and not necessarily a detriment. A diversity of approaches reflects the varied interests and backgrounds of those involved in the field.

Higher education is also a field that stems from practice and from the practical concerns postsecondary education institutions and systems worldwide. While there are a small number of scholars who have studied universities as a subject of “pure research,” most analysis has stemmed from a desire to shed light on pressing issues or crises and an effort to understanding a dynamic phenomenon.

The field is evolving, developing, and growing more diverse. It is hoped that it will gain strength in parts of the world where it is needed to help solve the challenges of rapidly growing academic systems. At the same time, the challenges of research, equity, student development, financing, the increased use of technology, effective management, among many other challenges, create the conditions for further intellectual development of the field.

2. A Global Inventory of Research, Training and Publication in the Field of Higher Education: Growth, Diversity, Disparity*

LAURA E. RUMBLEY, DAVID A. STANFIELD, AND ARIANE DE GAYARDON

Higher education research centers, as well as academic programs devoted to educating the next generation of higher education leaders and specialists, are central to the future of the higher education enterprise globally (Boston College Center for International Higher Education, 2012). As higher education systems expand around the world under the inexorable pressure of massification (Altbach, Reisberg, & Rumbley, 2009), and as new demands are placed on tertiary institutions the world over to respond to an urgent set of 21st century opportunities and imperatives (Barber, Donnelly, & Rizvi, 2013), institutional leaders, system-level administrators, and policymakers require increasingly comprehensive and robust information about the trends and issues affecting their work. The demand for high quality, timely research focused on the pressing questions facing the field is clear. The need for information also raises key questions about how the results of research reach (or not) their intended audience, and the role of scholarly journals and other publications in facilitating the flow of information among key stakeholders. Meanwhile, the growing complexity of managing higher education institutions and systems makes it crucial to have in place administrators and leaders who are adept at managing change and well prepared—through strong academic and professional training—to understand the challenges and opportunities facing higher education.

The needs in these areas are increasingly apparent. Less well understood (particularly from a global perspective) is the size and shape of the community of research centers, academic programs, and publications active in the field of higher education. The lack of a comprehensive picture of this community is problematic for several reasons. Principally, it undermines efforts for stakeholders to first identify, then to communicate with and learn from one another. It also perpetuates assumptions about the sources of information on higher education available around the world—privileging the well known in wealthier and more prominent countries, and failing to recognize the diverse actors involved in this work globally.

Rationales for an Inventory

This inventory of higher education research centers, academic programs, and journals/publications provides insight into a world of activity that, although varied in scope and capacity, is contributing to a collective knowledge base that bears careful consideration. Why is it important to gain greater understanding about the global higher education research, training, and publishing communities? The broad acceptance of the notion that higher education plays a key role in economic and social development places enormous pressures on higher education institutions and systems. In attempting to meet those high expectations, it is necessary to ensure meaningful research, effective transmission of the knowledge being generated, and high levels of appropriate training in the field. At the same time, the relentless forces of globalization will continue to push higher education institutions and systems to think about their place in the world, not simply in their local contexts. The same must be said for higher education research centers, academic programs, and journals/publications. A global inventory of these units and initiatives can support the movement of critical conversations beyond local or national levels. Connecting peers of researchers and educators in this field can contribute to meaningful collaborations and enhanced understanding of the development of higher education the world over.

Constructing the Inventory

Built purposefully on two previous iterations of a similar inventory (Altbach and Engberg 2001; Altbach et al 2006), the research centers/institutes, academic programs, and journals/publications worldwide that met the following criteria were considered for inclusion in the current inventory:

* An earlier version of this chapter appeared in the journal *Studies in Higher Education* (2014, Volume 39, Issue 8).

Criteria for Centers or Institutes

1. Be primarily focused on higher education research, policy analysis, or related activities
2. Have at least one full-time professional staff member (or equivalent combination of part-time professional staff)
3. Have an assigned budget; funding may come from a variety of sources

Criteria for Academic Programs

1. Be focused on teaching and professional preparation and offering a formal degree or credential
2. Have at least one full-time faculty member (or equivalent combination of part-time academic staff) with significant involvement in the program
3. Award a graduate-level degree (master's or doctoral) or other formal credential

Criteria for Journals/Publications

1. Be focused primarily on issues of higher education
2. Be recognized as a credible source of information

Drawing mostly from the 2006 iteration of the inventory, an 18-question online survey was developed (see the Appendix), relying on the input of several higher education experts in different countries and world regions to ensure relevance and intelligibility across multiple cultural contexts. The 2006 inventory also provided a baseline list of centers, programs, and journals to target for inclusion in the inventory. Again based on feedback from a series of national and regional experts, email invitations requesting completion of the online questionnaire were sent to contacts at those centers/institutes and academic programs that were understood to still be active. We also reached out to a range of research centers/institutes and academic programs that had not been included in our 2006 inventory, but seemed eligible for inclusion based on desk research, advice provided by our experts and informants, as well as suggestions made by questionnaire respondents themselves, encouraging us to follow up on additional possible candidates for inclusion.

Many organizations responded to our request to complete the inventory survey. Indeed, 170 of the 217 research centers/institutes included in this inventory (78 percent of the total) completed our questionnaire. Among the academic programs, 165 out of 277 (or 60 percent) listed in the inventory are included as a result of having completed our questionnaire. The remaining entries were included because we believe our inventory would be incomplete without them. For these entries, we relied on information publicly available on the respective centers' and programs' websites. All entries that were manually entered into the inventory by our research team are appropriately footnoted, so that users have a clear understanding of the provenance of information for each entry.

Data collection involved additional steps specifically for China and the United States, two countries that include a very large number of research centers/institutes and academic programs. In the case of programs based in the United States, the Association for the Study of Higher Education (ASHE) shared an extensive data set on US graduate programs in higher education that its Council for Higher Education Programs (CAHEP) had collected in 2012 and 2013. For this reason, our US entries consist of information that was collected in three different ways: via our own project survey, through online/desk research, and by way of ASHE's CAHEP initiative. Meanwhile, the programs and centers we have included from China primarily come from a list of key higher education centers and programs provided to us by colleagues at Shanghai Jiao Tong University's Graduate School of Education. We took this approach because of our understanding that many Chinese centers and programs focused on the study of higher education are at particularly early stages of development, which may limit the scope and quality of their work. Our 'exclusive' approach here in no way implies a process of evaluating those Chinese centers/institutes and programs that we opted not to include. Given that some 400 Chinese universities offer programming in the study of higher education, we felt our inventory could best serve our global audience by providing information about centers/institutes and programs that are at least 'nationally recognized' in China.

Data on the journals included in this survey were developed using our 2006 inventory as a starting point. We worked with national and regional experts around the world in an effort to include as many relevant higher education publications, in as many languages as possible. Desk research allowed us to identify key data points for each publication, typically including title, focus, publisher, language, and frequency, along with a website address. In line with our approach to the research centers/institutes and academic programs in China, we opted to include just under 30 key journals that are circulated nationally, excluding many others that are mainly circulated at the local university level.

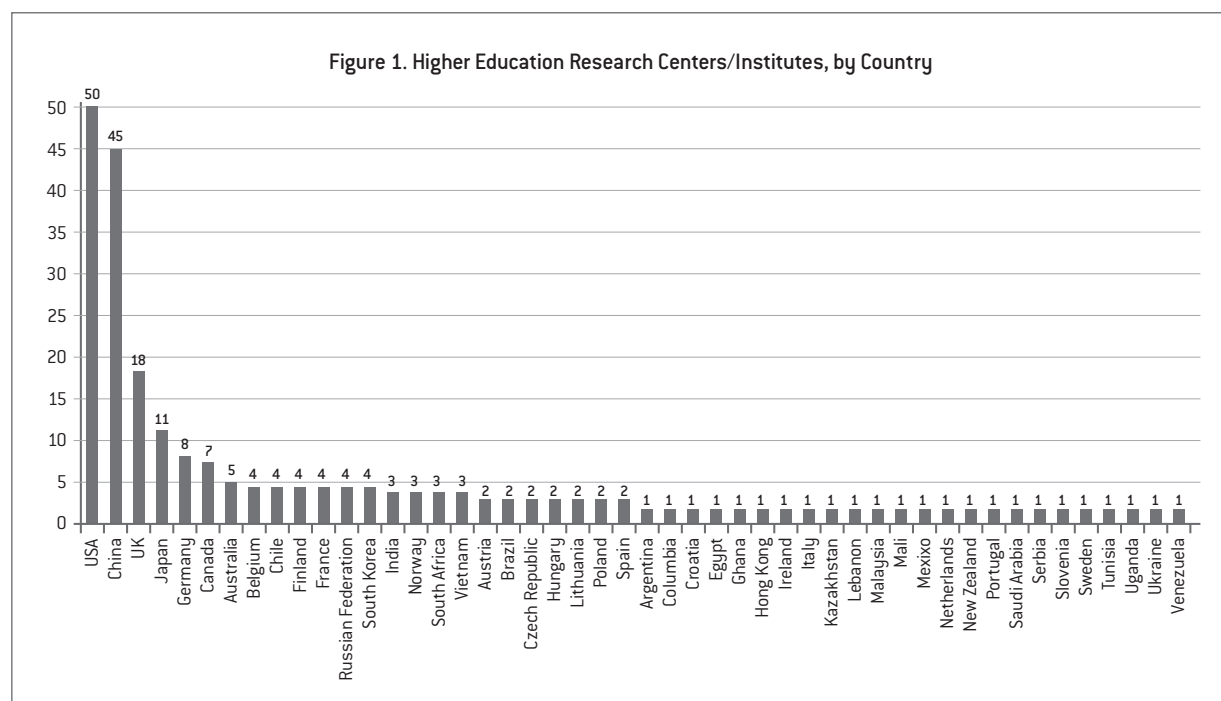

In all, data collection was carried out for roughly one year—from March 2013 through March 2014.

From Inventory to Insight

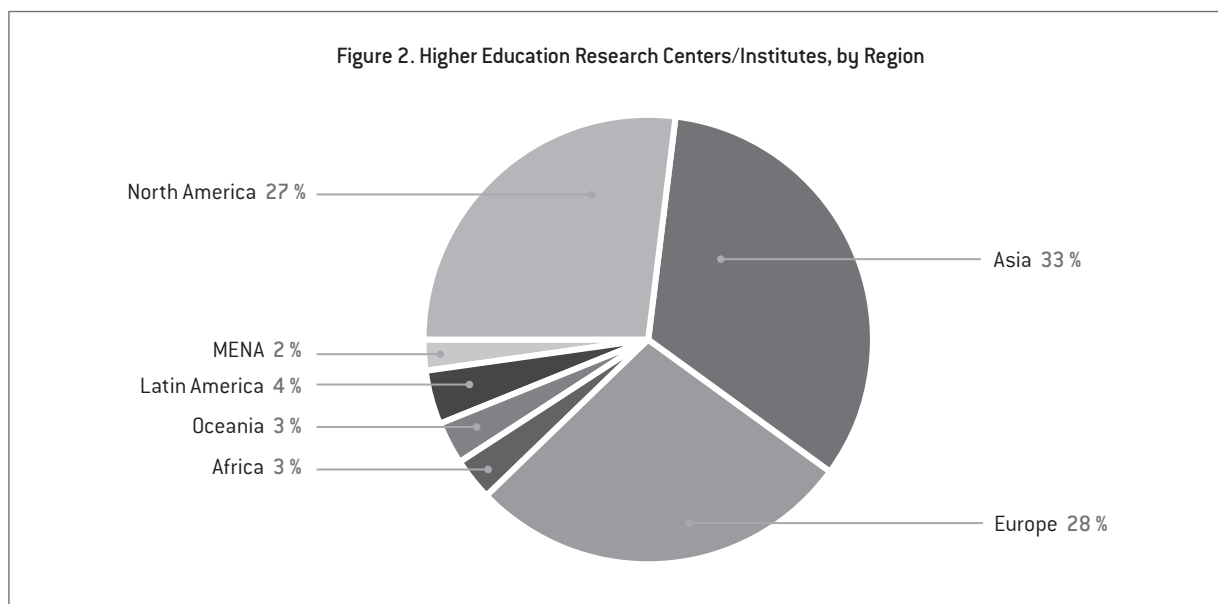

When considering higher education from a global perspective, one could argue that there are two ‘fundamental truths’ on which most scholars and analysts tend to agree. The first is that higher education is a ‘growth industry’ around the world. The second is that the key trends and issues we examine in this field inevitably play out unevenly in an inherently unequal world. These truths seem to hold true when set against our inventory data, which show real growth in recent years across programs, centers, and publications, while at the same time very real imbalance when it comes to the geographic distribution of these organizations and activities. Additionally, in keeping with broader globalizing trends, English clearly dominates when it comes to the language of communication in the field. A closer consideration of factors such as the location, age, size, geographic spread, and focus areas of centers, programs, and journals, provides an important window on the shape of the global research network focused on higher education research and analysis.

Key Findings: Research Centers/Institutes

Overall, our research identified 217 centers/institutes focused on research in higher education. These organizations or units are situated in 48 different countries, although they are clustered in a number of richer, often (but not exclusively) English-speaking countries. China, Japan, and Germany are the prime examples of countries where English is not the dominant language but where there is a relatively large number of research centers. The largest number of research centers/institutes in any one country (50) is found in the United States, followed by China with 45, the United Kingdom with 18, and Japan with 11. Germany, Canada, and Australia follow, with 8, 7, and 5, respectively. The remaining 41 countries each host fewer than 4 centers/institutes each. (see Figure 1).

An important consideration here is the major discrepancies apparent across regions (see Figure 2). The Middle East and North Africa (MENA), Africa, and Latin America are woefully behind in terms of hosting research centers/institutes. The Middle East and North Africa host just 2 percent of the global total—with a mere 4 such centers. Africa is home to 3 percent of the world’s higher education research centers/institutes (6 in total); and Latin America hosts just 4 percent, or 9 in total. Without China’s sizable number of centers, the rest of Asia hosts just 13 percent of the global inventory of higher education research centers/institutes.

The timeframe for the establishment of these global enterprises is noteworthy. Some research centers/institutes have existed for decades, dating from the 1970s, 1960s, and even earlier. Most of the older generation of centers consists of associations of universities, which in some cases have long included in their mandate some research and analysis activities. However, overall, roughly half of the centers/institutes identified in our inventory (that is, 100 of 217) have been established since the year 2000. Europe and Asia have seen the most robust growth in centers/institutes in the last decade, with 37 new such entities being established across Europe, and 34 in Asia, since 2000. By comparison, North America has established 18 (16 of these in the United States).

Among the 41 oldest centers in our inventory (those established before 1980), 15 were located in the United States, but 16 other countries are represented in this ‘early’ group, ranging from Australia to India, Canada to Vietnam, Argentina to Ghana, New Zealand to Norway. China has been an active launcher of such research centers in the last decade, establishing 20 between 2000 and 2012. However, the oldest Chinese center in our inventory dates from 1955, and China saw an active period of center establishment during the 1980s, after the Cultural Revolution, when 16 were founded.

Centers and institutes tend to be relatively small in terms of staffing. Our inventory found that just 19 of the 217 identified centers/institutes employ 25 or more individuals in positions with some “significant” role in the work at hand. These 19 larger centers are spread quite widely across 12 different countries and all major world regions. Only 3 countries have more than one such large center—China and the United States with 3 each, and Germany with 4. One quarter of all of the centers in the inventory indicate they are staffed by 5 or fewer individuals; another quarter indicate they employ 6-10 research staff (see Table 1).

Table 1. Research Centers/Institutes, by Number of Employees

Number of Employees	Number of Centers
1 to 5	55
6 to 10	53
11 to 15	26
16 to 20	21
21 to 24	6
25 or more	19

The inventory was able to gather information on the specific focal points and areas of expertise for 67 percent of the research centers/institutes (in absolute terms, 146 of the 217). The top five areas where these centers indicate they have a specialized focus or expertise include:

- comparative or international studies (42.9 percent)
- administration, management, or leadership (41.9 percent)
- economics, financing, or funding of higher education (33.6 percent)
- globalization or internationalization (31.8 percent)
- quality assurance, assessment, or accreditation (25.8 percent)

Meanwhile, the least commonly cited specialized focus or expertise areas relate to:

- student affairs or student development (9.7 percent)
- private higher education and privatization (8.3 percent)
- history of higher education (8.3 percent)
- community college, vocational, or technical education (6.9 percent)
- student identity, diversity, or multiculturalism (e.g., gender, race, minority groups) (5.1 percent)

Our research team was struck by the fact that 1 in 5 (20.7 percent) of the respondents indicated that curriculum and instruction, or teaching and learning, was a particular area of interest or expertise for their center. This raises an important limitation of our study, which tended to overlook centers focused fairly exclusively on teaching and learning. Our initial bias was that—akin to ‘institutional research offices’ in US universities—many teaching and learning centers focus only on providing technical support to the institution with which they are affiliated. However, in the later stages of our work, it became clear that at least a small subset of teaching and learning centers around the world is concerned with issues that extend beyond immediate institutional support to a broader agenda focused on the scholarship of teaching and learning. Some of these research centers are included in the inventory, however we suspect all may not be present. With the growing importance placed on issues of quality and accountability in postsecondary teaching and learning, this is an area that should have been more systematically attended to in our inventory, and is certainly worth highlighting here for future consideration.

Key Findings: Academic Programs

A total of 277 academic programs were identified by the inventory research, a majority of which is housed in institutions’ schools of education. These programs are located in 29 different countries, although 70 percent are found in the United States. There are several reasons for this geographic imbalance. Perhaps most importantly, the study of higher education and academic training in the field of higher education administration has a long history in the United States, extending back a half-century to the mid-1950s. Furthermore, our deep familiarity with the US context and our access to extensive information for this country also likely encouraged its significant representation in the inventory. As mentioned previously, there are several hundred Chinese universities providing education in the field of higher education today, although we opted to limit the Chinese coverage to those institutions with a perceived ‘national’ visibility in this area. A China-specific inventory—which we are not qualified to undertake—would surely provide new insight into the range of postsecondary research and training activities underway in that country, and enrich our understanding of China’s (increasingly important) place in the global higher education community. Still, our inventory does register China as hosting the second largest concentration of programs in any one country—11 percent of the global total. China is followed by the United Kingdom, which we found hosts 5 percent of the world total, Japan (2.2 percent), South Africa (1.5 percent), and Canada (1.1 percent). The remaining 23 countries each account for less than 1 percent of the global total of higher education programs.

Regionally, our inventory was able to identify just 6 programs in Africa (4 of these in South Africa, the other two in Mozambique and Uganda); 3 across the whole of Latin America (in Argentina, Chile and Cuba); and just 1 in the MENA region (in Egypt). In Asia, higher education program offerings are mostly to be found in China, followed by 6 in Japan, 2 in India, and 1 each in 6 additional countries (see Figure 3).

With respect to the United Kingdom and Latin America, it is important to note that we specifically opted to exclude a large number of programs that offer degrees (mostly at the master's level) in postsecondary teaching. We made this decision after consulting with regional experts and conducting our own examination of the course offerings associated with many of these programs. Our main concern turned on the fact that, in many instances, we felt that the curriculum did not include sufficient focus explicitly on the higher education enterprise, but rather on pedagogy, which we see as sitting outside our main focus area of higher education studies. However, in line with our sense that we did not adequately provide coverage of research centers/institutes focused on teaching and learning, our inventory may be critiqued for not fairly including academic programs oriented toward teaching and learning. This is certainly worth further consideration. Similarly, we designed the inventory to capture data on graduate-level *academic* programs in higher education, mostly at the master's and doctoral level. However, we are aware of what appears to be a rapidly growing sector focused on professional training in higher education—offered by foundations, government ministries, associations, for-profit consulting firms, and other entities—which do not necessarily lead to a full degree, but which are designed to enhance skills in postsecondary administration, management, and leadership. Future efforts to craft an expanded inventory for education and training in higher education should not fail to consider these types of organizations and their programming as a key new part of the community of actors working in this area.

For a significant number of the academic program entries (roughly 44 percent), information about the year of establishment was not available to us.⁷ Among those for which this information was available (169 of the 277 total), we found that 60 were established since the year 2000—25 in Asia (15 of these in China), 17 in Europe (10 of these in the United Kingdom), and 13 in the United States. Of these 60 programs established since 2000, 33 were initiated since the last iteration of our inventory in 2006.

Like the research centers/institutes, academic programs focused on higher education tend to rely on fairly small staffs. Among the 277 program entries, we have information on staffing levels for 213. Among these, 34 percent indicate that they rely on 5 or fewer individuals with a “significant” role in their programs and another 36 percent are staffed by 10 or fewer individuals. A very small percentage of programs (just under 4 percent, or 8 in all) have staffs of 25 people or more. Three of these larger centers are located in the United States, while 2 are in China. Australia, New Zealand, and Kazakhstan each host one apiece of such large programs.

⁷ The lack of information on the year of establishment of many US programs is due to the fact that the data for many of these programs was provided by the Association for the Study of Higher Education's (ASHE) Council for Higher Education Programs (CAHEP), which did not collect year of establishment information.

Information on the primary focus/expertise areas was available for over 97 percent of the academic program entries. When looking at these data from a global perspective, the picture is skewed due to the overwhelmingly large number of US programs in the inventory. For this reason, it can be helpful to examine the program focus area in two ways: both from the US perspective alone, as well as from the rest of the world separate from the United States.

Table 2. Primary focus and expertise areas of higher education academic program, by percentage

Primary focus and expertise areas	United States	All countries, Excluding the United States
Administration, Management, or Leadership	99.5	75.0
Student Affairs or Student Development	67.7	14.5
Access and Equity	24.5	17.1
Curriculum & Instruction or Teaching & Learning	24.5	40.8
Comparative or International Studies	24.0	44.7
Academic Profession	20.8	30.3
Globalization or Internationalization	20.3	30.3
Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)	18.8	5.3
Community College, Vocational, or Technical Education	18.2	5.3
Economics, Financing, or Funding of Higher Education	18.2	31.6
Law or Public Policy	17.2	13.2
Quality Assurance, Assessment, or Accreditation	13.0	25.0
History of Higher Education	11.5	13.2
Qualitative Research Methods	10.4	6.6
Quantitative Research Methods	5.7	5.3
Private Higher Education and Privatization	4.2	6.6
Student and Scholar Mobility	2.6	3.9

Table 2 provides clear evidence that, globally, academic programs in higher education are heavily oriented to administration, management, and leadership. In the United States, however, there are also clear interests in training focused on student affairs or student development, which is much less prevalent elsewhere. One is also more likely to find higher education programs in the United States emphasizing a focus on student identity, diversity, or multiculturalism (e.g., gender, race, minority groups), and community college, vocational, or technical education. Meanwhile, non-US programs are more apt than those in the United States to signal that curriculum and instruction/teaching and learning, comparative or international studies, and economics, financing, or funding of higher education are primary areas of interest.

Worldwide, a total of 473 different degrees—at the master’s and doctoral (Ph.D. and Ed.D.) level—are awarded across the 277 academic programs identified by the inventory. By category, there are 253 master’s degree options around the world, 145 Ph.D. options, and 75 Ed.D. options. Ed.D. programs are offered in just 7 countries—the United States, China, the United Kingdom, Japan, Canada, Australia, and Egypt. Ph.D. degree options are available in 22 different countries, while master’s degrees can be obtained in 23 different countries. Unlike past editions of the inventory, this time we also asked academic program respondents to indicate if they offer certificates or any other kind of credential, apart from master’s, Ph.D., and Ed.D. degrees. Programs in 10 different countries indicated they award some type of certificate in higher education.

Previous iterations of the inventory had not attempted to gather information about the instances of online or hybrid (defined here as online plus face-to-face) programs; however, questions about program delivery method were incorporated into the current inventory questionnaire. We discovered that relatively few programs are being offered exclusively online. Indeed, out of 253 higher education master's programs globally, just 12 are delivered fully online, while just 2 Ph.D. programs out of 145 are online only. Ed.D. programs are offered online in 4 different programs around the world—3 of these are based in the United States, the fourth is in the United Kingdom. Hybrid programs, however, are more common: 21 percent of the master's degree options (across 11 different countries), 24 percent of Ph.D. degrees (across 10 different countries), and 32 percent of Ed.D. degrees (in 3 countries) are offered in hybrid format. Having not examined the question of program delivery before, we have no previous data with which to compare these statistics. This information now provides some baseline understanding of the incidence of hybrid and online program delivery, a trend that should be monitored over time.

Key Findings: Journals/Publications

All told, the inventory provides information on 280 journals and other relevant higher education publications published in 22 different languages in 35 different countries. The United States and the English language dominate this landscape. Just over 68 percent of the publications are published in English. Among the 190 total publications produced in English, just 20 are published in both English and another language(s); in 7 of these cases the second language is French, while the remaining bilingual (or multilingual) publications feature English-Afrikaans, English-Arabic, English-Czech-Slovak, English-Japanese, English-Malay, English-Russian, English-Spanish, English-Swedish-Danish-Norwegian and English-Turkish combinations. Table 3 provides a comprehensive picture on the range of languages of publication.

Table 3. Higher Education Journals/Publications, by Language

Language	Number of Journals/Publications
English	190
Chinese	27
Japanese	26
Spanish	15
French	8
German	7
Russian	5
Korean	5
Portuguese	3
Arab	2
Dutch	2
Malay	2
Italian	2
Norwegian	2
Polish	2
Czech	1
Slovak	1
Afrikaans	1
Romanian	1
Swedish	1
Danish	1
Turkish	1

A significant proportion of higher education journals/publications is produced in the United States—36.1 percent of the publications identified by this inventory are US-based, followed by the United Kingdom (12.1 percent), China (9.6 percent), Japan (9.6 percent), Australia (3.2 percent), and Canada (3.2 percent). Figure 4 provides more information about the geographic spread of the publications. As with the centers and programs, the US is probably somewhat overrepresented, and China is certainly underrepresented, given that we chose to limit our Chinese entries to a core group of publications that are circulated beyond the local level in China. Still, the trend is clear: the United States is exceedingly active in this area, due likely to (among other factors) the comparatively long history of organized programming in higher education studies, the longstanding existence of associations and professional organizations in this field, and a strong publication sector in general.

If the list of journals/publications is considered from a regional perspective, North America again shows a dominant position on the global stage (thanks to the United States), followed by a strong showing from Asia (due in large part to China's and Japan's publication numbers), then Europe. The remaining regions of the world are less visible, much as they are in terms of numbers of research centers and academic programs (see Figure 5).

Our research further found that the vast majority of journals/publications serve a domestic audience. However, in light of the fact that some publications do overtly target a broader audience beyond their national borders, or work to a mission of providing information and analysis of a regional or international nature, the inventory specifically categorizes a number of journals/publications by region or as “international,” rather than situating them in the sections designated for their country of publication. Some 53 journals/publications (19 percent of the total) fall into the international category. Many fewer journals are regionally-focused: just 3 in Africa, 2 in Asia, 7 in Europe, 5 in Latin America, and 1 in the MENA region.

The Road Ahead

The work involved in gathering the information on this iteration of our worldwide inventory of higher education centers, programs, and journals has revealed a much expanded and more complex global panorama of higher education research, training, and publication. The current inventory registers 293 more centers and programs than were found in our 2006 inventory and 89 more journals/publications. Furthermore, the centers and programs are spread across 26 more countries in 2014 than they were just 8 years ago. Although impossible to measure, the increase in research production, and professionally trained higher education administrators, and written publications that have resulted from this growth is substantial.

The insights here are significant, but more work needs to be done to refine our understanding of this network around the world. Clearly, we need more complete and nuanced information about the range of programs, centers, and journals active in China. There are likely other countries whose scope of activities in these areas is not fully represented in the current inventory. There is a similar need to make sure that the full range of organizations contributing to higher education research and training are included in our broad understanding of what is happening in the field. Important examples include making better sense of the role of centers focused on the scholarship of teaching and learning, as well as the varied group of organizations increasingly offering leadership training and professional development, beyond the scope of academically-focused, degree/credential-granting programs that figure so highly into the data collected for this inventory.

Other growth areas to watch include the further development of hybrid and, potentially, fully online academic and professional development programs. In these areas, and in general as more institutions in more countries become involved in delivering academic and professional programs in higher education, it may become helpful and important to address issues of quality, good practice, and inter-institutional as well as international collaboration to enhance program offerings and outcomes. The potential to learn from one another appears great. Meanwhile, the onslaught of new journals and all manner of (particularly online) publications seems unlikely to lose momentum anytime soon, especially with the rise of open source publishing. The question of how many publications the field can and should sustain may become more pressing in the coming years. Of crucial importance, of course, is the issue of uneven access particularly to high quality journals, in contexts (national and institutional) where limited resources make it impossible to sustain expensive journal subscriptions. How exciting it could be to see the research and publication community expand in the future, but how dreadful it will be if the cycle of unequal access is not more systematically attended to moving forward. The increasing popularity and adoption of open source journals, however, could improve access significantly and is worth monitoring closely.

Concerns about inequity raises important questions about the future of higher education research, training, and publication in places such as Africa, Latin America, and the MENA region, which this inventory exercise has clearly illuminated as being greatly disenfranchised from much of the expansion in the field in the recent decades. Collaborative support and encouragement must be extended to our colleagues in these regions of the world, as they work, on their own terms, to expand their knowledge and training base in the field of higher education and connect with established centers and programs across their respective regions, as well as in other parts of the world. To this end, the development of a publicly accessible online repository of this kind of inventory information, updated frequently and with active participation of higher education experts around the world, is an important task on the horizon deserving of broad support.

Overall, the United States, China, the United Kingdom, and Japan are the countries that demonstrate the most significant and longstanding attention paid to the field of higher education. These four countries have a high number of research centers, they host numerous academic programs, and they produce a vast amount of literature on higher education. This overt commitment shows the importance placed in these national contexts on higher education as a field worthy of investment in research and training, and the recognition of its role as a key driver of social and economic development. More broadly, this inventory shows the dominance of developed countries in the field of higher education, and the lack of research and training in countries where the developmental benefits are highly needed.

The example of big systems—such as those of Brazil, India, Indonesia, Malaysia, Nigeria, etc.— is particularly worrisome. The data developed in this inventory show that higher education, as a field of research and study, is consistently underdeveloped in countries with big higher education systems. These systems would benefit substantially from homegrown expertise in higher education, as they are growing rapidly and often unpredictably. Problems of accreditation, stratification, and quality are among the many issues that require careful local analysis and problem-solving. Expanding the domestic knowledge base will be vitally important to enable higher education systems around the world—big and small—to guide their development in more effective ways.

Identifying the actors contributing to the global higher education research and training landscape, and facilitating connections between these nodes of activity, is a crucially important step in a larger agenda to raise capacity around the world in order for higher education institutions and systems to achieve their full potential for their stakeholders and societies.

3. Guide to the Use of the Inventory

This inventory—which presents information on 217 centers/institutes, 277 programs, and 280 journals—is divided into three main parts. Part 1 provides the list of higher education centers/institutes. Part 2 presents the list of graduate-level programs in higher education. Part 3 contains the list of journals focused on higher education.

Each of the three sections is organized alphabetically, with slight variations. The centers/institutes are presented alphabetically, first by country, then by name of center/institute. The programs are organized alphabetically by country, and then by the name of the institution that offers the program. In the case of the United States, China, and several other countries, the entries are further organized by state or province, to provide readers with a clearer sense of the geographic placement of these activities across these countries.

The journals are also listed alphabetically. However, for those journals with a focus and readership that we feel extends beyond the specific country where they are published, we have opted to place these into the following geographic categories: International, Africa, Asia, Europe, Latin America, Middle East. Meanwhile, those journals with a decidedly more domestic focus, or with what we feel to be a readership mostly centered in the country where they are published, have been organized by country.

Every effort has been made to make the inventory user-friendly, clear, and complete. Nevertheless, some entries are more complete than others. Gaps in information are a result of several factors. First, some individuals responding to our survey did not provide all of the data requested. In other cases, no survey information was available at all. In these instances, we collected the relevant information ourselves, using the centers/institutes' and programs' publicly available websites; however, these sources of information did not always address each of the areas for which we would like to have had data. Finally, data for a significant number of the US programs in this inventory were provided to us by the Association for the Study of Higher Education's Council for Higher Education Programs (CAHEP), and CAHEP's survey data did not precisely match ours. We have carefully footnoted each entry in the inventory where we have relied on data not provided directly by representatives of the centers/institutes or programs (i.e., where we undertook our own online research or present the CAHEP data).

Occasionally, the information we received from survey respondents was too lengthy in nature, in which case we have trimmed some information. Some editing of language has also been undertaken, in cases where we felt this would be helpful to clarify readers' understanding of mission statements and the like. As a rule, we have endeavored to keep the editing of entries to a minimum.

Following are some comments about categories of information in the entries:

- *Location.* In all cases, the location listed is the country, with the city then provided in parentheses. In some cases, the parenthetical information provides additional location details that we felt might be helpful to the reader (for example, province information in China and Canada, and state information in the United States, etc.).
- *Focus areas.* Survey respondents were provided with a list of 17 different options from which to select a limited number of "primary research and expertise areas of your program, center, or institute." The mission statements accompanying each entry also provide insight into the specific focus areas of the centers/institutes and programs.
- *Number of faculty, researchers, or professional staff.* In the case of programs, we were interested in the number of faculty involved in the program, while for centers/institutes we expanded our count to include faculty, researchers, and/or professional staff. Survey respondents were informed that the count need not include full-time affiliates only, but should take into consideration all those whose participation is considered "significant."
- *Additional information.* Respondents were given the option of providing further details about their profiles and/or activities. Not all survey respondents provide any additional information. In some cases, this material was edited for length and clarity.

None of the journal data were collected via survey. Rather, all journal information came from online research conducted under the auspices of this project. Where possible, each journal entry includes an original title (and translation into English, if not already in English), a focus statement, a link to the publication's website, and details about the language of publication, frequency of publication, sponsoring organization (if applicable), and the name of the publisher. The focus statements typically come from the journal or publication website; in some cases these have been lightly edited for length and/or clarity.

Overall, our research identified 217 centers/institutes focused on research in higher education. These organizations or units are situated in 48 different countries, although they are clustered in a number of richer, often (but not exclusively) English-speaking countries. China, Japan, and Germany are the prime examples of countries where English is not the dominant language but where there is a relatively large number of research centers.

4. A Worldwide Inventory of Higher Education: Research Centers

ARGENTINA

Higher Education Department

Center for the Study of State and Society (CEDES)

Location: Argentina (Buenos Aires)

Website: <http://www.cedes.org/>

E-mail: fanelli@arnet.com.ar

Mission: Since its creation in the mid-1990s, the Higher Education Department has conducted research and consulting. The main lines of research include the comparative study of higher education policy, the articulation of the university and the productive sector, institutional expansion and program diversification, university financing, research and development in higher education, the academic profession, and the performance and retention of undergraduate students. Additionally, within these lines of research, the Department has conducted consulting activities for IIEP-UNESCO Buenos Aires and Paris, ILO, CONEAU, CINDA-Chile, and the Ford Foundation, among others.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Year established: 1975

Major funding source(s):

- Foundation grants
- Government allocations

Number of faculty, researchers, and professional staff: 3

AUSTRALIA

The Centre for Higher Education, Learning and Teaching

Australian National University (ANU)

Location: Australia (Canberra)

Website: <http://chelt.anu.edu.au>

E-mail: chelt@anu.edu.au

Mission: The Centre for Higher Education, Learning and Teaching is an academic center with a service role. It provides an institution-wide service support role to all seven ANU Colleges and reports to the Deputy-Vice-Chancellor (Academic). Its service role is to build institutional capacity in academic work, in areas such as teaching and learning, curriculum development, research supervision and academic leadership, with a particular focus on educational development.

Focus areas:

- Curriculum & Instruction or Teaching & Learning

Year established: 1975

Major funding source(s):

- Internal
- Grants

Number of faculty, researchers, and professional staff: 8

Centre for the Study of Higher Education

The University of Melbourne
Melbourne Graduate School of Education

Location: Australia (Melbourne)
Website: <http://www.cshe.unimelb.edu.au/>
E-mail: s.arkoudis@unimelb.edu.au

Mission: The CSHE attracts Ph.D. and Master's research students working on contemporary issues in higher education, especially policy issues. There is no mandatory coursework but research students may enroll in programs on quantitative and qualitative research methods. The majority of CSHE doctoral students are international students, mostly from East and Southeast Asia, supported by scholarships from the Australian government, home countries or the University of Melbourne. There are two active programs of research seminars that include doctoral students.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization
- Law or Public Policy

Regular publications/frequency:

- *Centre for the Study of Higher Education e-news*

Year established: 1968

Major funding source(s):

- The University of Melbourne
- Research and consultancy projects

Number of faculty, researchers, and professional staff: 25+

Grattan Institute - Higher Education Program

Location: Australia (Melbourne)
Website: <http://grattan.edu.au/home/higher-education>
E-mail: andrew.norton@grattan.edu.au

Mission: The Grattan Institute's goal is to provide advice on Australian policy issues. The higher education program primarily looks at the funding and regulation of Australian higher education.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Law or Public Policy
- Private Higher Education and Privatization

Year established: 2011

Major funding source(s):

- Myer Foundation grant

Number of faculty, researchers, and professional staff: 3

Institute for Teaching and Learning (ITL)

The University of Sydney

Location: Australia [Sydney]

Website: <http://www.sydney.edu.au/itl>

E-mail: itl@sydney.edu.au

Mission: ITL supports the teaching and learning development of the University and its academic staff. The focus of ITL work is to: create an environment which assists students to learn and academic staff to develop their teaching and engage with changes in their role; contribute to the advancement of knowledge in teaching and learning in higher education through research; help create, develop and implement policies affecting teaching and learning at The University of Sydney; contribute to both The University of Sydney community and the wider community; and provide support to the faculties/faculty groups in achieving their strategic initiatives.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Student Affairs or Student Development

Regular publications/frequency:

- *Teaching@Sydney* { 12/yr }

Year established: 1982

Major funding source(s):

- University support
- Grants
- Consultancies

Number of faculty, researchers, and professional staff: 10

LH Martin Institute for Tertiary Education Leadership and Management

University of Melbourne

Melbourne Graduate School of Education

Location: Australia [Melbourne]

Website: <http://www.lhmartininstitute.edu.au/>

E-mail: martin-institute@unimelb.edu.au

Mission: To improve management and leadership in the tertiary education sector by providing an integrated set of education, training and bespoke programs which are underpinned by research and by holding forums and events which cater specifically to the sector.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Quality Assurance, Assessment, or Accreditation

Regular publications/frequency:

- *Newsletter* { 12/yr }
- *Journal of Higher Education Policy and Management* { 6/yr }

Year established: 2007

Major funding source(s):

- Commonwealth of Australia
- Program fees

Number of faculty, researchers, and professional staff: 14

AUSTRIA

Centre for Educational Management and Higher Education Development

Danube University Krems

Faculty for Education, Arts and Architecture

Location: Austria (Krems)

Website: <http://www.donau-uni.ac.at/en/departement/wbbm/bereich/weiterbildungsmanagement/index.php>

E-mail: attila.pausits@donau-uni.ac.at

Mission: The Center for Educational Management and Higher Education Development is a European Competence Centre for:

- Educational Management as a comprehensive concept for developing, organizing and leading educational institutions. One focus here is on Higher Education Management.
- Education and Regional Development as an approach for developing sustainable regional structures by improving educational concepts. A focus here lies on the topic of “learning regions.”
- Lifelong Learning in the context of higher education. The special focus is laid on higher education institutions as supporters of lifelong learning.

Within these thematic fields the center offers study programs and consulting and is conducting research projects.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization
- Qualitative Research Methods

Year established: 2006

Major funding source(s):

- Student tuition
- Research grants

Number of faculty, researchers, and professional staff: 5

Institute of Science Communication and Higher Education Research

Alpen Adria University

Location: Austria (Vienna)

Website: <http://www.uni-klu.ac.at/wiho/inhalt/1.htm>

E-mail: hans.pechar@uni-klu.ac.at

Mission: Conduct research on the social functions of higher education in the knowledge society.

Focus areas:

- | | |
|--|---|
| ■ Academic Profession | ■ Access and Equity |
| ■ Administration, Management, or Leadership | ■ Comparative or International Studies |
| ■ Economics, Financing, or Funding of Higher Education | ■ Globalization or Internationalization |

BELGIUM

Academic Cooperation Association (ACA)

Location: Belgium (Brussels)

Website: <http://aca-secretariat.be>

E-mail: secretariat@aca-secretariat.be

Mission: To promote innovation and internationalization in (European) higher education.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *ACA Newsletter - Education Europe* (12/yr)
- *ACA Papers in International Cooperation in Education* (1-2/yr)

Year established: 1993

Major funding source(s):

- Project revenues
- Membership dues

Number of faculty, researchers, and professional staff: 5

Center for Higher Education Governance Ghent

Ghent University

Department of Sociology

Location: Belgium (Ghent)

E-mail: jeroen.huisman@ugent.be

Mission: The Center for Higher Education Governance Ghent (CHEGG), established in 2013, is a social science-based research institute of the Faculty of Political and Social Sciences at Ghent University. It aims to contribute to our understanding of higher education policy and the governance and management of higher education through basic and applied research.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization
- Law or Public Policy

Year established: 2013

Major funding source(s):

- Flemish Research Council (FWO)

Number of faculty, researchers, and professional staff: 8

European Association for Quality Assurance in Higher Education (ENQA)

Location: Belgium (Brussels)

Website: <http://www.enqa.eu>

E-mail: maria.kelo@enqa.eu

Focus areas:

- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- Workshop and seminar reports (1-3/yr)
- Occasional papers (1-3/yr)
- *ENQA Statements to the Bologna process* (Every 2-3 years (in correspondence with the ministerial conferences))

Year established: 2000

Major funding source(s):

- Membership fees
- Project funding

Number of faculty, researchers, and professional staff: 8

Additional information:

Much of the research work is carried out in the framework of different projects and will thus include contributions from people outside the ENQA Secretariat and Board.

European University Association

Location: Belgium (Brussels)

Website: <http://www.eua.be>

E-mail: info@eua.be

Mission: With more than 850 members, including both universities and national rectors' conferences, the European University Association (EUA) is the largest and most comprehensive organization representing universities in Europe. As the voice of European universities, EUA supports and takes forward the interests of universities and the sector as a whole. EUA provides unrivaled opportunities for members to share best practices through projects, events and mutual learning activities involving a wide range of universities. Above all, EUA provides members with unique opportunities to influence and shape future European policies and initiatives affecting higher education and research.

Focus areas:

- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *EUA Newsletter (E-Newsletter)* (20/yr)
- *European Quality Assurance Forum post-conference publication* (1/yr)
- *Council for Doctoral Education Bulletin* (2/yr)

Year established: 2001

Major funding source(s):

- Membership fees
- Competitive funding for projects

BRAZIL

Nucleo de Estudos Superiores da Universidade de Brasília [Center for Advanced Studies at the University of Brasília]

Universidade de Brasília (UNB)
Centro de Estudos Multidisciplinares

Location: Brazil (Brasília, Distrito Federal)

E-mail: nesub@unb.br

Mission: The purpose of the Center for Advanced Studies at the University of Brasília (NESUB) is to carry out research about the transformation of contemporary Brazilian higher education. The center is multidisciplinary, integrating UNB professors from different knowledge areas.

Focus areas:

- Access and Equity
- Private Higher Education and Privatization

Regular publication(s) (Frequency):

- Working papers
- Books

Year established: 1995

Major funding source(s):

- University support
- Government allocations

Number of faculty, researchers, and professional staff: 10

Laboratory for Research on Higher Education

Federal University of Rio de Janeiro
Graduate Program of Sociology and Anthropology, Institute of Philosophy and Social Sciences

Location: Brazil (Rio de Janeiro)

Website: <http://dgp.cnpq.br>

E-mail: lab.ensino.superior@gmail.com

Mission: The Laboratory's main purpose is the creation of an institutionalized network of research on higher education in Brazil, bringing together experts from different states and universities. As a first step in a long-term project, the laboratory seeks to articulate some studies that have already been developed in order to create a research network that actually allows the convergence of themes and methods of studies on higher education in Brazil.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education

Year established: 2012

Major funding source(s):

- Federal science agency: CNPq
- Rio de Janeiro science agency: FAPERJ

Number of faculty, researchers, and professional staff: 16

Additional information: At this time, we also have one Ph.D. student, two graduate students and 8 undergraduate students. The lab has just produced a book on higher education in Brazil, due to be released in 2014.

CANADA

Manitoba

Centre for Higher Education Research and Development

University of Manitoba

Location: Canada [Winnipeg, Manitoba]

Website: <http://umanitoba.ca/centres/cherd/>

E-mail: matheos@ad.umanitoba.ca

Mission: The Centre for Higher Education Research and Development (CHERD) seeks to generate and translate knowledge into practice in the effective leadership and management of colleges and universities. CHERD aims to:

- Provide continuing professional development for academic, administrative and managerial staff within postsecondary institutions in the knowledge and skills inherent in those roles;
- Stimulate, nurture and champion research in higher education generally, and research within the focused areas of leadership, administration and management specifically; and
- Disseminate scholarship in these areas, among scholars in the field and the higher education community as a whole.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization
- Student Affairs or Student Development

Year established: 1987

Major funding source(s):

- Tuition
- University support

Number of faculty, researchers, and professional staff: 12

Ontario

Association of Universities and Colleges of Canada

Location: Canada [Ottawa, Ontario]

Website: <http://www.aucc.ca>

E-mail: hoheron@aucc.ca

Mission: To analyze the value and contribution of university research and degrees in today's knowledge based world. AUCC provides universities with comparative analysis of important enrollment, faculty, finance and research trends for member institutions and to inform government policies. The research also highlights the value of a degree in today's labor markets. Several reports highlight the contributions of university research to innovation and economic growth in Canada.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- Trends in Higher Education

Year established: 1911

Major funding source(s):

- Member universities

Canadian Bureau for International Education

Membership Team - Research, Public Policy and Communications

Location: Canada (Ottawa, Ontario)

Website: <http://cbie.ca/>

E-mail: jhumphries@cbie.ca

Mission: The Canadian Bureau for International Education is the national voice promoting Canadian international education on behalf of members by mobilizing expertise, knowledge, opportunity and leadership.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *World of Learning: Canada's Performance and Potential in International Education* (1/yr)

Year established: 1968

- Scholarship management

Number of faculty, researchers, and professional staff: 4

Canadian Information Centre for International Credentials

Council of Ministers of Education, Canada (CMEC)

Location: Canada (Toronto, Ontario)

Website: <http://cicic.ca>

E-mail: n.sawh@cmecc.ca

Mission: Provide information and referral services in support of mobility in higher education.

Focus areas:

- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- Quality Assurance in Postsecondary Education (Every two years)
- Education Systems in Canada (Every two years)

Year established: 1990

Major funding source(s):

- Provincial and territorial governments

Education Policy Research Initiative

University of Ottawa
Faculty of Social Sciences

Location: Canada (Ottawa, Ontario)

Website: <http://www.socialsciences.uottawa.ca/irpe-epri/eng/index.asp>

E-mail: irpe-epri@uOttawa.ca

Mission: The Education Policy Research Initiative (EPRI) is engaged in research aimed at informing policy discussions regarding Canadian education issues. EPRI's current focus is post-secondary education (PSE), in particular, access to and persistence through PSE, as well as the early labor market outcomes of youths. While committed to high quality research using the best data sets available, EPRI is also committed to communicating its findings to not just the university based research community, but also policy makers, college and university administrators, the broader community, and students themselves.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Quantitative Research Methods

Year established: 2011

Major funding source(s):

- Social Science and Humanities Research Council of Canada

Number of faculty, researchers, and professional staff: 6

Higher Education Group

University of Toronto
Department of Leadership, Higher and Adult Education
Ontario Institute for Studies in Education

Location: Canada (Toronto, Ontario)

Website: http://www.oise.utoronto.ca/lhae/Programs/Higher_Education/index.html

E-mail: gjones@oise.utoronto.ca

Mission: The Higher Education Group is Canada's leading center for graduate education and research in the field of higher education.

Focus areas:

- | | |
|---|---|
| ■ Academic Profession | ■ Administration, Management, or Leadership |
| ■ Community College, Vocational, or Technical Education | ■ Comparative or International Studies |

Number of faculty, researchers, and professional staff: 11

Additional information: Additional areas of expertise within the Higher Education Group include governance and health professional education.

Higher Education Quality Council of Ontario (HEQCO)

Government of Ontario
Ministry of Training, Colleges and Universities

Location: Canada (Toronto, Ontario)

Website: <http://www.heqco.ca>

E-mail: fdeller@heqco.ca

Mission: Created through the Higher Education Quality Council of Ontario Act, 2005, HEQCO is an arm's-length agency of the Government of Ontario that brings evidence-based research to the continued improvement of the postsecondary education system

in Ontario. As part of its mandate, HEQCO evaluates the postsecondary sector and provides policy recommendations to the Minister of Training, Colleges and Universities to enhance the access, quality and accountability of Ontario's colleges and universities.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- Annual Report (including Annual Research Plan) (1/yr)
- Annual HEQCO Conference Proceedings (themes vary) (1/yr)
- Performance Indicators (1/yr)

Year established: 2005

Number of faculty, researchers, and professional staff: 24

CHILE

Centro de Políticas Comparadas de Educación (CPCE)

Universidad Diego Portales

Within the framework of the Vicerrectoria Académica

Location: Chile (Santiago, Metropolitan Region)

Website: <http://www.cpce.cl>

E-mail: direccion@cpce.cl

Mission: CPCE's purpose is to contribute, through the production and transfer of expertise, to the design, implementation, execution and evaluation of educational policies, as well as to actively participate in the discussion of these public policies. The Center's studies address the educational system as a whole, including preschool, school level and higher education. Studies are characterized by a comparative international emphasis and a technical and interdisciplinary focus at the local level oriented towards policy making and public debate.

Focus areas:

- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Regular publication(s) (Frequency):

- Working Papers
- *Boletín PPS* (3/yr)

Year established: 2007

Major funding source(s):

- Universidad Diego Portales
- Tuition fees paid by students

Number of faculty, researchers, and professional staff: 4

Centro Interuniversitario de Desarrollo (Inter-University Center for Development)

Location: Chile (Santiago, Metropolitan Region)

Website: <http://www.cinda.cl>

E-mail: cinda@cinda.cl

Mission: The Inter-University Center for Development, CINDA, is an international non-profit organization composed of universities in Latin America and Europe. Together with its member universities, CINDA explores key issues on university policy and management in the interest of putting the accumulated knowledge to the service of public policy and member institutions.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Globalization or Internationalization
- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *Informes Educación Superior en Iberoamerica*

Year established: 1975

Major funding source(s):

- Members
- Projects and consultant services

Additional information: CINDA is an international organization. Currently, the executive Director is located in Chile.

Center of Educational Research (CIE-UCINF)

University UCINF
School of Education

Location: Chile (Santiago, Metropolitan Region)

Website: <http://www.cie-ucinf.cl>

E-mail: oespinoza@ucinf.cl

Mission: The purpose of the Center of Educational Research (CIE) is to generate and disseminate knowledge and specialized information on higher education with the idea of contributing to the analysis, design, implementation and evaluation of actions, programs, and educational policies at the local, regional, national, and international levels.

Focus areas:

- Access and Equity
- Private Higher Education and Privatization
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- Working papers (4/yr)
- Book series (1/yr)
- Electronic publications (5/yr)

Year established: 2010

Major funding source(s):

- University support
- Foundations grants

Number of faculty, researchers, and professional staff: 4

Center for Research on Educational Policy and Practice, Higher Education Area (CEPPE)

Pontifical Catholic University of Chile
Faculty of Education

Location: Chile (Santiago, Metropolitan Region)

Website: <http://www.ceppe.cl>

E-mail: ceppe@uc.cl

Mission: CEPPE's primary mission is to conduct research on policies and practices in education and to contribute to the development of the Chilean educational system. CEPPE seeks to improve the base of evidence upon which society and educational institutions rely to understand and respond to the educational needs of the country.

Focus areas:

- Administration, Management, or Leadership
- Law or Public Policy
- Private Higher Education and Privatization

Regular publication(s) (Frequency):

- Notes for Education (3-4/yr)
- Book series (1/yr)

Year established: 2012

Major funding source(s):

- Government research agency grant
- University support

Number of faculty, researchers, and professional staff: 5

CHINA

Anhui

Institute of Higher Education*

Anhui University

Location: China (Hefei, Anhui)

Website: <http://ihe.ahu.edu.cn>

E-mail: gjs@ahu.edu.cn

Mission: The Institute of Higher Education (IHE) at Anhui University is a teaching and research organization, established in November 2005 and headed by Professor ZHANG Jing. Its main responsibilities include: undertaking educational research and teaching tasks at the university; facilitating discipline construction of pedagogy and cultivating advanced talent; engaging in research and practice on provincial higher education reform; providing consultancy on decision-making strategies for colleges, universities and educational administrative departments; conducting research in support of university innovation and development; actively providing information and consultancy for university strategic planning and decision-making; organizing applications for and undertaking educational research projects from the state, ministries and Anhui province; overseeing the secretariat office of the Anhui Association of Higher Education; publishing continuously two academic journals, *Higher Education Research Weekly* and *Domestic Higher Education Research Trends* (authorized and financed by the China Association of College Teaching).

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- History of Higher Education

Regular publication(s)/frequency:

- *Domestic Higher Education Research Trends* (4/yr)
- *Higher Education Research Weekly* (4/yr)

Year established: 2005

Major funding source(s):

- University support
- Government allocations

Number of faculty, researchers, and professional staff: 10

* Information obtained from organization's website.

Institute of Higher Education Research*

University of Science and Technology of China

Location: China (Hefei, Anhui)

Website: <http://iher.ustc.edu.cn>

E-mail: iher@ustc.edu.cn

Mission: The Institute of Higher Education (IHE) at University of Science and Technology of China was founded in 1994 to understand the experience of domestic and foreign universities across the world. In order to meet the strategic goal of building world-class research universities, the Institute of Higher Education seeks to enhance the study of higher education practice and policy decisions in China by providing information and advice to the University. The Institute has three centers: 1) Higher Education Research Center, 2) Center for Public Policy, and 3) Graduate Education Research.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- History of Higher Education

Regular publication(s)/frequency:

- *Graduate Education Research* (6/yr)

Year established: 1994

Major funding source(s):

Institution of Higher Education

Renmin University of China
School of Education

Location: China (Beijing, Beijing)

Website: <http://heso.ruc.edu.cn>

E-mail: heso@ruc.edu.cn

Mission: The mission at the Institute of Higher Education of Renmin University of China serves to provide advice on decision-making and policy development for our Institution. Since our founding, we have taken up research projects assigned by various organizations such as the Ministry of Education, Chinese Association of Higher Education and The Center of Asian Studies of Renmin University of China. We strive to help the university achieve its goal of building a “world-class” university that is approved by and satisfies the people in our country. Renmin University of China, located in Beijing, is a top research university in China with strong programs in humanities and social sciences. The School of Education at Renmin University of China was established in November 2011 on the basis of Renmin's rich educational traditions and through combining the former Institute of Education and the Institute of Higher Education.

Research Center for Higher Education

National Institute of Education Sciences

Location: China (Beijing, Beijing)

Website: <http://www.nies.net.cn>

E-mail: nx.zhnx@yahoo.com.cn

Mission: The Research Center for Higher Education contributes to education development and reform in China by advising on the policy-making process, advancing theoretical innovation, and guiding local practices in the field of higher education. Established in 1957, the National Institute of Education Sciences (NIES) is a research arm of the Ministry of Education and the only national-level comprehensive education research institution in China. The predecessor of the NIES, the Education Research Division of the Central Research Institute, was founded in 1941. For over 70 years since its original establishment, NIES has strived to contribute to education development in China by advising policy-making processes, advancing theoretical innovation, and guiding local practices.

Focus areas:

- Economics, Financing, or Funding of Higher Education

Research Institute of Higher Education*

Xiamen University
Institute of Education

Location: China (Xiamen, Fujian)
Website: <http://ihe.xmu.edu.cn>
E-mail: gjs@xum.edu.cn

Mission: Xiamen University's Research Institute of Higher Education seeks to research the key issues of higher education development and reform in China. The Institute of Education at Xiamen University, often referred to as Research Institute of Higher Education Science, was developed as a Research Unit of Higher Education Science. It was the earliest academic organization specialized in higher education in China, founded on May 17, 1978. Authorized by Ministry of Education in February 1984 and accredited by the Committee on Degrees of the State Council, the Institute was the first in China to set up a master's program in higher education on January 13, 1984, and a doctoral program in higher education on July 28, 1986. Professor Pan Maoyuan was designated as a Ph.D. supervisor for doctoral students, and served as the first supervisor in the field of higher education in mainland China. The current director of the Institute is Dr. Liu Haifeng.

Shanghai

Center for World-Class Universities

Shanghai Jiao Tong University

Graduate School of Education

Location: China (Shanghai, Shanghai)

Website: <http://gse.sjtu.edu.cn/EN/centers.htm>

E-mail: cwcu@sjtu.edu.cn

Mission: The Center for World-Class Universities (CWCU) is a strategic research unit by the Chinese Ministry of Education. CWCU has been focusing on the study of world-class universities for many years, published the first Chinese-language book titled *World-Class Universities* and co-published the first English book titled *World-Class Universities* with the European Centre for Higher Education of UNESCO. CWCU initiated the "First International Conference on World-Class Universities" (WCU-1) in 2005 and organizes the conference biennial, which attracts a large number of participants from all major countries. CWCU endeavors to build databases of major research universities in the world, a clearinghouse of literature on world-class universities, and provide consultation for governments and universities.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Quantitative Research Methods

Regular publication(s)/frequency:

- *Book Series on World-class University Studies* (1/yr)
- *Journal of International Higher Education* (4/yr)

Year established: 2005

Major funding source(s):

- University support
- Foundation grants

Number of faculty, researchers, and professional staff: 17

Institute of Higher Education

East China Normal University

School of Education Sciences

Location: China (Shanghai, Shanghai)

Website: <http://www.ihe.ecnu.edu.cn/en>

E-mail: yyue@ses.ecnu.edu.cn

Mission: The Institute of Higher Education (IHE) is committed to training advanced talent who enjoy innovative spirit and international perspective and who aspire to conduct teaching, research, and management in higher education or other related fields. IHE is one of the most important bases for training high-level expertise in China and for providing research and consultant services in higher education. At present, IHE has 15 faculty members, 14 of which have a doctorate, with 6 doctoral supervisors, 5 master tutors, and 3 part-time professors. By September 2009, IHE had taken in 131 doctoral students, 90 of which have acquired doctorates. Three doctoral dissertations have been named Excellent Doctoral Dissertations by the Chinese Society of Higher Education. Two doctoral dissertations have been awarded Excellent Doctoral Dissertation designations by the Shanghai Academy of Social Sciences. IHE began to accept post-docs in 2000.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Comparative or International Studies

Regular publication(s)/frequency:

- *The New Development of Chinese Higher Education* (1/yr)

Year established: 1982

Major funding source(s):

- University support
- Government allocations

Number of faculty, researchers, and professional staff: 16

Institute of Higher Education

Shanghai Jiao Tong University

Graduate School of Education

Location: China (Shanghai, Shanghai)

Website: <http://gse.sjtu.edu.cn>

E-mail: kyu@sjtu.edu.cn

Mission: The Institute of Higher Education seeks to achieve a coordinated development of graduate education, and systematic, in-depth research by dedicated research institutions and professional research groups. The Center for the Study of Graduate Education (CSGE) of the Graduate School of Education (GSE) at Shanghai Jiao Tong University was founded in such a context. CSGE aims to become a research center of graduate studies with international influence. The Center strives to become a research information center, a policy document center, and a policy consultancy center for graduate education reform and development in China.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation

Regular publication(s)/frequency:

- *International Graduate Education Digest* (12/yr)

Year established: 2007

Major funding source(s):

- Foundation grants
- University support

Number of faculty, researchers, and professional staff: 9

Additional information: The Graduate School of Education (GSE), Shanghai Jiao Tong University is a small, vibrant, research-focused institute with 25 full-time academics and staff and around 60 graduate students. The School has a special focus on higher education and is best known for the “Academic Ranking of World Universities (ARWU),” which it has published every year since 2003. The school has research centers on world-class universities, graduate education, and science and technology policy. The school is based in the Minhang campus of Shanghai Jiao Tong University in Shanghai, China.

Institute for Higher Education

Shanghai Municipal Education Commission
Shanghai Academy of Educational Sciences

Location: China (Shanghai, Shanghai)

Website: <http://www.cnsaes.org>

E-mail: jwxf@shmec.gov.cn

Mission: The Institute for Higher Education of the Shanghai Municipal Education Commission endeavors to provide services for educational policy-making, for the development of educational undertakings, and for the development of theories on higher education. The Institute has played an important role in the formulation of policies on higher education in Shanghai, helping shape the development of Shanghai's higher education development and reform. In addition, the Institute has gradually expanded our influence to the whole country by participating actively in policy research on educational development in China.

Focus areas:

- Administration, Management, or Leadership
- Law or Public Policy
- Student Affairs or Student Development

Year established: 1980

Major funding source(s):

- Government allocations
- Research funds

Number of faculty, researchers, and professional staff: 18

Institute of Higher Education

Shanghai Normal University

Location: China (Shanghai, Shanghai)

Website: <http://gjs.shnu.edu.cn>

E-mail: gjs@shnu.edu.cn

Mission: Shanghai Normal University's Institute of Higher Education was founded in 1987 to enhance the conditions of higher education institutions in China. The Institute has three main concentrations: 1) issues of higher education, 2) college career study topics, and 3) corruption in higher education. The Institute has previously organized the coordination of educational cooperation between China and Germany/EU. For example, the Institute has organized the "German-Chinese Forum for Higher Education" and "German-Chinese Educational Leadership Summit Dialogue System."

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization

Regular publication(s)/frequency:

- *Shanghai Education (Global Education Edition)* (12/yr)
- *Journal of World Education* (24/yr)
- *China Education Daily (Global Education Edition)* (52/yr)

Year established: 1987

Major funding source(s):

- University support
- Government allocations
- Projects

Number of faculty, researchers, and professional staff: 20

Sichuan

Research Center of Higher Education

Southwest University
Faculty of Education

Location: China (Beibei, Sichuan)

Website: <http://gaojs.swu.edu.cn/gjs>

E-mail: panli@swu.edu.cn

Mission: The mission of the Research Center of Higher Education is to explore the law of education and to carry forward the scientific spirit of higher education. The Center seeks to promote the reform and development of higher education in mainland China. Additionally, the Center seeks to analyze policy/management issues in higher education and quality assurance processes in East Asia.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Year established: 1986

Major funding source(s):

- Government allocations
- University support

Number of faculty, researchers, and professional staff: 10

Shandong

Institute of Higher Education*

Shandong University
Institute of Education

Location: China (Weihai, Shandong)

Website: <http://gjs.wh.sdu.edu.cn>

E-mail: sduwhjyk@163.com

Mission: The mission of Shandong University's Institute of Higher Education is to provide advisory information on university management decisions; examine management reform and development of theoretical and practical issues in higher education; and explore legal issues of higher education research and development to promote the construction of universities. The Institute has three research areas: 1) development strategy and university planning, 2) professional and curriculum construction, and 3) teaching and learning in management research.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- History of Higher Education
- Quality Assurance, Assessment, or Accreditation

Regular publication(s)/Frequency:

- *University Studies* (4/yr)

Year established: 2008

Major funding source(s):

- Government allocations
- University support

Number of faculty, researchers, and professional staff: 5

Yunnan

Research Institute of Higher Education (RIHE)

Yunnan University
Yunnan Higher Education Evaluation Center

Location: China (Kunming, Yunnan)

Website: <http://www.hie.ynu.edu.cn>

E-mail: jianxin@ynu.edu.cn

Mission: As the first research Institute in theory and practice of higher education in China, RIHE at Yunnan University plays an important role with the following functions: the education of 200 postgraduates, and hosting the Yunnan Higher Education Evaluation Center (YHEEC), Teachers' Professional Development (TPD), the academic journal *ACADEMY*, and the Yunnan Association of Higher Education (YAHE). Rooted on the fertile soil of a borderland province of 25 indigenous ethnic minorities, and adhering to the motto of "sincereness, creativity, efficiency and all-inclusiveness," RIHE has gradually formed a unique academic and life atmosphere of "thinking globally and acting locally" since our founding in 2002.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation

Regular publication(s)/Frequency:

- *Academy* (4/yr)

Year established: 2002

Major funding source(s):

- Government allocations

Number of faculty, researchers, and professional staff: 5

Zhejiang

Institute of Higher Education

Zhejiang University
College of Education

Location: China (Hangzhou, Zhejiang)

Website: <http://www.ced.zju.edu.cn/english>

E-mail: jyxy187@zju.edu.cn

Mission: The Institute for Higher Education at Zhejiang University was established by merging the original institute for higher education in Zhejiang University, Hangzhou University, and Zhejiang Agricultural University. We aim to develop a high level of research capability for teaching and education management. We have created research groups on higher education policy, international higher education, comprehensive higher education, intelligence and editing, and an institute for higher education. In addition, we have created the Secretariat of the Zhejiang Association for Higher Education Theoretical Studies. We have two journals, i.e. *Zhejiang Higher Education* and *Zhejiang Postgraduate Education*. We are housed in the College of Education. The College of Education at Zhejiang University is one of the leading research colleges in China. It consists of the Department of Education, the Department of Physical Education, the Institute of Educational Leadership & Policy, the Institute of Curriculum & Teaching, the Center for Interdisciplinary Applied Psychology, the Modern Educational Technology Center, the Division of Non-major Physical Education, the Division of Military Education and other institutions.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization

Regular publication(s)/Frequency:

- *Zhejiang Higher Education* (1/yr)
- *Zhejiang Postgraduate Education* (1/yr)
- *Zhejiang University Educational Research* (1/yr)

Year established: 1983

Major funding source(s):

- University support
- Foundation grants

Number of faculty, researchers, and professional staff: 10

COLOMBIA

El Observatorio de la Universidad Colombiana (The Observatory of Colombian Universities)

Instituto Latinoamericano de Liderazgo (ILL)

Location: Colombia (Bogotá)

Website: <http://www.universidad.edu.co/>

E-mail: universidad@universidad.edu.co

Mission: The Observatory reports daily events in Colombian higher education. It serves as a reference for public policy decision-making and performs analysis on the system.

Focus areas:

- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Regular publication(s) (Frequency):

- News on Higher Education (365/yr)
- Columns of higher education review (52/yr)
- National higher education indicators (1/yr)

Year established: 2007

Major funding source(s):

- Self-financed

Number of faculty, researchers, and professional staff: 3

CROATIA

Institute for the Development of Education

Location: Croatia (Zagreb)

Website: <http://www.iro.hr/en/>

E-mail: nscukanec@iro.hr

Mission: The Institute for the Development of Education contributes to the development of higher education policy, provides expert support to institutions, connects domestic and international experts and enables individuals in Croatia and the region to achieve their educational goals. **Vision:** The Institute for the Development of Education advocates a system of higher education that ensures equal educational opportunities, adheres to the principle of quality assurance, promotes international cooperation, supports lifelong learning and meets both the needs of the individual and society.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *IDÉ Weekly Overview* (52/yr)
- *IDÉ News* (365/yr)
- *IDÉ Academic Info Service* (365/yr)

Year established: 1999

Major funding source(s):

- EU and government grants

Number of faculty, researchers, and professional staff: 8

CZECH REPUBLIC

Centre for Higher Education Studies

Location: Czech Republic (Prague)

Website: <http://www.csvs.cz>

E-mail: sebkova@csvs.cz

Mission: Main mission: research about higher education.

Activities: basic research, applied research, projects, consultation and services for higher education institutions, academics and students, services in quality assurance, and international collaboration.

Focus areas:

- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation
- Student Affairs or Student Development

Regular publication(s) (Frequency):

- *AULA journal* (higher education and research policy review) (2/yr)

Year established: 1990

Major funding source(s):

- Public sources
- Private sources (small percentage of overall sources)

Number of faculty, researchers, and professional staff: 20

Education Policy Centre - EPC (Středisko vzdělávací politiky - SVP)

Charles University (Univerzita Karlova)

Faculty of Education (Pedagogická fakulta)

Location: Czech Republic (Prague)

Website: <http://www.strediskovzdelavacipolitiky.info/>

E-mail: jan.koucky@pedf.cuni.cz

Mission: The mission of EPC is to analyze and evaluate the development of the Czech (higher) education system, setting it in a wider social and economic context and in an international perspective, identifying new requirements on education and human resource development and formulating its aims and objectives, as well as carrying out research focusing on selected themes of special interest, such as level, sources and effects of inequity in education (particularly in access to tertiary education), higher education financing and typology, the transition from school to work, the employability and the position of graduates on the labor market, and anticipation and forecasting of qualification requirements.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- *Higher Education Abroad / World HE (Vysoke skolstvi ve svete – e-monitor, only in Czech)* (52/yr)

Year established: 1995

Major funding source(s):

- Ministry of Education
- Research grants

Number of faculty, researchers, and professional staff: 7

EGYPT

The Middle East Institute for Higher Education (MEIHE)

The American University in Cairo
The Graduate School of Education

Location: Egypt (Cairo)
Website: <http://www.aucegypt.edu/gse/meihe/Pages/default.aspx>
E-mail: mz@aucegypt.edu

Mission: MEIHE serves as a hub for educational research, innovation, transformation, inquiry and institutional building with special emphasis on academies, faculties of education, and schools. MEIHE accompanies educational reform in the region and aims to render higher education relevant to school and classroom improvement. It focuses on the development of teachers as empowered agents of change. The institution strengthens the organic link and mediates between school based reform and the reform of faculties of education. The thematic link of MEIHE is transitions in education.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Globalization or Internationalization

Regular publication[s] (Frequency):

- Reports (10 total)

Year established: 2010

Major funding source[s]:

- University support
- Foundation and international grants

Number of faculty, researchers, and professional staff: 12

Additional information: MEIHE is active in capacity building and institutional development and hence provides faculties of education on a Masters level, training and blended courses related to action research, reform, and professional development. The Institute has created a blended course that is delivered with hybrid methods. MEIHE is currently a holder of a TEMPUS project aiming at the capacity building of faculties of education in a number of countries in the region.

FINLAND

Centre for Research and Development of Higher Education

University of Helsinki
Institute of Behavioural Sciences

Location: Finland (Helsinki)
Website: <http://www.helsinki.fi/yty/english/index.htm>
E-mail: yty-yopeda@helsinki.fi

Mission: The Helsinki University Centre for Research and Development promotes and coordinates scholarship of teaching, conducts research on higher education, enhances research-based teaching and evidence-based academic development, and provides courses on university pedagogy to teachers and researchers at the University of Helsinki. The center's main tasks are to carry out and support research in the field of university pedagogy and to coordinate and organize courses on university pedagogy for academic personnel within all disciplines at the University of Helsinki. The center fosters research on learning and teaching in higher education and improves university teachers' skills and understanding of the factors of successful studying and high quality teaching. Our multidisciplinary research focuses on learning, teaching, learning environments, and practices in higher education. Therefore, the center cooperates closely with pedagogical experts across the universities nationally and internationally. The center also supports field-specific development efforts in all campuses and plays a strategic role in institution-wide changes at the university.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Qualitative Research Methods
- Quantitative Research Methods

Year established: 2012

Number of faculty, researchers, and professional staff: 20

Finnish Institute for Educational Research

University of Jyväskylä
Research institute

Location: Finland (Jyväskylä)

Website: <https://ktl.jyu.fi/en/introduction>

E-mail: jussi.p.valimaa@jyu.fi

Mission: The Finnish Institute for Educational Research is a multidisciplinary center for educational research. All of our research activities are guided by the aim to make locally relevant, nationally important and internationally interesting research.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning

Regular publication(s) (Frequency):

- *Journal of University Pedagogy* (2/yr)
- *The Finnish Journal of Education* (5/yr)
- Books and research reports (14-20/yr)

Year established: 1968

Major funding source(s):

- Finnish Ministry of Education

Number of faculty, researchers, and professional staff: 25+

Additional information: Higher education research is one of the strongest fields of research in the Finnish Institute for Educational Research with a tradition of 42 years of research. We do not have doctoral programs but we supervise about 10 doctoral students in a year.

Higher Education Group (HEG)

University of Tampere
School of Management

Location: Finland (Tampere)

Website: <http://www.uta.fi/jkk/heg/en/index.html>

Mission: The Higher Education Group (HEG) is a unit focusing on higher education research and teaching at the University of Tampere, School of Management. HEG provides research and consultancy services to higher education institutions, government organizations and other stakeholders.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization

Year established: 2002

Major funding source(s):

- University support
- Grants
- Fees

Number of faculty, researchers, and professional staff: 5

Research Unit for the Sociology of Education (RUSE)

University of Turku

Location: Finland (Turku)

Website: <http://ruse.utu.fi>

E-mail: osmo.kivinen@utu.fi

Mission: RUSE's mission is to produce internationally high quality research in social sciences, especially on higher education, education policy and on the relations between education and the labor market; to train doctoral students; to develop methodological solutions for social sciences and modes of analysis for evaluating research and teaching; and to develop digital learning environments.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *RUSE's reports*

Year established: 1989

Major funding source(s):

- University of Turku
- Ministry of Education and Culture

Number of faculty, researchers, and professional staff: 22

FRANCE

Institute for Research on Education, Economics and Sociology of Education (IREDU)

Université de Bourgogne

Department of Economics

Location: France (Dijon)

Website: <http://iredu.u-bourgogne.fr>

E-mail: iredu@u-bourgogne.fr

Mission: Research on education, with a focus on empirical quantitative analysis, along three strands:

- Assessment of organization and public policy of education
- Production of skills and competencies in the training and education system
- Use and value of learned competencies on the labor market

Focus areas:

- Access and Equity
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Quantitative Research Methods

Regular publication(s) (Frequency):

- Working papers (Documents de travail de l'IREDU)

Year established: 1972

Major funding source(s):

- University
- CNRS (National center for scientific research)

Number of faculty, researchers, and professional staff: 15

Additional information: Publications of the researchers are accessible on the open archive:

<http://halshs.archives-ouvertes.fr/IREDU/fr/>

IREDU is involved in

- Five Master's programs only partly dealing with higher education
- Two Ph.D. programs in Education and Economics, only partly specializing in higher education.

Institutional Management in Higher Education (IMHE)

Organisation for Economic Co-operation and Development (OECD)

Directorate for Education and Skills

Location: France (Paris)

Website: <http://www.oecd.org/edu/imhe>

E-mail: imhe@oecd.org

Mission: To improve higher education by providing strategic analysis of institutional development in the context of national policy and global trends.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Quantitative Research Methods

Year established: 1976

Major funding source(s):

- Membership fees
- Conferences fees and revenues from selling books
- Contributions from countries

Number of faculty, researchers, and professional staff: 5

Research Program on Higher Education and Research

Sciences Po and CNRS

Center for the Sociology of Organizations

Location: France (Paris)

Website: http://cso.edu/page_pole.asp?pol_id=20

E-mail: christine.musselin@sciencespo.fr

Mission: Leading research projects on:

- Higher education and research institutions: how are they governed, how are decisions made, what is the division of work.
- Higher education and science policies at the regional, national and European levels, mostly in France, UK and Germany.
- Academic labor markets and the academic profession: recruitment, careers and their transformation over time.

Focus areas:

- Academic Profession
- Comparative or International Studies
- History of Higher Education
- Quantitative Research Methods
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Qualitative Research Methods

Year established: 1983

Major funding source(s):

- Public budget from the Ministry
- University support

Number of faculty, researchers, and professional staff: 2

United Nations Educational, Scientific and Cultural Organization (UNESCO)

Location: France (Paris)

Website: <http://www.unesco.org>

E-mail: l.ruas@unesco.org

Mission: UNESCO's mission: "to contribute to the building of peace, poverty eradication, lasting development and intercultural dialogue, with education as one of its principal activities to achieve this aim. The Organization is committed to a holistic and humanistic vision of quality education worldwide, the realization of everyone's right to education, and the belief that education plays a fundamental role in human, social and economic development."

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- Occasional e-newsletters

Year established: 1945

Major funding source(s):

- Contributions from Member States
- Extra-budgetary grants from member states, foundations, philanthropies, etc.

Number of faculty, researchers, and professional staff: 3

Additional information: UNESCO participates in the UNITWIN/UNESCO Chairs Programme that promotes international inter-university cooperation and networking to enhance institutional capacities through knowledge sharing and collaborative work. See more at: <http://en.unesco.org/unitwin-unesco-chairs-programme>

GERMANY

Bavarian State Institute for Higher Education Research and Planning (IHF)

Location: Germany (Munich, Bavaria)

Website: <http://www.ihf.bayern.de/>

E-mail: Sekretariat@ihf.bayern.de

Mission: The Bavarian State Institute for Higher Education Research and Planning is a research institute funded by the Bavarian State Ministry of Sciences, Research and the Arts. It was established in 1973 by the Bavarian State to provide academic support to the expansion of higher education since the late 1960s. The IHF conducts research in fields of relevance to higher education policy and provides planning and decision support to the Bavarian higher education ministry, the Bavarian parliament, and higher education institutions. Consultancy and advice for the Bavarian higher education institutions is another important area of activity.

Focus areas:

- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- *Beiträge zur Hochschulforschung* (4/yr)
- *Studien zur Hochschulforschung* (1-2/yr)
- *IHF kompakt* (2-3/yr)

Year established: 1973

Major funding source(s):

- Bavarian State Ministry of Sciences, Research and the Arts (Bayerisches Staatsministerium für Wissenschaft, Forschung und Kunst (StMWFK))
- Research grants by other public entities in Germany like the Federal Ministry for Higher Education and Research (BMBF)

Number of faculty, researchers, and professional staff: 19

CHE Centrum für Hochschulentwicklung (Center for Higher Education)

Location: Germany (Guetersloh, North Rhine-Westphalia)

Website: <http://www.che.de>

E-mail: britta.hoffmann-kobert@che.de

Mission: We promote a versatile scientific system that, amid changing conditions, offers optimal and differentiated development opportunities to everyone who wants to participate and benefit from it. The three main foci of the CHE are using and shaping autonomy, developing and implementing diverse profiles and realizing societal responsibility.

Year established: 1994

Department for Higher Education Research

Humboldt-Universität zu Berlin

Philosophical Faculty IV, Institute for Education

Location: Germany (Berlin, Berlin)

Website: <http://www.ewi.hu-berlin.de/hsf/>

E-mail: andrae.wolter@hu-berlin.de

Mission: The current research activities of our department focus on:

- The relationships between higher education and lifelong learning (e.g., non-traditional students, university continuing education)
- Empirical student research (e.g., participation in higher education, equality of opportunities in access, drop-out)
- The transition of graduates from university to the labor market and the employment system
- Reforms and changes in higher education, in particular the implementation of new governance concepts
- The development and implementation of monitoring concepts and procedures in the field of education.

Focus areas:

- | | |
|--|---|
| ▪ Academic Profession | ▪ Access and Equity |
| ▪ Law or Public Policy | ▪ Quality Assurance, Assessment, or Accreditation |
| ▪ Student Affairs or Student Development | ▪ Student Identity, Diversity, or Multiculturalism
(e.g., gender, race, minority groups) |

Year established: 2010

Major funding source(s):

- Third party funding, mostly public

Number of faculty, researchers, and professional staff: 10

Additional information: We don't offer a special higher education program but we are part of a BA and MA course for education and we are responsible for some higher education related modules as part of our BA and MA courses. And, students can write their MA thesis in the area of higher education research but they gain a general BA or MA degree in education. At the Ph.D.-level our department has many doctoral students but the same is true as at BA and MA level: we provide a special research program in higher education research for Ph.D.-candidates but they gain a general degree.

Deutsches Zentrum für Wissenschafts- und Hochschulforschung (German Centre for Research on Higher Education and Science Studies)

Location: Germany (Hannover, Niedersachsen)

Website: <http://www.dzhw.eu/english>

E-mail: braun@dzhw.eu

Mission: The Institute serves as a center of excellence for research on higher education and science studies, supports research on higher education and science studies in Germany and helps meet the need for research-based services among players in academic and scientific policymaking. It provides state-of-the-art infrastructures for research on higher education and science studies.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education

Regular publication[s] (Frequency):

- *Forum Hochschule* (12/yr)

Year established: 2013

Major funding source[s]:

- German federal and state governments

Number of faculty, researchers, and professional staff: 25+

iFQ - Institute for Research Information and Quality Assurance

Location: Germany (Berlin, Berlin)

Website: <http://www.forschungsinfo.de>

E-mail: info@forschungsinfo.de

Mission: The Institute for Research Information and Quality Assurance (iFQ – Institut für Forschungs information und Qualitätssicherung) is a non-university organization for science studies located in Berlin (Germany). The iFQ provides information and analysis of developments and transformations in the German and international science system. It focuses on conditions, prerequisites and consequences of research policy and research funding. The iFQ assists and advises performers such as universities or research organizations as well as policymaking bodies on different administrative or governmental levels. The close interaction between research and service is a key element of the Institute's approach. Projects are being implemented in the following four fields of activities:

- Evaluation and review processes;
- Indicators, methods, and bibliometrics;
- Monitoring the German and international science system;
- Young researchers and careers.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation
- Quantitative Research Methods

Regular publication(s) (Frequency):

- *iFQ Working Papers*
- *iFQ Newsletter*

Year established: 2005

Number of faculty, researchers, and professional staff: 25+

Additional information:

- Master's program "Science Studies" (Wissenschaftsforschung) in cooperation with the Humboldt University Berlin
- <http://www.sowi.hu-berlin.de/studiengaenge/masowi/mawifo>

Institut für Hochschulforschung Halle-Wittenberg (HoF) (Institute for Research on Higher Education)

Martin-Luther-Universität Halle-Wittenberg (MLU)

Location: Germany (Lutherstadt Wittenberg, Saxony-Anhalt)

Website: <http://www.hof.uni-halle.de>

E-mail: institut@hof.uni-halle.de

Mission: The mission of HoF is to provide high quality research and expertise on topics revolving around the higher education and science sector in Germany and abroad. With its particular location in East Germany it has covered a wide array of regional and development issues in this field and thus has unique field knowledge on economic and social transformation processes and the role of higher education and R&D. This includes associated topics such as demographic change, regional development and its links to knowledge and science based society. HoF is striving to apply its regional and national expertise progressively on an international level.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- History of Higher Education

Regular publication(s) (Frequency):

- Buchreihe "Hochschulforschung Halle-Wittenberg" [Book series on "Higher Education Research in Halle-Wittenberg" with special regard to demographic change and spatial development] (2/yr)
- *Die Hochschule. Journal für Wissenschaft und Bildung* [The University Journal for Science and Education] (2/yr)
- *HoF-Handreichungen* [HoF guides] (2/yr)

Year established: 1996

Major funding source(s):

- Ministry of Science and Economy of Saxony-Anhalt
- Federal Ministry of Education and Research Germany

Number of faculty, researchers, and professional staff: 25+

Additional information: Doctoral programs are carried out in cooperation with a university that awards the title, provides the primary mentor and offers additional courses. Doctoral students are financed by research grants for which they work part-time parallel to own work on the Ph.D. thesis.

International Centre for Higher Education Research INCHER

University of Kassel

Interdisciplinary Unit of the University of Kassel

Location: Germany (Kassel, Hesse)

Website: <http://www.uni-kassel.de/einrichtungen/en/incher/home.html>

E-mail: hoeckelmann@incher.uni-kassel.de

Mission: INCHER Kassel is a research institute with a strong international and interdisciplinary orientation (mainly sociology, economics, psychology). We focus on all relevant aspects concerning the relations between society and higher education, in

particular on academic change; students' experiences, graduates and the labor market; governance and organization; and innovation and transfer. In this, we try expand the boundaries of higher education research by collaborating with researchers in science studies, organization studies, and innovation studies.

- Government allocations

Number of faculty, researchers, and professional staff: 5

* Information obtained from organization's website.

HUNGARY

Center for International Higher Education Studies (CIHES)

Corvinus University of Budapest
Faculty of Economics

Location: Hungary (Budapest)

Website: <http://nffkk.uni-corvinus.hu>

E-mail: nffkk@uni-corvinus.hu

Mission: Utilize the synergy of different disciplines, different methodologies and various views on higher education represented by various departments of the university. One of the goals of the Center is to join research and management consortia and to contribute to the analysis of the educational processes with suggestions and proposals worldwide. The Center wishes to contribute to the success of the projects with its special expertise in the Eastern and Central European developments. The CIHES organizes an annual conference entitled: Annual Hungary Higher Education Conference.

Focus areas:

- Academic Profession
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *NFFKK Füzetek (CIHES Papers)* (2/yr)

Year established: 2008

Major funding source(s):

- Research grants
- University support

Number of faculty, researchers, and professional staff: 5

Higher Education Pedagogy

ELTE University
Faculty of Education and Psychology

Location: Hungary (Budapest)

Website: <http://www.fmik.elte.hu/>

E-mail: halaszg@helka.iif.hu

Mission: Research in the domains of teaching and learning in higher education, higher education management, innovation and development in higher education, implementation of higher education reforms, and international comparisons.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Year established: 2007

Major funding source(s):

- University support
- Foundation grants

Number of faculty, researchers, and professional staff: 5

INDIA

Center for Higher Education

Tata Institute of Social Sciences
School of Education

Location: India (Mumbai, Maharashtra)

Website: <http://www.tiss.edu>

E-mail: ggwan@tiss.edu

Mission: The aim of our center is to train scholars in the field of higher education, with special emphasis on policy, planning, equity, quality, access, and performance. We disseminate our research through publications, and by presenting at conferences and seminars.

Focus areas:

- Academic Profession
- Access and Equity
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 2012

Major funding source(s):

- University Grants Commission
- Government of India

Number of faculty, researchers, and professional staff: 1

Additional information: 2-3 staff will be appointed soon. We are also planning on introducing a full time MA in Higher Education.

Centre for Policy Research in Higher Education (CPRHE)

National University of Educational Planning and Administration

Location: India (New Delhi, Delhi)

E-mail: nv.varghese@nuepa.org

Mission: The mission of the CPRHE is to generate evidence-based knowledge to support the formulation of policies, plans and programs for the development of higher education in India.

Focus areas:

- | | |
|--|--|
| ■ Access and Equity | ■ Administration, Management, or Leadership |
| ■ Economics, Financing, or Funding of Higher Education | ■ Globalization or Internationalization |
| ■ Law or Public Policy | ■ Private Higher Education and Privatization |

Regular publication(s) (Frequency):

- *India Higher Education Report*
- Annual publication beginning in December 2014

Year established: 2013

Major funding source(s):

- University Grants Commission
- From different agencies on a project basis

Number of faculty, researchers, and professional staff: 15

Additional information: The center is also involved in an M. Phil and a doctoral program. The students complete their doctoral studies in areas related to educational planning and policy.

Zakir Husain Centre for Educational Studies

Jawaharlal Nehru University
School of Social Sciences

Location: India (New Delhi, Delhi)

Website: <http://www.jnu.ac.in>

E-mail: bkhadria@mail.jnu.ac.in

Mission: The Center takes a social science approach to the analysis of educational issues, and runs M.Phil and Ph.D. programs. The core social science disciplines engaged in these programs are economics, psychology, history, and sociology.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *India Migration Report* (2/yr)
- *IMDS Working Paper Series, International Migration and Diaspora Studies* (12/yr)

Year established: 1972

Major funding source(s):

- University support

Number of faculty, researchers, and professional staff: 9

Additional information: We have research projects on:

- International Migration and Diaspora Studies
- Multilingualism

IRELAND

Higher Education Policy Research Unit (HEPRU)

Dublin Institute of Technology
Centre for Social and Education Research

Location: Ireland (Dublin)

Website: <http://www.dit.ie/hepru/>

E-mail: ellen.hazelkorn@dit.ie

Mission: HEPRU conducts comparative policy research and analysis, provides consultancy, and undertakes higher education assessment and evaluation with a strong emphasis on issues of strategic and policy concern to the future of higher education, at a regional, national and global level.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies

Major funding source(s):

- Grants
- Consultancy

Number of faculty, researchers, and professional staff: 3

ITALY

Centre for Higher Education Internationalisation

Università Cattolica del Sacro Cuore

Location: Italy (Milan)

Website: <http://www.unicatt.it/CHEI>

E-mail: chei@unicatt.it

Mission: The center promotes and conducts research, training and policy analysis to strengthen the international dimensions of higher education. CHEI aims to contribute to research and professional practice in higher education internationalization through extensive outreach in activities and through affiliation with leaders and practitioners in the field. Key areas are: emerging trends in internationalization, rationales for internationalization, international education and institutional development, and internationalization of Italian universities in the European and global context. CHEI organizes seminars, courses and workshops, offers a doctoral program in internationalization of higher education, publishes books and documents, and does own and contract research.

Focus areas:

- Globalization or Internationalization
- Student and Scholar Mobility
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Regular publication(s) (Frequency):

- A Book Series under the University Press Vita e Pensiero (2-3/yr)

Year established: 2012

Major funding source(s):

- University support
- Contract research
- Training

Number of faculty, researchers, and professional staff: 3

JAPAN

Center for the Advancement of Higher Education*

Tohoku University

Location: Japan (Sendai)

Website: http://www3.he.tohoku.ac.jp/index_eng.html

E-mail: caheoffice@he.tohoku.ac.jp

Mission: The mission of the center is to carry out research and development for higher education for our students at both the undergraduate and postgraduate levels, the development and improvement of the entrance examination system, the improvement and upgrading of educational contents and methods for liberal education, and support for the students to satisfy their individual needs of student life while coordinating all these activities in an integrated way.

Center for Research and Development of Higher Education

The University of Tokyo

Location: Japan (Bunkyo-ku, Tokyo)

Website: <http://www.he.u-tokyo.ac.jp/en/home/>

* Information obtained from organization's website.

Mission: Our center is an engine for the educational reform of the University of Tokyo. Educational reform at the University of Tokyo must fulfill its responsibilities in the two areas of education and social accountability. This requires the formation of an environment in which university employees respect the needs of both students and society. The center's activities include conducting research on education, implementing university-wide education programs, and promoting open education and faculty development, all with the common aim of institutional renewal at the University of Tokyo.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation
- Student and Scholar Mobility
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Private Higher Education and Privatization
- Student Affairs or Student Development

Regular publications/frequency:

- Monographs (1-2/yr)
- Working papers (2-3/yr)

Year established: 1996

Major funding source(s):

- Government allocation

Number of faculty, researchers, and professional staff: 14

Center for the Studies of Higher Education

Nagoya University

Location: Japan (Nagoya)

Website: http://www.cshe.nagoya-u.ac.jp/index_en.html

E-mail: info@cshe.nagoya-u.ac.jp

Mission: The Center for the Studies of Higher Education (CSHE) was established in 1998 with a special focus on research and the development of quality enhancement in undergraduate and postgraduate education.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Globalization or Internationalization
- Private Higher Education and Privatization
- Quality Assurance, Assessment, or Accreditation
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Knowledge, Politics and Organization

University of Bergen

Department of Administration and Organization Theory, Faculty of Social Sciences

Location: Norway (Bergen, Hordaland)

Website: <http://www.uib.no/en/rg/kpo>

E-mail: ivar.bleiklie@aorg.uib.no

Mission: Organize research and provide tutoring and specialized seminars for graduate (Master- and Ph.D.-level) students. The research group is vital to the integration of teaching and research at the graduate level.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization
- Law or Public Policy

Year established: 2006

Major funding source(s):

- Support from Department of Administration and Organization Theory
- Research grants

Number of faculty, researchers, and professional staff: 4

Additional information: The group does not have its own graduate program but provides specialization within the program in administration and organization theory offered by the Faculty of Social Sciences.

NIFU - Nordic Institute for Studies in Innovation, Research and Education

Location: Norway (Oslo)

Website: <http://www.nifu.no>

E-mail: post@nifu.no

Mission: NIFU aims to be a leading European research organization for studies of innovation, research and education at all levels. Our main research areas are:

- Primary and secondary education
- Higher education
- Research and innovation

We also collect, analyze and disseminate national statistics and indicators for R&D and innovation and are active participants in statistical cooperation at the European and international levels. NIFU intends to be an independent source for knowledge and an agenda-setter for policy, in its specialist areas of education, research, innovation and skills development. The Institute's vision is to develop studies of education, research and innovation, as multi-disciplinary and interdisciplinary fields of research in a global perspective; in doing this it will develop and strengthen its position as a leading European research institute for these areas. The Institute offers action- and decision-oriented research and knowledge for clients in the public and private sectors and pursues competitive tenders in these areas, at the national and international levels. The Institute is committed to being an active contributor to the research programs of the Norwegian Research Council and to international research programs. NIFU is an independent charitable foundation.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- Graduate surveys (1/yr)
- *Report on Science & Technology indicators* (2/yr)
- Working paper series (1/yr)

Year established: 1969

Major funding source(s):

- Competitive tenders and allocations from national and international research programs
- A basic grant from The Norwegian Research Council

Number of faculty, researchers, and professional staff: 25+

POLAND

Center for Public Policy Studies

University of Poznan (Adam Mickiewicz University)

Faculty of Social Sciences

Location: Poland (Poznan, Wielkopolska Region)

Website: <http://www.cpp.amu.edu.pl>

E-mail: kwiekm@amu.edu.pl

Mission: The Center's major objective is to do advanced research in higher education and higher education policy, mostly through large-scale international comparative projects in cooperation with international partners. Major areas of interest include, university management and governance, changing academic profession, higher education reforms in Central and Eastern Europe, academic entrepreneurialism, higher education legislation, and public sector reforms. The UNESCO Chair combines two dimensions which are often isolated in social sciences: research and policy (international, comparative higher education research is combined with higher education policy). Both the Chairholder and his partners have been involved in policy advisory work linking universities directly with development agencies, international non-governmental organizations and national governments in many countries. The UNESCO Chair is intended as a capacity-building mechanism for junior academics in the early stages of their careers from partner countries involved in research and policy projects. It goes far beyond traditional academic walls and involves partners and collaborators from the academic and policymakers communities. The Center which also houses UNESCO Chair in Institutional Research and Higher Education Policy involves aspiring young academics and Ph.D. students from both Poland and international partner institutions and offers them opportunities of networking, joint research, seminars, workshops and conferences, as well as unified methodologies of producing international, comparative, policy-relevant research.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Private Higher Education and Privatization

Regular publication(s) (Frequency):

- CPP Research Papers Series, 27 volumes since 2006 (4/yr)
- Book series *HERP: Higher Education Research and Policy* (2/yr)

Year established: 2002

Major funding source(s):

- Polish national research grants
- International research grants

Number of faculty, researchers, and professional staff: 10

Polish Rectors Foundation - Institute of Knowledge Society

Location: Poland (Warsaw, Mazowieckie Voivodship)

Website: <http://www.frp.org.pl>

E-mail: frpfund@mbox.pw.edu.pl

Mission: The intention of the group of 100 rectors – founders of the Foundation and the Institute – acting as citizens, was to create independent institutions that act for the benefit of the society, realizing pro publico bono their objective of supporting the development of the knowledge society and knowledge-based economy. An important component of the mission of the Foundation and the Institute are activities aimed at the development of an integrated system of higher education and scientific research that provides all institutions, both public and non-public, with an opportunity to operate under common rules which would guarantee their growth and fair competition.

Focus areas:

- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 2001

Major funding source(s):

- Non-governmental

Number of faculty, researchers, and professional staff: 16

PORTUGAL

CIPES - Centre of Research in Higher Education Policies

University of Porto and University of Aveiro

Location: Portugal (Matosinhos)

Website: <http://www.cipes.up.pt>

E-mail: cipes@pipes.up.pt

Mission: CIPES was established in 1998 and has strived to become a center of reference in Portugal and abroad in higher education research. From the outset, its mission has been to engage in scholarly research in order to advance critical thought and promote informed understanding about the vital policy issues confronting higher education at both the national and international arenas. The breadth and depth of projects and publications encompass the major higher education policy issues and reflects the wide diversity of academic backgrounds of the researchers at the center.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Private Higher Education and Privatization
- Quality Assurance, Assessment, or Accreditation

Year established: 1998

Major funding source(s):

- FCT - Portuguese National Science Research Council
- European Union (research programs)

Number of faculty, researchers, and professional staff: 25+

Additional information: Regarding academic programs, research centers in Portugal cannot award degrees, though can (and should) be involved in those programs. CIPES has been collaborating in national and international programs at both the Master's and Ph.D. levels. We coordinate one Ph.D. Program in higher education studies together with our 2 host institutions (the Universities of Porto and Aveiro).

RUSSIAN FEDERATION

Center for University Management

National Research University - Higher School of Economics
Institute of Education

Location: Russian Federation (Moscow)

Website: <http://ioe.hse.ru/en/um/>

E-mail: egrishkova@hse.ru

Mission: The Center's mission is to promote the development of higher education in Russia through the implementation of research and consulting projects for governments, non-governmental organizations, agencies, departments, enterprises and other businesses, and individuals.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization

Year established: 2011

Major funding source(s):

- Foundation grants
- University support

Number of faculty, researchers, and professional staff: 6

Higher Education Research Group

National Research University - Higher School of Economics
Institute of Education

Location: Russian Federation (Moscow)

Website: <http://ioe.hse.ru/>

E-mail: ioe@hse.ru

Mission: The activities of the Higher Education Research Group are focused on:

- Basic and applied research in area of development of universities and higher education systems;
- Consulting for universities, government, Russian, and international organizations in the field of higher education;
- Training higher education administrators and leaders.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *Higher Education News Digest* (52/yr)

Year established: 1997

Major funding source(s):

- Government allocations
- Consulting
- Research and Development

Number of faculty, researchers, and professional staff: 20

Additional information: The Higher Education Research Group staff regularly reviews and publishes material in the quarterly *Russian Journal of Educational Studies* (<http://www.hse.ru/en/mag/vo/>). The Group is also actively involved in longitudinal research of students' educational and labor trajectories, and has published several articles out of this work over the last year (please see <http://www.hse.ru/org/projects/75642514>).

Laboratory for Institutional Analysis

National Research University - Higher School of Economics
Center for Institutional Studies

Location: Russian Federation (Moscow)

Website: <http://cinst.hse.ru/en/projects>

E-mail: gudkevich@hse.ru

Mission: The main focus of the Laboratory is to study various aspects of the higher education system in Russia from a comparative perspective. The scope of projects includes (but are not limited to) the academic profession, salaries and contracts in academia, the university admission system and its role in assuring access and equity, determinants of student achievement (including the role of peer effects, networks, and psychological characteristics). The Laboratory's goal is to make the higher education system in Russia more visible in the global academic market through comparative projects and publications in international peer-reviewed journals. The Laboratory team consists of researchers with strong quantitative skills and backgrounds in education, sociology, and psychology.

Focus areas:

- Academic Profession
- Access and Equity
- Qualitative Research Methods

Year established: 2005

Major funding source(s):

- University support
- Government allocations

Number of faculty, researchers, and professional staff: 10

Laboratory for Universities Development

National Research University - Higher School of Economics
Institute of Education

Location: Russian Federation (Moscow)

Website: <http://uni.hse.ru/>

E-mail: univelopment@hse.ru

Mission: The main purpose of the Laboratory for Universities Development is to involve students and postgraduate students in active project work. Knowledge and skills are gained within workshops and discussions on the theoretical basis of project activity. The Laboratory creates an interdisciplinary framework for implementing high-quality projects and for conducting research aimed at developing higher education.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *Higher Education News Digest* (52/yr)

Year established: 2010

Major funding source(s):

- University support
- Foundation grants

Number of faculty, researchers, and professional staff: 9

SAUDI ARABIA

Center for Higher Education Research and Studies (CHERS)

Ministry of Higher Education

Location: Saudi Arabia (Riyadh)

Website: <http://chers.edu.sa>

E-mail: chers@mohe.gov.sa

Mission: Support decision making at higher education institutes and Ministry of Higher Education with research, critical studies, and knowledge to overcome national challenges and to comply with international standards.

Focus areas:

- Academic Profession
- Access and Equity
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- *The Saudi Journal of Higher Education* (2/yr)
- Selected Topics in Higher Education (Arabic) (12/yr)

Year established: 2000

Major funding source(s):

- Government allocation

Number of faculty, researchers, and professional staff: 5

SERBIA

Centre for Education Policy (CEP)

Location: Serbia (Belgrade)

Website: <http://www.cep.edu.rs>

E-mail: cep@cep.edu.rs

Mission: The mission of the Centre for Education Policy (CEP) is to improve the education system in Serbia and the region through providing professional support to the formulation of educational policies. The vision of CEP is a high quality, effective, efficient, open and democratic education system in the countries in the region, which fully contribute to their development in social, cultural, political and economic aspects.

Focus areas:

- Access and Equity
- Community College, Vocational, or Technical Education
- Economics, Financing, or Funding of Higher Education

Year established: 2005

Major funding source(s):

- Donor funded projects

Number of faculty, researchers, and professional staff: 9

SLOVENIA

Center for Educational Policy Studies (CEPS)

University of Ljubljana

Faculty of Education

Location: Slovenia (Ljubljana)

Website: <http://ceps.pef.uni-lj.si/>

E-mail: ceps@pef.uni-lj.si

Mission: CEPS was established as an organizational unit within the Faculty of Education in order to accelerate the research and development work in the field of educational policies, in particular through participation in international projects and activities. The Centre is a coordination hub of the teaching and research staff members from the Faculty of Education as well as associated

collaborators working in this field. The Centre also supports teaching and research training in the Faculty of Education, particularly at postgraduate level. Special emphasis is given to higher education research and policy.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Law or Public Policy

Regular publication[s] (Frequency):

- *CEPS Journal* (4/yr)
- *SLODRE novice* (6/yr)
- *Obrazi edukacije* and other non-regular publications

Year established: 2000

Major funding source[s]:

- Project funding
- University support

Number of faculty, researchers, and professional staff: 11

Additional information: CEPS takes part in the Doctoral School “Teacher Education and Educational Sciences,” coordinated by the Faculty of Education, University of Ljubljana. In this program, there is a specialization called “Educational Policy” where some candidates are preparing doctoral theses in the field of higher education studies. Among a total of about 20 Ph.D. students (full-time and part-time), 2-5 per year are specializing in educational policy, among them about 2 are in the field of higher education.

SOUTH AFRICA

Centre for Higher Education Transformation (CHET)

Location: South Africa (Cape Town, Western Cape)

Website: <http://www.chet.org.za/>

E-mail: ncloete@chet.org.za

Mission: The Centre for Higher Education Transformation (CHET) is a non-governmental organization that mobilizes trans-disciplinary skills for specific research and capacity development projects by tapping available expertise in the national and international higher education sector. CHET coordinates a network of higher education researchers and provides a forum for dialogue between the different structures, stakeholders and constituencies in higher education. A non-hierarchical, flexible management style combined with modern information technology and outsourcing expertise within academia and steering committees affords CHET the unique capacity to respond to higher education needs with only a limited number of full-time staff.

Focus areas:

- Access and Equity
- Community College, Vocational, or Technical Education
- Comparative or International Studies

Year established: 1996

Major funding source[s]:

- U.S. foundations
- NORAD

Number of faculty, researchers, and professional staff: 1 full-time and a network of 50 experts.

Centre for Higher Education Research Teaching & Learning

Rhodes University
Faculty of Education

Location: South Africa (Grahamstown, Eastern Cape)

Website: <http://ru.ac.za/chertl>

E-mail: C.Boughey@ru.ac.za

Mission: To produce research contributing to the enhancement of teaching and learning in higher education.

Focus areas:

- Academic Profession
- Access and Equity
- Curriculum & Instruction or Teaching & Learning

Year established: 2008

Major funding source(s):

- University
- Short course fees
- Commissioned research

Number of faculty, researchers, and professional staff: 17

Higher Education South Africa (HESA)

Location: South Africa (Johannesburg, Gauteng)

Website: <http://www.hesa.org.za>

E-mail: annsilla@hesa.org.za

Mission: HESA's key mission is to serve as the single national body equitably representing all the public universities in South Africa. HESA works to facilitate the development of informed public policy on higher education and to encourage cooperation among universities and government, industry and other sectors of society in South Africa.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning

Regular publications/frequency:

- *Quarterly Online Newsletter* (4/yr)
- *Insight Magazine* (2/yr)
- *HESA Annual Report* (1/yr)

Year established: 2005

Major funding source(s):

- Universities (members of HESA)
- Donors

Number of faculty, researchers, and professional staff: 25+

SOUTH KOREA

The Center for Higher Education and Knowledge Studies

Seoul National University
College of Education

Location: South Korea (Seoul, Kwanak-gu)
Website: <http://learning.snu.ac.kr/edadmin/sub01.php>
E-mail: jcs6205@snu.ac.kr

Mission/program description: The Center for Higher Education and Knowledge Studies (CHEKs) studies knowledge as well as Higher Education Studies. The CHEKs is a network-based research center, which invites scholars from all over the world as co-researchers. In addition, CHEKs is actively networking with internationally recognized research centers and institutes including the East-West Center in Hawaii, University of Hong Kong, and the Center for Innovation, Technology and Policy Research, Instituto Superior Tecnico. Our main research themes include higher education studies in general (governance, finance, academic profession, and policy studies) and a broad range of knowledge studies (knowledge and social development, knowledge and school curriculum, contextualization of knowledge, etc.).

Focus areas:

- Academic Profession
- Comparative or International Studies
- Globalization or Internationalization
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation

Year established: 2006

Major funding source(s):

- National Research Foundation of Korea

Number of faculty: 1

Additional information: About the Director: Dr. Shin is an associate professor at Seoul National University. He served at the Korean Ministry of Education for about 20 years. His research interests are higher education policy, knowledge production and social development, and the academic profession. He is Co-Editor-in-Chief of the *International Encyclopedia of Higher Education*, to be published by Springer in 2014. Currently, he is a board member of *Higher Education*, *Tertiary Education and Management* and *Peabody Journal of Education*. Dr. Shin coedited several books, including *University Ranking* (2011), *Institutionalization of World-Class University* (2013), *Teaching and Research in Contemporary Higher Education* (2013), and *The Future of the Post-Massified University at the Crossroads*.

Higher Education Policy Research Institute

Korea University
College of Education

Location: South Korea (Seoul)
Website: <http://hepri.korea.ac.kr>
E-mail: hepri@korea.ac.kr

Mission:

- To conduct research which provides policy suggestions for the government's policy-making in Korean higher education.
- To conduct research suggesting policy agendas for the government to address, from a long-term perspective, in Korean higher education.
- To educate and train researchers for higher education policy.

Focus areas:

- Globalization or Internationalization
- Law or Public Policy
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *Journal of Higher Education Policy* (2/yr)
- Project reports (1/yr)
- Issue papers

Year established: 2006

Major funding source(s):

- Government funding

Number of faculty, researchers, and professional staff: 11

Korean Council for University Education

Center for Higher Education Research

Location: South Korea (Seoul, Geumcheon-gu)

Website: <http://english.kcue.or.kr>

E-mail: intl@kcue.or.kr

Mission: The Center for Higher Education Research leads the Korean Council for University Education work in researching, developing, and proposing higher education policies. It seeks to promote effective policy by submitting policy recommendations to the government, collecting data on higher education, analyzing key trends and issues, providing publications, and convening gatherings of higher education leaders. The Council researches key higher education trends, issues, and policies using its own staff as well as via cooperative work with member universities and other higher education organizations. The Higher Education Statistics Project of the Center for Higher Education Research develops foundational data to support research, provides various indicators needed in university administration, increases public awareness of higher education, and supplies data used in university accreditation. Data is provided by the Council's member universities and the Korean Educational Development Institute and includes statistics on students, faculty, finances, facilities, curriculum, and research activity. Statistics are made available through an online system and in yearly publications.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Private Higher Education and Privatization

Regular publication(s) (Frequency):

- *Higher Education* magazine

Year established: 1982

Research Center for Global Higher Education

Yonsei University

Education Research Institute

Location: South Korea (Seoul)

E-mail: beyoung@yonsei.ac.kr

Global University Network for Innovation (GUNi)*

Location: Spain (Barcelona, Catalunya)

Website: <http://www.guninetwork.org>

E-mail: info@guninetwork.org

Mission: The Global University Network for Innovation (GUNi) is an international network created by the UNESCO, the United Nations University (UNU) and the Universitat Politècnica de Catalunya - BarcelonaTech (UPC), after UNESCO's World Conference on Higher Education (WCHE) in 1998, to give continuity to and facilitate the implementation of its main decisions.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Law or Public Policy

Year established: 1999

SWEDEN

Swedish Higher Education Authority

Location: Sweden (Stockholm)

Website: <http://uk-ambetet.se>

E-mail: registrator@uk-ambetet.se

Mission: One main aim of the Swedish Higher Education Authority (Universitetskanslersämbetet) is to monitor efficiency, follow-up and horizon scanning as well as responsibility for statistics in the higher education sector. This implies that the Authority is responsible for:

- Monitoring the effective use of resources by the higher education institutions
- Following up and analyzing the operations of the higher education institutions

* Information obtained from organization's website.

- The official statistics from the higher education institutions, decide on what information to be collected and how to process it
- Monitoring developments in the higher education sector, nationally and internationally.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- History of Higher Education
- Quality Assurance, Assessment, or Accreditation
- Student and Scholar Mobility
- Access and Equity
- Comparative or International Studies

TUNISIA

Working Group on Higher Education (WGHE)*

The Association for the Development of Education in Africa (ADEA)

Location: Tunisia {Tunis}

Website: <http://www.adeanet.org/portalv2/en/working-group/higher-education>

E-mail: adea@afdb.org

Mission: The main goal of WGHE is to contribute to the development of diverse, dynamic, responsive and relevant tertiary education systems in sub-Saharan Africa. It serves as a “broker of ideas” and a forum for knowledge sharing. More specifically, WGHE aims to advance: Region-wide, free, and open exchange on key issues of tertiary education among stakeholders, including representatives of national, international, public, and private institutions, to promote increased understanding of higher education challenges and to diffuse innovative practices and awareness of needed reforms. Advocacy on the important role of tertiary education in socio-economic development, the link between tertiary education and the labor market, and the important role of tertiary education in improving quality at other education levels. Capacity building through funding of small-scale pilot initiatives.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization
- Law or Public Policy

Year established: 1989

UGANDA

East African School of Higher Education Studies and Development*

Makerere University

College of Education and External Studies

* Information obtained from organization's website.

Location: Uganda (Kampala)
Website: <http://eaihesd.mak.ac.ug/>
E-mail: highereduc@educ.mak.ac.ug

Mission: To provide a learning environment imbued with the spirit of innovation and teamwork conducive to planning, managing and developing higher education, to enhance human resource, research and institutional capacity building, and support development programs for higher education in the East African Region and internationally.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization

UKRAINE

Center of Comparative Professional Pedagogics

Khmelnitsky National University
 Department of International Relations

Location: Ukraine (Khmelnytskyi)
Website: <http://khnu.km.ua/angl/j/>

Mission: The Center of Comparative Professional Pedagogics is a scientific and methodical association of researchers involved in the comparative analysis of national and international systems of higher professional education. The Center develops programs and determines methods for analytic comparisons. The Center establishes worldwide links with educational institutions and international organizations on the development of higher education, comparative education and professional training technologies.

Focus areas:

UNITED KINGDOM

The Association of Commonwealth Universities*

Location: UK (London, Greater London)
Website: <https://www.acu.ac.uk>

Mission: The Association of Commonwealth Universities (ACU) has over 500 member institutions in developed and developing countries across the Commonwealth. Drawing on the collective experience and expertise of our membership, the ACU seeks to address issues in international higher education through a range of projects, networks, and events. The ACU administers scholarships, provides academic research and leadership on issues in the sector, and promotes inter-university cooperation and the sharing of good practice – helping universities serve their communities, now and into the future. Our mission is to promote and support excellence in higher education for the benefit of individuals and societies throughout the Commonwealth and beyond.

Centre for Higher Education and Equity Research (CHEER)

University of Sussex

Department of Education

Location: UK (Brighton, East Sussex)

Website: <http://www.sussex.ac.uk/education/cheer/>

E-mail: l.morley@sussex.ac.uk

Mission: The Centre for Higher Education and Equity Research (CHEER) provides an intellectual home and an institutional space for collaborative and interdisciplinary research. Our research considers equity in higher education in relation to three themes: Identity, Assessment, and Transitions.

- CHEER is at the heart of innovative research in higher education because it is engaged in:
- Conducting high-quality national and international research
- Developing theory and informing practice on equity
- Producing quality publications
- Offering expertise and consultancy at national and international levels
- Contributing to policy debates
- Promoting networks and academic links
- Building the research capacity of early-career researchers and postgraduate students

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)
- Administration, Management, or Leadership
- Private Higher Education and Privatization
- Student Affairs or Student Development

Year established: 2007

Major funding source(s):

- Departmental
- Research grants

Number of faculty, researchers, and professional staff: 10

Additional information: CHEER contributes to the large doctoral program in the Department of Education at the University of Sussex (over 100 students). There are currently several routes: Ph.D.- full-time and part time; Ed.D.- part-time international; Ed.D.- distance part-time

Centre for Higher Education Research*

University of St Andrews

Location: UK (St Andrews, Scotland)

Website: <http://www.st-andrews.ac.uk/cher/>

E-mail: cheradmin@st-andrews.ac.uk

Mission: Conduct evidence-based higher education research to inform local, national and international policy and practice; promote a reflective, analytical review of higher education activities; and empowering professional engagement in teaching and educational provision.

* Information obtained from organization's website.

Centre for Higher Education Research and Practice

Kingston University

Location: UK (Kingston-upon Thames, Greater London)

Website: <http://www.kingston.ac.uk/centre-for-higher-education-research-and-practice/>

E-mail: t.linsey@kingston.ac.uk

Mission: The Centre supports the development of research-informed learning and teaching and aims to make academic practice increasingly professional through accreditation and robust research.

Centre for the Study of Higher Education

University of Kent
Faculty of Social Sciences

Location: UK (Canterbury, Kent)

Website: <http://kent.ac.uk/cshe>

E-mail: cshe@kent.ac.uk

Mission: Established in 2011, the Centre for the Study of Higher Education is an interdisciplinary research center which brings together academics from across the University of Kent with research interests in higher education. The center offers a varied program of research seminars, guest lectures by visiting academics, and work-in-progress seminars throughout the year, as well as opportunities for postgraduate study at master's and doctoral level.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Law or Public Policy

Year established: 2011

Major funding source(s):

- Faculty of Social Sciences grant
- Other university sources
- External research awards

Number of faculty, researchers, and professional staff: 5

Centre for the Study of Higher Education

University of Sheffield
School of Education

Location: UK (Sheffield, South Yorkshire)

Website: <http://www.sheffield.ac.uk/education/research/groups/cshell>

E-mail: k.kitchen@sheffield.ac.uk

Mission: To undertake conceptual, empirical and policy research in the field of higher education, nationally and internationally. Our work is addressed to intellectual, professional and public debates about: system change and policy reform; access, participation and social equity; internationalization and student mobility; pedagogy and academic practice; assessment, qualifications and the vocational curriculum; research education and training.

Focus areas:

- Community College, Vocational, or Technical Education
- Curriculum & Instruction or Teaching & Learning
- Student and Scholar Mobility

Year established: 2001

Major funding source(s):

- University support
- Research grants

Number of faculty, researchers, and professional staff: 10

here@lancaster

Lancaster University

Department of Educational Research

Location: UK (Lancaster, Lancashire)

Website: <http://www.lancaster.ac.uk/fass/centres/here/>

E-mail: here@lancaster.ac.uk

Mission: Unify the different strands of our work in higher education into one coherent whole. These include:

- Our higher education evaluative work,
- Our research into higher education,
- Our doctoral program in Educational Research, and
- Our individual and joint work in publishing in the area of higher education

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning

Year established: 2011

Major funding source(s):

- Research funding

Number of faculty, researchers, and professional staff: 8

Higher Education Policy Institute

Location: UK (Oxford, Oxfordshire)

Website: <http://www.hepi.ac.uk>

E-mail: s.isles@hepi.ac.uk

Mission: The Higher Education Policy Institute (HEPI) is UK's only independent think tank devoted exclusively to higher education. Founded in 2002, HEPI has built up a strong reputation for robust and objective policy analysis and advice across a whole range of higher education issues. Its mission is to improve higher education in the UK by creating a better informed policy environment – informed by research and analysis, as well as drawing on experiences from other countries.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- HEPI Reports (6-8/yr)

Year established: 2002

Major funding source(s):

- Partnership programs (corporate and university support)
- Income from conferences & consultancy
- Philanthropic support

Number of faculty, researchers, and professional staff: 1

Higher Education Research Centre

University of Exeter

Graduate School of Education, College of Social Sciences and International Studies

Location: UK (Exeter, Devon)

Website: <http://socialsciences.exeter.ac.uk/education/research/centres/highereducation>

Mission: Our core objectives are:

- To generate high-quality, funded international research on innovation in academic practice and leadership, with a focus on teaching and learning in research-intensive university contexts.
- To develop and promote sector-leading research and practice in professional education in research-intensive universities in the areas of Teacher Education, Law, Medicine, Higher Education and Business.
- To develop a widening participation strand of research and activity which aligns with the particular widening participation commitments and agendas of research-intensive universities. In particular to develop robust mechanisms for researching and evaluating the appropriate identification and support of students in this area and to assess impact on post-university career and life trajectories.
- To look at big-picture, philosophical questions for higher education which have arisen as universities have distanced themselves from their inequitable past both by opening access to and broadening the scope of their academic foci. The Centre is concerned with the opportunities and risks that emerge from these broad changes, in order to clarify the choices that will shape higher education's long-term future and foster more reflective and responsible ways to engage with and understand higher education's evolving purpose or public role in society.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Student and Scholar Mobility

Year established: 2012

Major funding source(s):

- Personal research grants
- The UK Higher Education Academy is funding one doctoral studentship

Number of faculty, researchers, and professional staff: 8

Additional information: This is a very new center that is still establishing itself. It is building a core of researchers within the School and attracting doctoral candidates.

King's Learning Institute

King's College London

Location: UK (London, Greater London)

Website: <http://www.kcl.ac.uk/study/learningteaching/kli/index.aspx>

E-mail: kelly.coate@kcl.ac.uk

Mission: King's Learning Institute engages in high quality research, teaching and consultancy in all aspects of learning in academic and professional work, providing professional development opportunities informed by research of an international standard. The Institute offers a wide range of accredited programs in academic and professional learning, from certificate through to doctoral study.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning

Regular publication(s) (Frequency):

- *Higher Education Research Network Journal* (1/yr)

Year established: 2001

Number of faculty, researchers, and professional staff: 14

Leadership Foundation for Higher Education (LFHE)

Location: UK (London, Greater London)

Website: <http://www.lfhe.ac.uk>

E-mail: helen.goreham@lfhe.ac.uk

Mission: To enhance the leadership, management and governance capabilities in UK universities and colleges.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *Engage* (4/yr)

Year established: 2004

Major funding source(s):

- Membership subscription
- Fees from programs

Number of faculty, researchers, and professional staff: 20

Additional information: The LFHE only offers executive education. However, there is a process of accreditation for Fellowship status.

The Observatory on Borderless Higher Education

Location: UK (Redhill, Surrey)

Website: <http://www.obhe.ac.uk>

E-mail: info@obhe.ac.uk

Mission: The Observatory on Borderless Higher Education is a higher education research and monitoring unit within the International Graduate Insight Group (i-graduate), which itself is part of Tribal Group plc. The Observatory provides information and analysis on trends, policy frameworks, and the full range of international higher education activities at both institutional and governmental levels around the world. It conducts in-house research and consultancies. Its purpose is to provide data and analysis for institutional leaders and policy-makers so that they may shape their institutional strategies successfully to the changing landscape in international higher education.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *Borderless Report* (4/yr)

Year established: 2002

Number of faculty, researchers, and professional staff: 4

Oxford Centre for Higher Education Policy Studies (OxCHEPS)

New College, University of Oxford

Location: UK (Oxford, Oxfordshire)

Website: <http://oxcheps.new.ox.ac.uk>

E-mail: david.palfreyman@new.ox.ac.uk

Mission: Higher Education comparative international policy.

Focus areas:

- Comparative or International Studies
- Law or Public Policy

Regular publication(s) (Frequency):

- *International Studies in Higher Education Series* (3-4/yr)
- *The Law of Higher Education*
- *The Oxford Tutorial*

Year established: 2000

Major funding source(s):

- Private donations

Number of faculty, researchers, and professional staff: 3

The Pedagogic Research Institute and Observatory (PredRIO)

Plymouth University

Location: UK (Plymouth, Devon)

Website: <http://www1.plymouth.ac.uk/research/pedrio/Pages/default.aspx>

E-mail: pedrio@plymouth.ac.uk

Mission: PredRIO's mission is to undertake innovative research into teaching and learning in higher education; provide a forum for sharing and dissemination of inter-disciplinary pedagogic research aiming to impact on policy and practice; develop new partnerships with external academic organizations and enterprises, both nationally and internationally; and develop further key areas of research strength in education for sustainable development, research-informed teaching, experiential and work-based learning, and digital innovation.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization

Regular publication(s) (Frequency):

- PedRIO Occasional Papers (4/yr)
- PedRIO Annual Report (1/yr)
- *7 Step Guides*

Year established: 2011

Major funding source(s):

- University support

Society for Research into Higher education

Location: UK (London, Greater London)

Website: <http://www.srhe.ac.uk>

E-mail: srhe@srhe.ac.uk

Mission: The Society for Research into Higher Education (SRHE) is an independent and financially self-supporting international learned Society. It is concerned to advance understanding of higher education, especially through the insights, perspectives and knowledge offered by systematic research and scholarship.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Globalization or Internationalization

Regular publication[s] (Frequency):

- *Studies in Higher Education* (10/yr)
- *Higher Education Quarterly* (4/yr)
- *Research into Higher Education Abstracts* (3/yr)

Year established: 1965

Major funding source[s]:

- Publications
- Membership subscriptions

Number of faculty, researchers, and professional staff: 5

UK Higher Education International Unit*

Location: UK (London, Greater London)

Website: <http://www.international.ac.uk/home.aspx>

E-mail: stacy.francis@international.ac.uk

Mission: The UK Higher Education International Unit (IU) initiates and carries out high profile projects and activities to support and develop the breadth and depth of the UK higher education sector's international activities. It supports the sector's engagement in European Union and Bologna Process policy debates. The IU is a central observatory and intelligence unit on higher education internationalization and policy developments for UK higher education institutions.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Law or Public Policy

UNITED STATES

Arizona

Center for the Study of Higher Education

University of Arizona

Department of Educational Policy Studies and Practice

Location: USA (Tucson, Arizona)

Website: <http://www.coe.arizona.edu/epsp/hed>

E-mail: grhoades@email.arizona.edu

* Information obtained from organization's website.

Mission: Established in 1977, the Center for the Study of Higher Education offers flexible, interdisciplinary, and individualized master of arts and doctor of philosophy degree programs with concentrations in comparative higher education, organization and administration, college access, and student affairs.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Student Affairs or Student Development
- Community College, Vocational, or Technical Education
- Law or Public Policy

Year established: 1977

Number of faculty, researchers, and professional staff: 7

California

Center for Studies in Higher Education

University of California

Berkeley Campus, Organized Research Unit (ORU)

Location: USA (Berkeley, California)

Website: <http://cshe.berkeley.edu>

E-mail: cshe@berkeley.edu

Mission: The Center conducts research and policy studies on higher education at the international, national, and state levels. It emphasizes issues of research universities and public higher education. The Center also provides courses ranging from a few days to two weeks for those interested in U.S. higher education, higher education in California, the University of California, and university roles in technological innovation and economic development. The Center also hosts the Student Experience in Research Universities (SERU) project, currently with 29 universities participating.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Globalization or Internationalization

Regular publication(s) (Frequency):

- Research and Occasional Papers Series (ROPS) (15/yr)
- *Clark Kerr Lectures Series*, joint with University of California Press (book, every 2 years)

Year established: 1956

Major funding source(s):

- State of California funds through Berkeley campus
- Project funding
- Survey participation fees

Number of faculty, researchers, and professional staff: 14

Additional information: The Center has been in existence 57 years, and was originally a project of Clark Kerr, Robert Gordon Sproul and John Gardner (Carnegie Corporation).

Higher Education Research Institute

University of California, Los Angeles (UCLA)

Graduate School of Education and Information Studies

Location: USA (Los Angeles, California)

Website: <http://heri.ucla.edu>

E-mail: heri@ucla.edu

Mission: The mission of the Higher Education Research Institute is to inform educational policy and promote institutional improvement through an increased understanding of higher education and its impact on college students. We accomplish this mission by:

- Working in cooperation with institutions of higher education
- Producing and disseminating original research
- Providing the tools and resources to utilize research at the institutional level
- Training researchers to advance institutional assessment and scholarship in higher education
- Developing partnerships with higher education organizations to promote institutional excellence

Focus areas:

- Academic Profession
- Access and Equity
- Quality Assurance, Assessment, or Accreditation
- Quantitative Research Methods

Regular publication(s) (Frequency):

- *The American Freshman: National Norms for Fall* (1/yr since 1966)
- HERI Research Briefs (3/yr)
- College Senior Survey (1/yr)

Year established: 1973

Major funding source(s):

- Sales and services
- Foundation grants

Number of faculty, researchers, and professional staff: 20

Pullias Center for Higher Education

University of Southern California (USC)

Rossier School of Education

Location: USA (Los Angeles, California)

Website: <http://www.uscrossier.org/pullias/>

E-mail: pullias@usc.edu

Mission: The mission of the Pullias Center for Higher Education is to bring a multidisciplinary perspective to complex social, political, and economic issues in higher education. The Center is located within the Rossier School of Education at USC. Since 1996 the center has engaged in action-oriented research projects regarding successful college outreach programs, financial aid and access for low- to moderate-income students of color, use of technology to supplement college counseling services, effective postsecondary governance, emerging organizational forms such as for-profit institutions, and the retention of doctoral students of color.

Focus areas:

- Academic Profession
- Access and Equity
- Private Higher Education and Privatization
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Regular publication(s) (Frequency):

- *Twenty-First Century Scholars*
- *Pulse of Pullias*

Year established: 1994

Major funding source(s):

- Endowment
- Grants

Number of faculty, researchers, and professional staff: 14

Colorado

National Center for Higher Education Management Systems

Location: USA (Boulder, Colorado)

Website: <http://www.nchems.org>

E-mail: info@nchems.org

Mission: The National Center for Higher Education Management Systems (NCHEMS) is a private nonprofit (501)(c)(3) organization whose mission is to improve strategic decision making in higher education for states and institutions in the United States and abroad. The NCHEMS Information Center for State Higher Education Policymaking and Analysis provides state policymakers and analysts timely and accurate data and information that are useful in making sound higher education policy decisions. The Information Center is a comprehensive “one-stop-shop” for state-level higher education data and information, and a leader in coordinating the collection of missing data and information crucial for higher education policy analysis.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education

Year established: 1969

Major funding source(s):

- Institutions and states
- Foundation grants

Number of faculty, researchers, and professional staff: 15

Postsecondary and Workforce Development Institute

Education Commission of the States

Location: USA (Denver, Colorado)

Website: <http://www.ecs.org>

E-mail: mgianneschi@ecs.org

Mission: The Education Commission of the States (ECS) is a nonpartisan, nonprofit interstate compact created by the states that helps governors, state legislators, state education officials, business leaders, and others identify, develop and implement public policies to improve student learning at all levels.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 1965

Major funding source(s):

- State dues
- Philanthropic grants

Number of faculty, researchers, and professional staff: 25+

Western Interstate Commission for Higher Education (WICHE)*

Policy Analysis and Research Unit

Location: USA (Boulder, Colorado)

Website: <http://www.wiche.edu/policy>

Mission: To provide legislators and decision makers with the data and information they need, the Policy Analysis and Research unit furnishes accurate and timely information and offers expertise that advance WICHE's mission of expanding educational access and excellence. It accomplishes this goal through analyses of relevant data related to K-12 and postsecondary education, demography, labor market information, and higher education finances; through assistance with policy design and implementation; and through projects that respond to the demographics of the West.

Focus areas:

- Access and Equity
- Law or Public Policy

Georgia

Institute of Higher Education

University of Georgia

Location: USA (Athens, Georgia)

Website: <http://ihe.uga.edu/>

E-mail: ihe@uga.edu

Mission: The Institute of Higher Education is an academic unit of the University of Georgia committed to advancing higher education policy, management and leadership through research, graduate education, and outreach. The Institute's mission encompasses higher education issues at the campus, state, national, and international levels. The Institute is noted for its multidisciplinary approach to research, with areas of specialization in federal and state policy, governance and administration, institutional and system finance, faculty careers and development, institutional research and assessment, and knowledge development and exchange.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Regular publication(s) (Frequency):

- IHE Report (1/yr)

Year established: 1964

Major funding source(s):

- State funds
- Grants and contracts

Number of faculty, researchers, and professional staff: 10

Illinois

Center for Comparative Education (CCE)

Loyola University Chicago
School of Education

Location: USA (Chicago, Illinois)

Website: <http://luc.edu/cce>

E-mail: nsobe@luc.edu

Mission: The Center for Comparative Education is an interdisciplinary research center dedicated to bringing a global perspective to the study of educational policy and practice.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Globalization or Internationalization

Year established: 2006

Major funding source(s):

- University support

Number of faculty, researchers, and professional staff: 2

Indiana

Center for Postsecondary Research

Indiana University
School of Education

Location: USA (Bloomington, Indiana)

Website: <http://cpr.iub.edu/index.cfm>

E-mail: cpr@indiana.edu

Mission: The Indiana University Center for Postsecondary Research (CPR) promotes student success and institutional effectiveness through research and service to postsecondary institutions and related agencies. Center personnel assist institutions and agencies in gathering and using data for decision making and institutional improvement. In addition to its work with initiatives related to student access, assessment, learning, and persistence, CPR focuses on the policies and practices that promote student success, educational effectiveness, and institutional development.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *National Survey of Student Engagement Annual Report* (1/yr)
- *Law School Survey of Student Engagement Annual Report* (1/yr)

Year established: 1995

Major funding source(s):

- Grants and auxiliary funds
- Contracts

Number of faculty, researchers, and professional staff: 21

Iowa

ACT Research & Policy*

Location: USA (Iowa City, Iowa)

Website: <http://www.act.org/research-policy/>

Mission: Driven by a mission of helping people achieve education and workplace success, ACT promotes effective education and workforce policy solutions at the national, state, and local levels. ACT provides policymakers with research-based insights to inform their education and workforce development policy decisions and furnishes educators and workforce development professionals with the tools they need to guide individuals along their education and career paths.

ACT is uniquely positioned to aid policymakers, practitioners, and researchers on a variety of education and workforce issues based on more than 50 years of research. ACT is the only organization with decades of data showing individual performance relative to empirically derived standards of education and workplace achievements.

Focus areas:

- Access and Equity
- Test Development

Center for Research on Undergraduate Education (CRUE)

University of Iowa
College of Education

Location: USA (Iowa City, Iowa)

Website: <http://www.education.uiowa.edu/centers/crue/home>

E-mail: ernest-pascarella@uiowa.edu

Mission: To conduct and disseminate research on the impact of undergraduate education on students.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Quantitative Research Methods
- Student Affairs or Student Development

Year established: 2005

Major funding source(s):

- Foundation Grants

Number of faculty, researchers, and professional staff: 5

Research Institute for Studies in Education (RISE)

Iowa State University
School of Education

Location: USA (Ames, Iowa)

Website: <http://www.rise.hs.iastate.edu/>

E-mail: rise@iastate.edu

Mission: The Research Institute for Studies in Education (RISE) has a long standing history of conducting comprehensive, integrated, research and evaluation studies to enhance K-20 education nationally and globally. As a unit of the Iowa State University School of Education, RISE is unique in promoting the fusion of evaluation, research, and policy to schools, colleges, public and private agencies, testing organizations, private foundations, state education agencies, and corporations.

Focus areas:

- Community College, Vocational, or Technical Education
- Quality Assurance, Assessment, or Accreditation

Year established: 1974

Major funding source(s):

- External contracts
- Grants

Maryland

Educational Policy Institute

Educational Policy Institute (EPI) International

Location: USA (Bethesda, Maryland)

Website: <http://www.educationalpolicy.org>

E-mail: wswail@educationalpolicy.org

Mission: To conduct high-level educational research on critical issues in education that support the expansion of quality educational opportunities for all students, with specific emphasis on low-income, first-generation students.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

Massachusetts

Center for International Higher Education

Boston College

Lynch School of Education

Location: USA (Chestnut Hill, Massachusetts)

Website: <http://www.bc.edu/cihe>

E-mail: highered@bc.edu

Mission: The Boston College Center for International Higher Education (CIHE) brings an international consciousness to the analysis of higher education. CIHE believes that an international perspective will contribute to enlightened policy and practice. To serve this goal, the Center publishes the International Higher Education quarterly newsletter, a book series, and other publications; sponsors conferences; and welcomes visiting scholars. We have a special concern for academic institutions in the Jesuit tradition world-wide and, more broadly, with Catholic universities. The Center promotes dialogue and cooperation among academic institutions throughout the world. We believe that the future depends on effective collaboration and the creation of an international community focused on the improvement of higher education in the public interest.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *International Higher Education* (4/yr)
- Center-related books and publications

Year established: 1994

Major funding source(s):

- Grants
- University support

Number of faculty, researchers, and professional staff: 4

Collaborative on Academic Careers in Higher Education

Harvard University

Graduate School of Education

Location: USA (Cambridge, Massachusetts)

Website: <http://www.coache.org>

E-mail: coache@gse.harvard.edu

Mission: The Collaborative on Academic Careers in Higher Education (COACHE) is a research initiative and membership organization driven by senior academic officers who believe that the search for best practices begins with sound data that make the recruitment and management of faculty talent, and their own leadership, more effective. Founded in 2002 with support from the Ford Foundation and Atlantic Philanthropies, COACHE is based at the Harvard Graduate School of Education and is now supported completely by its members.

Focus areas:

- Academic Profession

Year established: 2005

Major funding source(s):

- Participating institutions

Number of faculty, researchers, and professional staff: 4

Michigan

Center for the Study of Higher and Postsecondary Education (CSHPE)

University of Michigan

School of Education

Location: USA (Ann Arbor, Michigan)

Website: http://www.soe.umich.edu/departments_services/academic_departments/center_for_the_study_of_higher_and_postsecondary_education/

E-mail: cshpe.info@umich.edu

Mission: The development of scholars and practitioners who will improve the worlds of higher and postsecondary education.

Focus areas:

- Administration, Management, or Leadership
- Law or Public Policy
- Student Affairs or Student Development

Regular publication(s) (Frequency):

- *CSHPE e-newsletter* (4/yr)

Year established: 1957

Major funding source(s):

Minnesota

Jandris Center for Innovative Higher Education (J Center)

University of Minnesota-Twin Cities

College of Education and Human Development

Location: USA (Minneapolis, Minnesota)

Website: <http://www.cehd.umn.edu/jandris/>

E-mail: jcenter@umn.edu

Mission: The J CENTER strives to disrupt assumptions, reframe problems, and envision scenarios to create a better future for higher education and society. The Center is a catalyst for inspiring new questions, perspectives, discussions, and action through public programs and events including our signature initiative, The Higher Ed Redesign Project. The Center brings together people and groups—locally, nationally, and internationally—to critique and redesign postsecondary policies and practices to meet the needs of a changing world.

Focus areas:

- Administration, Management, or Leadership

Year established: 2010

Major funding source(s):

- University of Minnesota's College of Education and Human Development
- Gift funds

Number of faculty, researchers, and professional staff: 2

Additional information: At this time, the Center does not have a formal research agenda. However, future plans include developing scholarship around higher education leadership and change related to innovation. The Center today mostly provides a platform for public forums and programs on innovative practices in higher education.

MHEC Center for Collaborative Policy Initiatives and Research

Midwestern Higher Education Compact

Location: USA (Minneapolis, Minnesota)

Website: <http://www.mhec.org>

E-mail: mhec@mhec.org

Mission: The Midwestern Higher Education Compact (MHEC) is a non-profit regional organization, established by compact statute, to assist Midwestern states in advancing higher education through interstate cooperation and resource sharing. Member states are: Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. MHEC seeks to fill its interstate mission through programs that:

- Expand postsecondary opportunity and success
- Promote innovative approaches to improving institutional and system productivity
- Improve affordability to students and states
- Enhance connectivity between higher education and the workplace

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Regular publication(s) (Frequency):

- Annual State Reports (1/yr)
- Policy Briefs (Occasional)
- E-Newsletter (12/yr)

Year established: 1991

Major funding source(s):

- State governments
- Program fees

Number of faculty, researchers, and professional staff: 4

New Jersey

ETS*

Location: USA (Princeton, New Jersey)

Website: <http://www.ets.org/research/>

E-mail: RDweb@ets.org

Mission: ETS' goal is to make fundamental contributions to the progress of education worldwide through educational research and analysis, fair and valid assessments, innovative product development, and informative policy studies.

Focus areas:

- Access and Equity

Year established: 1947

New York

Center for Academic Mobility Research

Institute of International Education (IIE)
Research and Evaluation Division

Location: USA (New York, New York)

Website: <http://www.iie.org/mobility>

E-mail: iieresearch@iie.org

Mission: The Center for Academic Mobility Research brings together IIE's in-house research expertise with leading minds from around the world to conduct and disseminate timely and relevant research and policy analysis in the field of international student and faculty mobility. The Center provides applied research and program evaluation services to domestic and international governmental agencies, non-governmental organizations, corporations and foundations. The Center's in-depth books and reports, including the Open Doors Report on International Educational Exchange, supported by the U.S. Department of State, are key reference resources. In addition, our policy papers and snapshot surveys capture emerging trends in international education.

Focus areas:

- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation
- Student and Scholar Mobility

Regular publication(s) (Frequency):

- *Open Doors Report on International Educational Exchange* (1/yr)
- *Project Atlas* online and print reports (1/yr)

Year established: 2012

Major funding source(s):

Cross-Border Education Research Team (C-BERT)

University at Albany, State University of New York

Location: USA (Albany, New York)

Website: <http://www.cbert.org>

E-mail: global.highereducation@gmail.com

Mission: The Cross-Border Education Research Team (C-BERT) studies this phenomenon from organizational, sociological, economic, and political perspectives. As distinct from strictly virtual or online education, C-BERT concentrates on instances of physical cross-border teaching and research activities. These broad interests inform more specific inquiries into regulation, accountability, quality assurance, institutional legitimacy, patterns of growth, and institutional failures, among other topics. C-BERT does not promote or represent any institutions, sectors, or national systems engaged in cross-border higher education. Rather, the mission is to advance understanding of these issues through the discovery, analysis, and dissemination of knowledge.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization

Year established: 2010

Major funding source(s):

- University at Albany
- Grants

Number of faculty, researchers, and professional staff: 5

University at Albany, State University of New York

Department of Educational Administration and Policy Studies

Location: USA (Albany, New York)

Website: <http://albany.edu/eaps/>

E-mail: EAPS@albany.edu

Mission: To enhance the “internationalization” of educational research and to serve as the umbrella organization for a range of international activity within the School of Education and the State University of New York at Albany.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Private Higher Education and Privatization

Year established: 2010

Major funding source(s):

- University support
- Foundation grants

Number of faculty, researchers, and professional staff: 8

Nelson A. Rockefeller Institute of Government

University at Albany, State University of New York

Location: USA (New York City and Albany, New York)

Website: <http://www.rockinst.org>

E-mail: info@rockinst.org

Mission: The Rockefeller Institute is a national, independent organization that researches and publishes on public policy issues, with a particular focus on the 50 states and the local governments within them. A public policy “think tank” that seeks to educate rather than advocate, the Institute focuses on: state fiscal issues, higher education, federalism, intergovernmental relations, urban issues, health care reform, and social welfare policies. The primary goal of the Institute is to develop findings that state and local governments can use to become more effective.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Regular publication(s) (Frequency):

- *Policy Observations* (12/yr)

Year established: 1981

Major funding source(s):

- State University of New York
- Foundation grants

Number of faculty, researchers, and professional staff: 25+

Program for Research on Private Higher Education (PROPHE)

University at Albany, State University of New York

Department of Educational Administration & Policy Studies

Location: USA (Albany, New York)

Website: <http://www.albany.edu/dept/eaps/prophe/>

E-mail: pberrios@albany.edu

Mission: PROPHE promotes knowledge about private higher education around the world. Through a large network of leading scholars in the field, the main mission is research in a comparative vein for both scholarship and informing policymakers and citizens. Major concerns include private higher education's size and shape, private-public partnerships, for-profits, and public policy.

Focus areas:

- Comparative or International Studies
- Law or Public Policy
- Private Higher Education and Privatization

Regular publication(s) (Frequency):

- Working papers
- Edited volumes and special journal issues

Year established: 2000

Major funding source(s):

- University support

Number of faculty, researchers, and professional staff: 25+

Ohio

Center for Higher Education

Ohio University

Patton College of Education

Location: USA (Athens, Ohio)

Website: <http://www.cehs.ohio.edu/c4he>

E-mail: c4he@ohio.edu

Mission: The Center for Higher Education is a research and policy analysis center focused on higher education issues in Ohio, the Appalachian region, and the nation at large. The Center is located within The Gladys W. and David H. Patton College of Education at Ohio University. Viewing the challenges facing higher education today through a multidisciplinary lens, the Center engages faculty, students, and practitioners in examining campus, state, regional, national, and international concerns. The Center is involved in a myriad of activities which include contracted or externally funded research projects, independent research projects, consultation, technical assistance, and other service activities.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education

Regular publication[s] (Frequency):

- Working Paper Series (4/yr)

Major funding source[s]:

- Grants and contracts
- University support

Number of faculty, researchers, and professional staff: 5

Pennsylvania

Center for the Study of Higher Education (CSHE)

Pennsylvania State University

College of Education

Location: USA (University Park, Pennsylvania)

Website: <http://www.ed.psu.edu/educ/cshe>

E-mail: jjc36@psu.edu

Mission: CSHE is dedicated to (a) conducting and disseminating theory-based empirical research designed to improve higher education practice and policy; (b) providing high-quality data and analysis to institutional, state, and federal policymakers; (c) supporting graduate training for students in the Higher Education Programs at Penn State.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 1969

Major funding source[s]:

- University
- External grants

Number of faculty, researchers, and professional staff: 10

College Board - Research & Development Department*

Location: USA (Newtown, Pennsylvania)

Website: <http://research.collegeboard.org/>

E-mail: research@collegeboard.org

Mission: The Research & Development department actively supports the College Board mission by:

- Providing data-based solutions to important education questions;
- Applying scientific procedures and methodologies to inform our work;
- Designing and evaluating improvements to current assessments as well as developing new assessments and educational tools to ensure the highest technical standards;
- Analyzing and resolving critical issues for all programs, including AP, SAT, and PSAT/NMSQT;
- Developing standards and conducting college and career readiness alignment studies;
- Publishing findings and presenting research at key scientific and educational conferences; and
- Generating new knowledge and forward-thinking ideas with a highly trained and credentialed staff.

Focus areas:

- Access and Equity
- College Readiness and Success

Institute for Research on Higher Education (IRHE)

University of Pennsylvania
Graduate School of Education

Location: USA (Philadelphia, Pennsylvania)

Website: <http://www.gse.upenn.edu/irhe/>

Mission: The purpose of IRHE is to engage in large-scale research projects that improve public policy for higher education or institutional performance in higher education.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: mid 1980s

Major funding source(s):

- Foundation grants
- University support

Number of faculty, researchers, and professional staff: 2

South Carolina

National Resource Center for The First-Year Experience and Students in Transition

University of South Carolina

Location: USA (Columbia, South Carolina)

Website: <http://www.sc.edu/fye>

E-mail: fye@mailbox.sc.edu

Mission: Building upon its history of excellence as the founder and leader of the first-year experience movement, the center serves education professionals by supporting and advancing efforts to improve student learning and transitions into and through higher education. We achieve this mission by providing opportunities for the exchange of practical and scholarly information and the dis-

* Information obtained from organization's website.

cussion of trends and issues via conferences and other events and online learning opportunities; publication of scholarly practice books, research reports, a peer-reviewed journal, electronic newsletters, and guides; generating, supporting, and disseminating research and scholarship; hosting visiting scholars; and online channels for resource sharing and communication.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Regular publication[s] (Frequency):

- *Journal of The First-Year Experience and Students in Transition* (2/yr)
- *E-SOURCE for College Transitions* (electronic newsletter) (2/yr)
- *The Toolbox* (6/yr)

Year established: 1987

Major funding source[s]:

- Generated revenues
- Institutional support

Number of faculty, researchers, and professional staff: 8

Texas

Institute for Higher Education Law & Governance (IHELG)

University of Houston
University of Houston Law Center

Location: USA (Houston, Texas)

Website: <http://www.law.uh.edu/ihelg/>

E-mail: molivas@uh.edu

Mission: IHELG has as its primary aim providing information and publications to colleges and universities related to the field of higher education law, and also has a broader mission to be a focal point for discussion and analysis of higher education legal issues. IHELG provides information, research, and analysis for those involved in managing the higher education enterprise internationally through publications, conferences, and the maintenance of a database of individuals and institutions. IHELG is especially concerned with creating dialogue among academic institutions in the United States, and also has interests in international and comparative higher education.

Focus areas:

- Economics, Financing, or Funding of Higher Education
- Law or Public Policy
- Student and Scholar Mobility

Regular publication[s] (Frequency):

- Research monographs (12/yr)

Year established: 1982

Major funding source[s]:

- Public university funding
- Foundation grants

Number of faculty, researchers, and professional staff: 4

Additional information: UHLC is a law school with full time 3 year programs leading to the JD, and a part time program requiring 4 years, also leading to a JD.

Virginia

Center for Advanced Study of Teaching and Learning in Higher Education (CASTL-HE)

University of Virginia
Curry School of Education

Location: USA (Charlottesville, Virginia)
Website: <http://curry.virginia.edu/research/centers/castlhe>
E-mail: karen.inkelas@virginia.edu

Mission: The Center for Advanced Study of Teaching and Learning in Higher Education (CASTL-HE) partners with academic programs across the University of Virginia to apply the principles of evidence-based assessment to the relationship between college teaching and pedagogy and student learning outcomes. CASTL-HE seeks to improve undergraduate, graduate, and professional student experiences at the University of Virginia and beyond through the practice of a rigorous science of postsecondary teaching and learning.

Focus areas:

- Curriculum & Instruction or Teaching & Learning

Year established: 2011

Major funding source(s):

- University support
- External grants

Number of faculty, researchers, and professional staff: 7

National Student Clearinghouse*

Location: USA (Herndon, Virginia)
Website: <http://www.studentclearinghouse.org/>

Mission: The Clearinghouse helps educational institutions improve efficiency, reduce costs and workload, and enhance the quality-of-service they provide to their students and alumni, lending institutions, employers, and other organizations. The National Student Clearinghouse provides services as an aligned agent to its participating institutions, supporting their administrative, student access, accountability, and analytical needs. Through one-of-a-kind access to national student outcomes data and educational research services, the Clearinghouse also serves as a valuable source for longitudinal and other studies on educational progress.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation
- Quantitative Research Methods

Year established: 1993

Washington

Center for Innovation and Research in Graduate Education (CIRGE)

University of Washington, Seattle
College of Education

Location: USA (Seattle, Washington)
Website: <http://www.cirge.washington.edu>
E-mail: cirgeweb@washington.edu

* Information obtained from organization's website.

Mission: CIRGE researches doctoral education, practices, and outcomes worldwide. Based on the Center's research, publications, consulting, international collaborations, and workshops, CIRGE has become a trusted source of valid information and data about graduate education outcomes and for helping universities respond to today's challenges and take advantage of the opportunities change offers. Research on the career trajectories of former students and their retrospective evaluations of the effectiveness of their graduate programs is crucial in a knowledge-based world society for universities, government, industry, and non-profits that employ doctoral graduates.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- Student and Scholar Mobility

Regular publication[s] (Frequency):

- Academic articles (1/yr)
- Books
- Reports (1/yr)

Year established: 2002

Major funding source[s]:

- Grants
- Contracts

Number of faculty, researchers, and professional staff: 7

Washington, D.C.

American Association of University Professors

Department of Research and Public Policy

Location: USA (Washington, DC)

Website: <http://www.aaup.org/our-work/research>

E-mail: research@aaup.org

Mission: To collect and disseminate data on issues related to academic labor and the nature of higher education in the United States.

Focus areas:

- Academic Profession
- Economics, Financing, or Funding of Higher Education

Regular publication[s] (Frequency):

- Annual Report on the Economic Status of the Profession (1/yr)

Year established: 1915

Major funding source[s]:

- Association budget
- Revenues from data reports

Number of faculty, researchers, and professional staff: 2

Association of American Colleges and Universities (AAC&U)*

Location: USA (Washington, DC)

Website: <http://www.aacu.org/>

* Information obtained from organization's website.

Mission: The mission of the Association of American Colleges and Universities (AAC&U) is to make liberal education and inclusive excellence the foundation for institutional purpose and educational practice in higher education.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *Liberal Education* (4/yr)
- *Peer Review* (4/yr)

Year established: 1915

Association of Governing Boards (AGB)*

Knowledge Center

Location: USA (Washington, DC)

Website: <http://agb.org/knowledge-center>

Mission: AGB advances the practice of citizen trusteeship and helps ensure the quality and success of our nation's colleges and universities. To do so, AGB delivers programs and services that strengthen partnerships between presidents and governing boards; define and clarify the responsibilities of governing board members; provide guidance to trustees, board leaders, and campus leaders in their governance-related roles; encourage a level of professionalism for trusteeship, a voluntary function; monitor issues that affect higher education and governance and provide guidance for boards and campus leaders; and foster cooperation among all education stakeholders.

Focus areas:

- Administration, Management, or Leadership

Regular publication(s) (Frequency):

- *Trusteeship Magazine* (6/yr)

Year established: 1921

Center for College Affordability & Productivity

Location: USA (Washington, DC)

Website: <http://centerforcollegeaffordability.org/>

E-mail: ccap@theccap.org

Mission: Founded in 2006, the Center for College Affordability and Productivity (CCAP) is dedicated to researching the rising costs and stagnant efficiency in higher education, with special emphasis on the United States. CCAP seeks to facilitate a broader dialogue on the issues and problems facing the institutions of higher education with the public, policy makers, and the higher education community. CCAP defines its mission rather broadly. "Affordability" means not only rising tuition and other costs to the consumer of education services, but more broadly the burden that colleges impose on society. "Productivity" refers not only to the costs and resources needed to educate students and perform research, but also to the measurement and quality of educational outcomes. CCAP is concerned about finding new ways to do things better – to improve affordability and productivity. In particular, CCAP is interested in assessing how the use of market forces could make higher education more affordable and better qualitatively. CCAP disseminates its findings in many ways, such as through written studies, conferences, opinion pieces, electronic media interviews, and a blog. The organization welcomes comments and dissenting views from all readers.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

- *CCAP Newsletter* (12/yr)
- *Forbes America's Top Colleges* (1/yr)

Year established: 2006

Major funding source(s):

- Foundation grants

Number of faculty, researchers, and professional staff: 3

The Center for Internationalization and Global Engagement (CIGE)

American Council on Education

Location: USA (Washington, DC)

Website: <http://www.acenet.edu/news-room/Pages/Center-for-Internationalization-and-Global-Engagement.aspx>

E-mail: cige@acenet.edu

Mission: CIGE provides in-depth analysis of critical international education issues and administers programs and services to support higher education institutions' internationalization and global engagement strategies.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization

Regular publication(s) (Frequency):

- *International Briefs for Higher Education Leaders* (2/yr)
- *Mapping Internationalization on U.S. Campuses* (Every 5 years)

Number of faculty, researchers, and professional staff: 6

The Center for Policy Analysis

American Council on Education

Location: USA (Washington, DC)

Website: <http://www.acenet.edu>

E-mail: policy@acenet.edu

Mission: The Center for Policy Analysis contributes to thought leadership and advocacy for higher education through policy research and data building on issues of interest to the higher education community, policymakers, and the general public.

Focus areas:

Center on Education and the Workforce (CEW)

Georgetown University
Georgetown Public Policy Institute

Location: USA (Washington, DC)

Website: <http://cew.georgetown.edu/>

E-mail: cewgeorgetown@georgetown.edu

Mission: CEW is an independent, nonprofit research and policy institute that studies the link between education, career qualifications, and workforce demands. The Center conducts research in three core areas with the goal of better aligning education and training with workforce and labor market demand: jobs, skills, and people. The Center seeks to inform and educate federal, state, and local policymakers and stakeholders on ways to better align education and training with labor market demand and qualifications. It also seeks to create tools that enable decision makers to access and customize the data to allow for national, state, and sub-state analysis.

Focus areas:

- Academic Profession
- Economics, Financing, or Funding of Higher Education
- Quantitative Research Methods

Regular publication(s):

- Job and Education Requirements Projections Report
- Unemployment and Earnings Report
- State Reports on Industry and Occupation Demands

Year established: 2008

Major funding source(s):

- Bill and Melinda Gates Foundation
- Lumina Foundation

Number of faculty, researchers, and professional staff: 10

Center on Higher Education Reform (CHER)

American Enterprise Institute (AEI)
Education Policy Studies Department

Location: USA (Washington, DC)

Website: <http://aei.org/topic/cher>

E-mail: kc.deane@aei.org

Mission: Led by founding director and AEI resident scholar Andrew P. Kelly, the center will conduct independent, data-driven research and policy analysis designed to inform policymaking, shape the reform conversation, and push past the special-interest talking points, partisan sound bites, and naïve silver-bullet solutions that tend to dominate policy debates. CHER's scholarship will ask timely, policy-relevant questions and use the latest data to uncover pressing problems, explore opportunities for reform, and identify barriers to change.

Focus areas:

- Community College, Vocational, or Technical Education
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 2013

Major funding source(s):

- Foundation grants

Number of faculty, researchers, and professional staff: 3

Council for Advancement and Support of Education (CASE)*

Location: USA (Washington, DC)

Website: http://www.case.org/Samples_Research_and_Tools.html

Mission: The Council for Advancement and Support of Education (CASE) is a professional association serving educational institutions and the advancement of professionals who work on their behalf in alumni relations, communications, development, marketing, and allied areas. CASE helps its members build stronger relationships with their alumni and donors, raise funds for campus projects, produce recruitment materials, market their institutions to prospective students, diversify the profession, and foster public support of education.

Focus areas:

- Economics, Financing, or Funding of Higher Education

Regular publication(s) (Frequency):

Year established: 1974

Council for Higher Education Accreditation (CHEA)*

Location: USA (Washington, DC)

Website: <http://www.chea.org/Research/index.asp>

E-mail: chea@chea.org

Mission: A national advocate and institutional voice for self-regulation of academic quality through accreditation, CHEA is an association of 3,000 degree-granting colleges and universities and recognizes 60 institutional and programmatic accrediting organizations.

Focus areas:

- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- Presidential Guidelines Series (varies)
- *Inside Accreditation* (varies)

EDUCAUSE*

Location: USA (Washington, DC)

Website: <http://www.worldbank.org/education/tertiary>

E-mail: info@educause.edu

Mission: EDUCAUSE research programs provide IT leaders with the data and research they need to align IT strategy with institutional strategy, plan new initiatives, and manage existing IT services. IT professionals also use data and analyses to contribute effectively to discussions about the complex challenges facing higher education now and in the future.

Focus areas:

- Information Technology

* Information obtained from organization's website.

Regular publication(s) (Frequency):

- *EDUCAUSE Review* (6/yr)

Institute for Higher Education Policy

Location: USA (Washington, DC)

Website: <http://www.ihep.org>

E-mail: institute@ihep.org

Mission: The Institute for Higher Education Policy (IHEP) is a nonpartisan, nonprofit organization committed to promoting access to and success in higher education for all students. Based in Washington, DC, IHEP develops innovative policy- and practice-oriented research to guide policymakers and education leaders, who develop high-impact policies that will address our nation's most pressing education challenges. IHEP is committed to improving college access and success in higher education for all students—with a special focus on underserved populations—by providing timely research to inform public policy decisions.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

VENEZUELA

International Institute for Higher Education in Latin America and the Caribbean (IESALC)*

UNESCO

Location: Venezuela (Caracas)

Website: <http://www.iesalc.unesco.org.ve>

Mission: IESALC is an organization of UNESCO devoted to the promotion of higher education, helping to implement in the Latin American and Caribbean region the higher education program approved biannually by the UNESCO General Conference.

IESALC's fundamental mission is to contribute to the development and transformation of the tertiary education through the reinforcement of a work plan that, among other purposes, attempts to be an instrument to support the management of change and the required transformations in order that higher education in the region becomes an effective promoter of a culture of peace that allows to make viable—in an age of globalization—the sustainable human sustainable development based on principles of justice, equity, freedom, solidarity, democracy, and respect of the human rights.

VIETNAM

Center for Anthropometry and Mind Development

Vietnam National University

University of Education

Location: Vietnam (Hanoi)

Center for Higher Education Evaluation & Research (CHEER)*

Nguyen Tat Thanh University

Location: Vietnam (Hồ Chí Minh)

Website: <http://www.cheer.edu.vn>

E-mail: cheer@ntt.edu.vn

Mission: CHEER was established for the purpose of conducting research and disseminating knowledge on higher education issues at the institutional or system level. The studies will aim at developing evaluation toolkits, methods, and approaches to help assessing the effectiveness of higher education personnel, research works, institutions and systems; identifying problems, exploring what can be improved and how to improve it.

Focus areas:

- Quality Assurance, Assessment, or Accreditation

Regular publication(s) (Frequency):

- *International Education Newsletter* (6/yr)
- *Higher Education Research and Evaluation Newsletter* (6/yr)

The background of the page is a grayscale image. It features a stack of books on the left side, with their spines visible. A large magnifying glass is positioned in the center-right, with its handle extending towards the top right corner. The lens of the magnifying glass is focused on the text area. The overall image has a soft, slightly blurred quality, giving it a professional and academic feel.

A total of 277 academic programs were identified by the inventory research, a majority of which is housed in institutions' schools of education. These programs are located in 29 different countries, although 70 percent are found in the United States. There are several reasons for this geographic imbalance. Perhaps most importantly, the study of higher education and academic training in the field of higher education administration has a long history in the United States, extending back a half-century to the mid-1950s.

5. A Worldwide Inventory of Higher Education: Academic Programs

ARGENTINA

Universidad de Palermo*

Ph.D. in Higher Education

Location: Argentina (Buenos Aires)

AUSTRALIA

University of Melbourne

Centre for the Study of Higher Education

Melbourne Graduate School of Education

Location: Australia (Melbourne)

Website: <http://www.cshe.unimelb.edu.au/>

E-mail: s.arkoudis@unimelb.edu.au

Mission/program description: The Centre for the Study of Higher Education (CSHE) offers research, development and consultancy in the field of higher education. It has achieved national leadership through its research and the integration of its research into professional development and consultancy work. Internationally, the CSHE is a leader in Asia-Pacific and one of few centers world-wide that blends higher education research at a system-level with service to its host institution through research-based professional development programs, and institutional consultancy and policy development. The CSHE also attracts Ph.D. and Masters research students working on contemporary issues in higher education, especially policy issues.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization
- Law or Public Policy

Year established: 1968

Number of faculty: 25+

Degrees (Enrollment):

- Master's (5 part-time)
- Ph.D. and Ed.D. (15 full-time, 12 part-time)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

* Information obtained from institution's website.

University of Melbourne

LH Martin Institute for Tertiary Education Leadership and Management
Melbourne Graduate School of Education

Location: Australia (Melbourne)
Website: <http://www.lhmartininstitute.edu.au/>
E-mail: martin-institute@unimelb.edu.au

Mission/program description: To improve management and leadership in the tertiary education sector by providing an integrated set of education, training, and bespoke programs which are underpinned by research, and by holding forums and events which cater specifically to the sector.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Quality Assurance, Assessment, or Accreditation

Year established: 2007

Number of faculty: 14

Degrees (Enrollment):

- Master's (20 part-time)
- Ph.D. (6 full-time, 6 part-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Danube University Krems

Master in Research and Innovation in Higher Education (MARIHE)
Centre for Educational Management and Higher Education Development

Location: Austria (Krems)
Website: <http://www.marihe.eu>
E-mail: attila.pausits@donau-uni.ac.at

Mission/program description: In Europe as well as in other regions of the world fundamental transition processes are taking place in the systems of research, innovation and tertiary education: from regulation to deregulation and competition, from steering to market, and from administration to management. Higher education institutions are greatly affected by these changes and need highly trained experts who are able to understand and analyze these new contexts, who can link system change with institutional change, and who have management skills to deal with the changing environment inside higher education and research institutions. The Master in Research and Innovation in Higher Education (MARIHE), a four semester master's program delivered in the English language, is designed to meet these standards. Graduates of MARIHE are able to understand the needs and the culture of higher education and research institutions. They are competent in policy analysis and evaluation and will take the lead with their expertise in future developments in the management and development of research and innovation in higher education.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Comparative or International Studies

Year established: 2012

Number of faculty: 5

Degrees (Enrollment):

- Master's (20 full-time, 5 part-time)

Delivery method:

- Master's: On-site only

CANADA

British Columbia

Simon Fraser University[†]

Educational Leadership (Higher Education)
Faculty of Education

Location: Canada (Surrey, British Columbia)
Website: <http://www.sfu.ca/education/gs.html>
E-mail: michelle_pidgeon@sfu.ca

Mission/program description: The Ed.D. program provides a blend of rigorous coursework and original research. The program combines a critical analysis of educational theories, an intensive scrutiny of current practices in their socio-cultural, political, multicultural, and technological contexts, and the study of diverse research paradigms. This facilitates the planning and development of research and the opportunity to conduct high quality focused research directed at influencing practice, policy or theory within post-secondary contexts.

Focus areas:

- Administration, Management, or Leadership
- Law or Public Policy
- Student Affairs or Student Development

[†] Information courtesy of Association for the Study of Higher Education (ASHE) Annual Program Questionnaire.

Number of faculty: 5

Degrees (Enrollment):

- Master's (120 full-time)
- Ed.D. (93 full-time)

University of British Columbia (UBC)*

Higher Education Program

Department of Educational Studies

Location: Canada (Vancouver, British Columbia)

Website: <http://edst.educ.ubc.ca/programs/med-programs/higher-education/>

E-mail: amy.metcalfe@ubc.ca

Mission/program description: The Higher Education Program at UBC focuses on the study of all facets of institutions of higher learning. The multifaceted, interdisciplinary program draws on aspects of history, philosophy, sociology, economics, political science, psychology, sociology, law, and administrative studies.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Ontario

University of Toronto

Higher Education Group

Department of Leadership, Higher and Adult Education

Ontario Institute for Studies in Education

Location: Canada (Toronto, Ontario)

Website: http://www.oise.utoronto.ca/lhae/Programs/Higher_Education/index.html

E-mail: gjones@oise.utoronto.ca

Mission/program description: The Higher Education Group is Canada's leading center for graduate education and research in the field of higher education.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Student Affairs or Student Development

Year established: 1977

Number of faculty: 11

Degrees (Enrollment):

- Master's (27 full-time, 70 part-time)
- Ph.D. and Ed.D. (60 full-time, 10 part-time)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional Information: Additional areas of expertise within the Higher Education Group include higher education policy, governance, the academic profession, community college education, and health professional education.

CHILE

Universidad Diego Portales

Centro de Políticas Comparas de Educación (CPCE)

Within the framework of the Vicerrectoria Académica

Location: Chile (Santiago, Metropolitan Region)

Website: <http://www.cpce.cl>

E-mail: direccion@cpce.cl

Mission/program description: CPCE's purpose is to contribute, through the production and transfer of expertise, to the design, implementation, execution and evaluation of educational policies, as well as to actively participate in the discussion of these public policies. The Center's studies address the educational system as a whole, including preschool, school level and higher education. Studies are characterized by a comparative international emphasis and a technical and interdisciplinary focus at the local level oriented towards policy making and public debate.

Focus areas:

- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 2010

Number of faculty: 4

Degrees (Enrollment):

- Ph.D. (8 students)

Delivery method:

- Doctoral: On-site only

Additional information: The Ph.D. program is offered jointly by CPCE-Universidad Diego Portales and the Faculty of Humanities, Leiden University, The Netherlands. Doctoral degrees are awarded separately by Leiden University and Universidad Diego Portales.

Fujian

Research Institute of Higher Education

Xiamen University

Institute of Education

Location: China (Xiamen, Fujian)

Website: <http://ihe.xmu.edu.cn>

E-mail: gjs@xum.edu.cn

Mission/program description: The Institute seeks to research the key issues of higher education development and reform in China and satisfy the country's decision-making of post-secondary education. The Institute of Education at Xiamen University, often referred to as the Research Institute of Higher Education Science, was developed as a Research Unit of Higher Educa-

tion Science, which was the earliest academic organization specialized in Higher Education in China, founded on May 17, 1978. Authorized by Ministry of Education in February 1984 and accredited by the Committee on Degrees of the State Council, the Institute was the first institute in China to set up a master's program in Higher Education on January 13, 1984 and a doctoral program in higher education on July 28, 1986. Professor Pan Maoyuan was designated as a Ph.D. supervisor for doctoral students and has served as the first supervisor in the field of Higher Education in mainland China.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Comparative or International Studies

Year established: 1978

Number of faculty: 25+

Degrees (Enrollment):

- Master's (301 full-time)
- Ph.D. (20 full-time, 10 part-time)
- Ed.D. (10 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Guangdong

Institute of Education Research*

Sun Yat-Sen University

College of Education

Location: China (Guangzhou, Guangdong)

Website: <http://zdjyxy.sysu.edu.cn>

E-mail: quqf@mail.sysu.edu.cn

Mission/program description: Sun Yat-sen University College of Education was established in August 2011. Currently, we are housed in the Education School, Faculty of Social Sciences Institute of Education and Department of Psychology. Since our founding, we have trained undergraduate, master's, and doctoral students. We offer Ph.D. degrees in economics and management education, higher education, education economics and management, education technology, and physical education and training. We also offer master's degree programs in public affairs management. The College of Education places great importance on the study of national reform and the opening up of Guangdong Province. The Institute has introduced a group of senior experts and outstanding young scholars and strives to create academic leaders and youth at the core of the academic team. We collaborate with the U.S., U.K., Canada, Japan, Hong Kong, Macao, Taiwan and other countries and regions to establish a close relationship through exchanges and friendly cooperation.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation

Year established: 2011

Number of faculty: 12

Degrees (Enrollment):

- Master's (881 full-time, 263 part-time)
- Ph.D. (4 full-time, 30 part-time)

* Information obtained from institution's website.

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Institute of Higher Education*

Shenzhen University
Normal College

Location: China (Shenzhen, Guangdong)

Website: <http://gjs.szu.edu.cn>

E-mail: yangyy@szu.edu.cn

Mission/program description: The Institute of Higher Education at Shenzhen University was founded in 1986 by Dr. Liao Yuan Geng. In 1995, Dr. Yang Yu served as Associate Director to undertake higher education research for the Chinese Ministry of Education in Shenzhen, Guangdong Province. Dr. Yang Yi established a master's degree program in higher education in 2006 and enrolled the first students in 2007. At present, the Institute of Higher Education has 7 full-time faculty members and 15 part-time faculty members. In 2010, there were approximately 25 full-time graduate students in the higher education program. The Institute's primary research areas are: higher education administration, the history of higher education, moral education in universities, the basic theory of higher education, and the economics of higher education. The Institute also examines the current reforms and development of higher education in China and across the world. The Institute offers two specialized concentrations: 1) basic theory of higher education and 2) higher education management. The current Institute director is Dr. Xiangyun Zhang.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- History of Higher Education

Year established: 1986

Number of faculty: 7

Degrees (Enrollment):

- Master's (25 full-time)

Delivery method:

- Master's: On-site only

Institute of Higher Education

South China University of Technology
Research Center for Development Strategy and Policy

Location: China (Guangzhou, Guangdong)

Website: <http://www.scut.edu.cn/gjs>

E-mail: ouyanglf@scut.edu.cn

Mission/program description: The Institute of Higher Education aims to be one of the top organizations in mainland China, especially in higher educational counseling and engineering education. We hope to lead educational research in Pearl River Delta in China. Since our founding, we have offered degrees and courses in theory of education, engineering education, education management, education policy, higher education, and degree and postgraduate education. We have two permanent research centers: 1) Regional Development Research Center of Higher Education and 2) Degrees and Graduate Education Development Research Centre.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education

* Information obtained from institution's website.

Year established: 1981

Number of faculty: 9

Degrees (Enrollment):

- Master's (151 full-time)

Delivery method:

- Master's: On-site only

Institute of Higher Education Research

South China Normal University

Faculty of Education Sciences

Location: China (Guangzhou, Guangdong)

Website: <http://jky.scnu.edu.cn/>

E-mail: jky@scnu.edu.cn

Mission/program description: Faculty of Education Sciences (FES), South China Normal University (SCNU) houses three centers in Guangdong province: The Center for Educational Scientific Research, Center for Research in Basic Education, and Center for Teacher Education. FES consists of five departments and six institutes: Department of Education Science, Department of Curriculum and Instruction, Department of Early Childhood Education, Department of Psychology, and Department of Educational Psychology; Educational History Research Institute, International and Comparative Education Research Institute, Education Management Institute, Education Science Research Institute, Curriculum and Textbook Research Institute, Higher Education Research Institute, and the "Moral Education in Primary School" magazine publisher. FES now runs three magazines: "Primary School Moral Education (authorized by Ministry of Education)", "Modern Education Forum" and "Textbooks and Teaching Arts in Primary and Middle Schools." We offer degree programs in Education, Curriculum and Instruction, Early Childhood Education, Comparative Education, History of Education, Higher Education, Adult Education, Special Education, Vocational and Technology Education, Educational Technology, Basic Education, Basic Psychology, Developmental and Educational Psychology, and Applied Psychology and Statistic and Measurement Psychology.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Comparative or International Studies

Year established: 2009

Number of faculty: 15

Degrees (Enrollment):

- Master's (1 full-time, 26 part-time)
- Ph.D. (5 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Hebei

Institute of Higher Education

Nankai University

Location: China (Tianjin, Hebei)

Website: <http://user.nku.cn/noscript/gjs/overview.html>

E-mail: wangch@nankai.edu.cn

Mission/program description: The Division of Higher Education was founded in Nankai University in 1983. Since our founding, the Institute has appeared in a number of magazines, namely the "Education Forum of Nankai" which has been hosted by the

Division since 1986. Twelve years later, the Institute for Higher Education was founded in 2000. Since then, Nankai University has been authorized by the State Degree Committee to offer Master's Degrees of Higher Education, and to become an academic school devoted to research and talent-training in post-secondary pedagogy while providing high-quality services for the development and reform of Chinese universities.

Focus areas:

- Comparative or International Studies
- Globalization or Internationalization
- History of Higher Education

Year established: 2000

Number of faculty: 5

Degrees (Enrollment):

- Master's (40 full-time, 60 part-time)
- Ph.D. (5 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional Information: Nankai University seeks to undertake research in areas such as the philosophy of higher education, higher education economics, history of higher education, comparative higher education, higher education psychology, and so on. We believe that we will continue cultivating advanced talent in higher education based on our Master's-level education, and run a timely undergraduate program in pedagogy, while making the utmost effort to apply for authority to offer a doctoral degree in higher education. The Institute aspires to be one of the most important bases of talent-cultivation in the area of higher education.

Hubei

Institute of Higher Education*

China University of Geosciences
Development Research Center

Location: China (Wuhan, Hubei)

Website: <http://cuggroup.cug.edu.cn/gjs>

E-mail: gjb@cug.edu.cn

Mission: The Institute of Higher Education at China University of Geosciences has three primary responsibilities: 1) research key issues of higher education, 2) publish the *Modern Higher Education* newsletter, and 3) carry out activities to advance the thematic discussion of higher education. At present, there are three professors and four associate professors. The Institute is responsible for examining the reform and development of higher education, to provide relevant information to school leaders, and to provide policy advice to school information services. The current director of the Institute is Dr. Zhang Jingao and the associate director is Dr. Li Zhuchao.

Focus areas:

- History of Higher Education
- Quality Assurance, Assessment, or Accreditation

Year established: 2003

Number of faculty: 21

Degrees (Enrollment):

- Master's (15 full-time, 20 part-time)
- Ph.D. (10 full-time, 5 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Institute of Higher Education Research

Huazhong University of Science and Technology
School of Education

Location: China (Wuhan, Hubei)

Website: <http://jky.hust.edu.cn>

E-mail: tingzhu1407@mail.hust.edu.cn or yqzhang@mail.hust.edu.cn

Mission/program description: Our program is focused on curriculum, teaching and learning, and moral education. We offer both Master's and Ph.D. degrees. The School of Education offers four Ph.D. programs (Higher Education, Educational Economy and Management, Pedagogy and Doctorate in Education) and six Master's programs (Curriculum and Teaching Methodology, Developmental and Educational Psychology, Educational Technology), among which Higher Education is recognized as a national key discipline and Educational Economy and Management a key discipline of Hubei province. A Master of Education program and postdoctoral position are also provided in our school. The mission of the School of Education is to promote research on higher education theory, higher education policy and administration, international comparative study, academic degree and graduate education, elementary education and reform, and college student psychology. We seek to advance the development of the discipline of higher education and pedagogy, and to produce outstanding graduates in both theoretical and practical aspects.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 2003

Number of faculty: 6

Degrees (Enrollment):

- Master's (121 full-time, 150 part-time)
- Ph.D. (3 full-time, 1 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Jiangsu

Institute of Higher Education*

Nanjing Agricultural University
Office for Development and Planning

Location: China (Nanjing, Jiangsu)

Website: <http://heart.njau.edu.cn/gjs/gj>

E-mail: gjs@njau.edu.cn

Mission/program description: The primary research interests of the Institute of Higher Education of Nanjing Agricultural University are threefold: 1) the economics of education (e.g., education costs, investment in higher education, education and human resource development), 2) higher education administration and management (e.g., law of higher education, education policy, educational administration organizations, quality management), and 3) educational decision-making and development strategies in higher education (e.g., strategic planning and management of technology, educational planning and policies). The Institute currently has 7 professors and 4 associate professors. The Institute has successfully published 12 textbooks and more than 80 scholarly papers. The Institute recently hosted the inaugural "World Dialogue on Agricultural and Life Science Education: Universities as Entrepreneurs for Sustainable Rural Development" on October 20, 2013.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Year established: 2003

Number of faculty: 11

Degrees (Enrollment):

- Master's (10 full-time, 5 part-time)
- Ph.D. (2 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Institute of Higher Education

Nanjing University
Institute of Education

Location: China (Nanjing, Jiangsu)

Website: <http://edu.nju.edu.cn>

E-mail: h Zhang@nju.edu.cn

* Information obtained from institution's website.

Mission/program description: The Institute of Higher Education has three primary purposes: 1) To focus on research and consultancy for the university and local government, 2) To carry out research degree programs of M.A., Ph.D. and Ed.D. mainly in higher education sectors, and 3) To be responsible for evaluative study of undergraduate teaching in the university and provide the results of the study to the provost's office. The Institute of Higher Education now houses the Management Institute, Institute of Mental Health, the Joint Institute of Higher Education, as well as the "Higher Education Research and Exploration" Journal. The Graduate School of Education, founded in 2009, now offers both master's and doctoral degrees in higher education (Ed.D.).

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning

Year established: 2009

Number of faculty: 18

Degrees (Enrollment):

- Master's (201 full-time, 5 part-time)
- Ph.D. (10 full-time, 8 part-time)
- Ed.D. (10 full-time, 5 part-time)

Delivery method:

E-mail: jyxydean@suda.edu.cn

Mission/program description: The Research Institute of Higher Education's primary focus is to foster graduate students to specialize in Higher Education Development in mainland China. The School of Education offers degree programs in higher education (one of Jiangsu province's "key subjects"), applied psychology, curriculum and instruction, educational economy and management, theory of education, developmental and educational psychology, basic psychology, educational technology, and digital media technology.

Focus areas:

- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- History of Higher Education

Year established: 1987

Number of faculty: 12

Degrees (Enrollment):

- Master's (101 full-time)
- Ph.D. (9 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Jiangxi

Institute of Higher Education*

Jiangxi University of Finance and Economics
Office for Development and Planning

Location: China (Nanchang, Jiangxi)

Website: <http://gjs.jxufe.cn>

E-mail: jcgjs2012@163.com

Mission/program description: The Institute of Higher Education was founded in 2006 focusing on higher education theory and acting as an advisory agency for JUF's administrative decision-making. Since its founding, the Institute of Higher Education has been committed to support the university and efforts from all teachers and students. The Institute has published a lot on academic research, talent development, social service and cultural innovation. In 2008 and 2011, the Institute was awarded the great honor of "National Outstanding Institute of Higher Education Research." The Institute currently has 8 faculty and staff members, including 7 full-time professors. Among the eight, four hold doctoral degrees and three hold master's degrees. The Institute offers degrees in higher education with a specialization on education economics and administration, education and human resources development, and entrepreneurship education. The Institute has completed more than 24 provincial and ministerial projects and published more than 100 papers in teaching, research, and education.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Year established: 2006

Number of faculty: 9

Degrees (Enrollment):

- Master's (30 full-time, 5 part-time)

Delivery method:

- Master's: On-site only

Jilin

Institute of Higher Education*

Jilin University
Institute of Higher Education

Location: China (Changchun, Jilin)

Website: <http://gjs.jlu.edu.cn>

E-mail: gjs@njau.edu.cn

Mission/program description: The Institute of Higher Education of Jilin University was founded in 1986 with the purpose to explore concerns of higher education practice in mainland China. In 2001, the Institute began offering a master's degree program in higher education, education management, modern educational technology, and mental health education. At present, the Institute has 12 teachers, of whom 4 are professors, 3 associate professors, and 5 lecturers. Since 2002, 193 students have enrolled in one of our master's degree programs.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Economics, Financing, or Funding of Higher Education

Year established: 1986

Number of faculty: 7

Degrees (Enrollment):

- Master's (50 full-time)

Delivery method:

- Master's: On-site only

Shaanxi

Institute of Higher Education

Shaanxi Normal University

School of Education

Location: China (Xi'an, Shaanxi)

Website: <http://se.snnu.edu.cn/default.aspx>

E-mail: jianrongtian@snnu.edu.cn

Mission/program description: The Program of Higher Education's main purpose is to research the theoretical and practical problems of higher education development in mainland China and to explore and reveal the special law of higher education activities in East Asia. Our Institute aims to foster students to be advanced talented individuals who have a solid foundation of professional theory and knowledge, good comprehensive quality, creative capacity, as well as the ability to do research on higher education. We hope to train students who can engage in the teaching, research, management and service in the field of higher education after graduation.

Focus areas:

- Academic Profession
- Access and Equity
- Administration, Management, or Leadership

Year established: 2006

Number of faculty: 8

Degrees (Enrollment):

- Master's (301 full-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Institute of Higher Education

Xi'an Jiaotong University

School of Public Policy and Administration

Location: China (Xi'an, Shaanxi)

Website: <http://www.xjtu.edu.cn/yxsx/1335.html>

E-mail: gslu@mail.xjtu.edu.cn

Mission/program description: The founding of Xi'an Jiaotong University - Institute of Higher Education started in 1984 as one of the earliest established institutions of higher education research in mainland China. The Institute's primary mission is to do scientific research both nationally and internationally, promote graduate education to students interested in higher education, and to provide consultation and service for the relevant government departments and university decision-making and development plan in the 21st century. Our primary focus of research is on China's higher education development and university reform.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education

Year established: 1984

Number of faculty: 7

Degrees (Enrollment):

- Master's (51 full-time)
- Ph.D. (2 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Shanghai

Institute of Higher Education

East China Normal University
School of Education Sciences

Location: China (Shanghai, Shanghai)

Website: <http://www.ihe.ecnu.edu.cn/en>

E-mail: yyue@ses.ecnu.edu.cn

Mission: The Institute of Higher Education (IHE) is committed to training advanced talent who enjoy innovative spirit and international perspective and aspire to conduct teaching, research, and management in higher education or other related fields. IHE is one of the most important bases for training high-level expertise in our country and providing research and consultant services in higher education in China. At present, IHE has 15 faculty members, 14 of which have a doctorate, with 6 doctoral supervisors, 5 master tutors, 3 part-time professors, optimizing the faculty structure by combining both full-time and part-time professors. By September 2009, IHE has taken in 131 doctoral students, 90 of which have acquired doctorates. Three doctoral dissertations have been named Excellent Doctoral Dissertations by the Chinese Society of Higher Education. Two doctoral dissertations have been name Excellent Doctoral Dissertations by the Shanghai Academy of Social Sciences. IHE started enrolling post-doctoral students in 2000 and 7 have graduated.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Comparative or International Studies

Year established: 1982

Number of faculty: 16

Degrees (Enrollment):

- Master's (100 full-time, 20 part-time)
- Ph.D. (10 full-time, 30 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Institute of Higher Education

Shanghai Jiao Tong University
Graduate School of Education

Location: China (Shanghai, Shanghai)

Website: <http://gse.sjtu.edu.cn>

E-mail: kyu@sjtu.edu.cn

Mission/program description: The Master's and Doctoral degree program in Higher Education at Shanghai Jiao Tong University seek to provide a platform for international and scholarly exchange on key issues in higher education development and to develop global perspectives among students in pursuit of careers in higher education. Our program will provide a unique opportunity for local and international students to engage and enjoy. Our Institute is located in the Graduate School of Education (GSE) where we focus on higher education reform, specifically on research universities in the context of national and international development. We have three research groups, namely the Center for World-Class Universities (WCU), the Center for the Study of Graduate Education (CSGE), and the Center for Science and Technology Policy (CSTP). GSE will uphold the best academic values: commitment to academic freedom and original inquiry, the best education for graduate students in higher education and science policy, and quality service to the academic community in China and beyond.

Focus areas:

- Administration, Management, or Leadership
- Graduate Education
- Quantitative Research Methods
- World-Class University Research
- Comparative or International Studies
- Quality Assurance, Assessment, or Accreditation
- Theory of Higher Education

Year established: 1998

Number of faculty: 10

Degrees (Enrollment):

- Master's (211 full-time)
- Ph.D. (10 full-time, 20 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Research Institute for Higher Education

Fudan University
School of Education

Location: China (Shanghai, Shanghai)

Website: <http://www.ihe.fudan.edu.cn>

E-mail: fdgjs@fudan.edu.cn

Mission/program description: The Institute of Higher Education at Fudan University is committed to cultivating professional elite, refining academic wisdom, forging various partnerships, and connecting China with the world in the field of higher education. We are committed to exploring the theoretical and empirical research on higher education issues, school reform, and development of research and consulting, as well as graduate students in higher education. Our Institute has created academic exchanges with the U.S., Canada, U.K., Japan, China, Hong Kong, China, and Taiwan. Most graduate students from our Institute work in institutions of higher learning. The School of Education offers degrees in Higher Education, Educational Economy and Management, and Curriculum and Teaching Theory. The current director is Professor Xiong Qingnian.

Focus areas:

- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- Law or Public Policy

Year established: 1986

Number of faculty: 10

Degrees (Enrollment):

- Master's (531 full-time, 4 part-time)
- Ph.D. (2 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Sichuan

Research Center of Higher Education

Southwest University

Faculty of Education

Location: China (Beibei, Sichuan)

Website: <http://gaojs.swu.edu.cn/gjs>

E-mail: panli@swu.edu.cn

Mission/program description: The mission of the Research Center of Higher Education is to explore the law of education and to carry forward the scientific spirit of higher education. We seek to promote the reform and development of higher education in mainland China. Additionally, the Research Center of Higher Education seeks to analyze policy/management issues in higher education and the quality assurance process in East Asia.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Year established: 1986

Number of faculty: 10

Degrees (Enrollment):

- Master's (41 full-time, 1 part-time)
- Ph.D. (1 full-time, 1 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Yunnan

Research Institute of Higher Education (RIHE)

Yunnan University

Yunnan Higher Education Evaluation Center

Location: China (Kunming, Yunnan)

Website: <http://www.hie.ynu.edu.cn>

E-mail: jianxin@ynu.edu.cn

Mission/program description: RIHE at Yunnan University plays an important role, with 5 different functions, including: educating 200 postgraduates, and hosting the Yunnan Higher Education Evaluation Center (YHEEC), the academic journal *ACADEMY*, the Yunnan Association of Higher Education (YAHE), and Teachers' Professional Development (TPD). Rooted on the fertile soil of a borderland province with 25 indigenous ethnic minorities, and adhering to the motto of "sincerity, creativity, efficiency and

all-inclusiveness,” RIHE has gradually formed a unique academic and community atmosphere of “thinking globally and acting locally” since our founding in 2002.

Focus areas:

- Administration, Management, or Leadership
- Quality Assurance, Assessment, or Accreditation

Year established: 2002

Number of faculty: 10

Degrees (Enrollment):

- Master’s (10 full-time, 40 part-time)

Delivery method:

- Master’s: On-site only

Zhejiang

Institute of Higher Education

Zhejiang University

College of Education

Location: China (Hangzhou, Zhejiang)

Website: <http://www.ced.zju.edu.cn/english>

E-mail: jyxy187@zju.edu.cn

Mission/program description: The Higher Education program provides participants the opportunity to become experts in the field of higher education and to gain interdisciplinary and practical knowledge in education, teaching, and management. We have organized our program for ambitious professionals who have a high sense of responsibility for educational reform with backgrounds in social science. We aim to develop a high level of research capability for teaching and education management. We have created research groups on higher education policy, international higher education, comprehensive higher education, intelligence and editing, and an institute for higher education. In addition, we have created the Secretariat of the Zhejiang Association for Higher Education Theoretical Studies. We have two journals, i.e. *Zhejiang Higher Education* and *Zhejiang Postgraduate Education*. We are housed in the College of Education. The College of Education at Zhejiang University is one of the leading research colleges in China. It consists of the Department of Education, the Department of Physical Education, the Institute of Educational Leadership & Policy, the Institute of Curriculum & Teaching, the Center for Interdisciplinary Applied Psychology, the Modern Educational Technology Center, the Division of Non-major Physical Education, the Division of Military Education and other institutions.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- History of Higher Education

Year established: 1987

Number of faculty: 14

Degrees (Enrollment):

- Master’s (16 full-time, 2 part-time)
- Ph.D. (6 full-time, 9 part-time)

Delivery method:

- Master’s: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

CUBA

Universidad de Pinar del Río

Centro de Estudios de Ciencias de la Educación Superior (CECES)

Location: Cuba (Pinar del Río)
Website: <http://ceces.upr.edu.cu/>
E-mail: lisbe@vrect.upr.edu.cu

Mission/program description: CECES is an institution attached to the University of Pinar del Río whose mission is to contribute to the development and consolidation of the main processes of the university. Through training and scientific research, it assists with the improvement and transformation of Cuban and international higher education.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1999

Number of faculty: 11

Degrees (Enrollment):

- Masters (25 students)
- Ph.D.

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

EGYPT

Cairo University

Institute of Educational Studies and Research
Department of Higher and University Education

Location: Egypt (Cairo)

GERMANY

University of Applied Sciences Osnabrück

MBA Higher Education and Research Management

Faculty of Business and Social Sciences

Location: Germany (Osnabrück, Lower Saxony)

Website: <http://www.wiso.hs-osnabrueck.de/hwm-mba>

E-mail: hwm@hs-osnabrueck.de

Mission/program description: The MBA Higher Education and Research Management program at the University of Applied Sciences Osnabrück is a part-time study program designed for mid-career professionals.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Student Affairs or Student Development

Year established: 2003

Number of faculty: 2

Degrees (Enrollment):

- Master's (25 part-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Additional information: Classroom lectures take place Fridays and Saturdays, in tandem with self-study, allowing the MBA to be completed in two or three years and parallel to working. The program prioritizes practical experience, exemplified in the role of case studies in the classroom and the focus on applied knowledge.

HONG KONG

The University of Hong Kong*

Higher Education Policy Studies

Faculty of Education

Location: Hong Kong, China (Pokfulam)

Website: <http://web.edu.hku.hk>

E-mail: paoleks@hku.hk

Mission/program description: The higher education program in the Faculty of Education at The University of Hong Kong (HKU) equips students with analytical perspectives on global, regional, national and local policies and practices in a variety of higher education systems all over the world. The selected core modules serve the professional and scholarly needs of emerging leaders, administrators, teachers, content developers, and analysts engaged in shaping content, strategies and mechanisms for the improvement of university and college units. The core modules explore the aims of higher education, the roles and responsibilities of world class universities, the changing academic profession, and the organizational strategies and governance issues across the spectrum of higher education levels. Students will also explore key topics related to changes in post-secondary teaching and learning, multiculturalism, collaboration and internationalization. Students have an opportunity to extend their inquiry to a wide range of social, cultural and pedagogical themes examined in electives.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization

Year established: 2010

Number of faculty: 5

Degrees (Enrollment):

- Masters (10 full-time, 20 part-time)
- Ph.D. (5 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional information:

The higher education program has four specialist modules: 1) Globalization and higher education, 2) Aims of higher education, 3) The changing academic profession, and 4) Organizational theories and strategies in higher education.

Year established: 1972

Number of faculty: 10

Degrees (Enrollment):

- Master's (10 full-time)
- Ph.D. (19 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

J.F. Oberlin University

M.A. in Higher Education Administration

Graduate School of Higher Education Administration

Location: Japan (Shinjuku-ku, Tokyo)

Website: http://www.obirin.ac.jp/en/graduate_division/index.html

E-mail: g-sch-de@obirin.ac.jp

Mission/program description: This program trains specialists in higher education administration. Our students learn to understand the fundamental theories of higher education and the knowledge required to administer a college or university. They also learn how to see their field from an international perspective.

Focus areas:

- Administration, Management, or Leadership

Year established: 2001

Number of faculty: 9

Degrees (Enrollment):

- Master's (98 full-time and part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Additional information: J.F. Oberlin University offers higher education programs that are fully on-site or fully online (distance). Fifteen masters students are enrolled in the campus based program, while 83 students are in the distance education program.

Kyoto University

Chair of Higher Education Research and Development

Graduate School of Education

Location: Japan (Kyoto, Kyoto)

Website: <http://www.highedu.kyoto-u.ac.jp>

E-mail: 550center@mail2.adm.kyoto-u.ac.jp

Mission/program description: This chair studies university education so as to contribute to education reform which is urgently needed due to the university popularization and globalization. The courses are designed to cover various fields of higher education studies such as teaching and learning, evaluation, curriculum design, e-Learning, students' mentality, systems and policies of higher education, and student affairs. A major concept of these courses is the integration of theory and practice. Students are trained to master basic methods and theories of higher education studies including literature survey, video taping analysis, questionnaire methods, and ethnographical approaches, so that they can plan and accomplish their own research following their personal interests. Students wishing to enter this chair have to pass the master course entrance examination which is held by the Graduate School of Education in February. The master degree is awarded upon acquisition of required credits and favorable acceptance of the thesis.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation
- Student Affairs or Student Development

Year established: 1994

Number of faculty: 7

Degrees (Enrollment):

- Master's (6 full-time)
- Ph.D. (6 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Nagoya University

Higher Education Management Program

Graduate School of Education and Human Development

Location: Japan (Nagoya, Aichi)

Website: <http://www.educa.nagoya-u.ac.jp/en/graduate/pdp/index.html#1>

Mission/program description: This program aims to nurture professional educational staff who can inquire structurally into the educational process. It seeks to help students master the diverse clinical and theoretical research methods used in the educational sciences. Fieldwork and classroom analysis are the tools to be acquired by students. The primary focus is on educational personnel who encounter problems in the dramatically changing school and education environments of an advanced information society.

Focus areas:

- | | |
|--|---|
| ■ Academic Profession | ■ Administration, Management, or Leadership |
| ■ Comparative or International Studies | ■ Curriculum & Instruction or Teaching & Learning |
| ■ Economics, Financing, or Funding of Higher Education | ■ Globalization or Internationalization |
| ■ History of Higher Education | ■ Private Higher Education and Privatization |
| ■ Qualitative Research Methods | ■ Quality Assurance, Assessment, or Accreditation |
| ■ Quantitative Research Methods | ■ Student Affairs or Student Development |

Number of faculty: 8

Degrees (Enrollment):

- Master's
- Ed.D.

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

The University of Tokyo

Department of University Management and Policy Studies

Graduate School of Education

Location: Japan (Bunkyo-ku, Tokyo)

Website: <http://ump.p.u-tokyo.ac.jp/en/>

E-mail: daikei@p.u-tokyo.ac.jp

Mission/program description: The Department of University Management and Policy Studies offers theoretical and practical education on university management and higher education policies to administrators and policy makers at universities and higher education institutions, and fosters scholars and future leaders in this new field.

Focus areas:

- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education

Year established: 2005

Number of faculty: 4

Degrees (Enrollment):

- Master's (1 full-time, 27 part-time)
- Ph.D. (11 full-time, 14 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional information: The faculty in this program conduct research on university management and policy. Additional information can be found at the Center for Research on University Management and Policy (CRUMP) website (only Japanese) <http://ump.p.u-tokyo.ac.jp/crump/>

University of Tsukuba

Post-Graduate Certificate Program for University Management
Research Center for University Studies

Location: Japan (Bunkyo-ku, Tokyo)

Website: <http://www.rcus.tsukuba.ac.jp/program/index.html>

E-mail: rcus-ump@un.tsukuba.ac.jp

Mission/program description: This certificate program is work-based learning mainly for adults who are working at higher education institutions and are expected to work at the managerial level. All students are part-time and the duration of study is one to one and a half year (three years maximum).

Focus areas:

- Administration, Management, or Leadership

Year established: 2009

Degrees (Enrollment):

- Certificate

KAZAKHSTAN

Nazarbayev University

M.Sc. in Educational Leadership (specialization in Higher Education Management); Ph.D. in Educational Leadership
Nazarbayev University Graduate School of Education (NUGSE)

Location: Kazakhstan (Astana)

Website: <http://gse.nu.edu.kz/gse>

E-mail: gse@nu.edu.kz

Mission/program description: The NUGSE aspires to become an influential, world-class graduate school of education, leading change in educational thinking, policy and practice at all levels of education through scholarly research, quality teaching and persuasive argument. Through its research, teaching and scholarship, the NUGSE is committed to working to improve education for all, sustaining a vision of education which enables individuals to maximize their own potential, free from the constraints of poverty and background, within a context of mutual understanding and global interdependence. The NUGSE shall: engage in educational research, teaching and scholarship at the highest international standard; mediate such research, teaching, and scholarship, locating it within broader contemporary frameworks; and enhance capacity-building in educational research, teaching and scholarship. In working towards these aims, the NUGSE seeks to: maintain a collaborative and cooperative ethos, work with other Schools within Nazarbayev University in various interdisciplinary contexts and efforts, and pursue strategic initiatives to improve initial and continuing teacher education.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Globalization or Internationalization

Year established: 2010

Number of faculty: 25+

Degrees (Enrollment):

- Masters (25 full-time)
- Ph.D. (6 full-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Additional information: NUGSE is partnering with the University of Cambridge and the University of Pennsylvania.

MOZAMBIQUE

University Eduardo Mondlane*

Master in Higher Education Studies and Development

Location: Mozambique (Maputo)

Website: http://www.faced.uem.mz/index.php?option=com_content&task=view&id=170&Itemid=187

- Master's: On-site only

Centre for Higher Education Transformation (CHET)

Location: South Africa (Cape Town, Western Cape)

Website: <http://www.chet.org.za/>

E-mail: ncloete@chet.org.za

Mission/program description: The Centre for Higher Education Transformation (CHET) is a non-governmental organization that mobilizes transdisciplinary skills for specific research and capacity development projects by tapping available expertise in the national and international higher education sector. CHET coordinates a network of higher education researchers and provides a forum for dialogue between the different structures, stakeholders and constituencies in higher education. A non-hierarchical, flexible management style combined with modern information technology and outsourcing expertise within academia and steering committees affords CHET the unique capacity to respond to higher education needs with only a limited number of full-time staff. The Ph.D. and Master's programs are offered in participation with three universities on three continents.

Focus areas:

- Access and Equity
- Community College, Vocational, or Technical Education
- Comparative or International Studies

Year established: 1996

Degrees (Enrollment):

- Master's (10 full-time)
- Ph.D.

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

University of Kwazulu-Natal

Higher Education Training and Development

School of Education and University Teaching and Learning Office

Location: South Africa (Durban, Kwazulu-Natal)

Website: <http://hes.ukzn.ac.za/Homepage.aspx>

E-mail: hetd@ukzn.ac.za

Mission/program description: Higher Education Training and Development (formerly Higher Education Studies) promotes the field of Higher Education in all its facets and forms, as an area of scholarship and praxis, through a commitment to collegiality, academic freedom, agency, collaboration and equity as the basis for excellence.

Focus areas:

- Administration, Management, or Leadership
- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning

Number of faculty: 5

Degrees (Enrollment):

- Master's (10 part-time)
- Ph.D.
- Certificate

Delivery method:

- Master's: On-site only

Rhodes University

Centre for Higher Education Research, Teaching & Learning

Faculty of Education

Location: South Africa (Grahamstown, Eastern Cape)

Website: <http://ru.ac.za/chertl>

E-mail: C.Boughey@ru.ac.za

Mission/program description: To promote research based practice in teaching and learning at Rhodes University and other South African universities.

Focus areas:

- Access and Equity
- Curriculum & Instruction or Teaching & Learning
- Quality Assurance, Assessment, or Accreditation

Year established: 2008

Number of faculty: 17

Degrees (Enrollment):

- Master's (5 full-time)
- Ph.D. (1 full-time, 31 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

SOUTH KOREA

Seoul National University

Education Administration

College of Education

Location: South Korea (Seoul, Kwanak-gu)

Website: <http://skie.snu.ac.kr/html/index.php>

E-mail: jcs6205@snu.ac.kr

Mission/program description: For the doctoral program, our mission is to train next generation scholars in the field of higher education administration and policy studies, as well as in the field of education administration, in general. For the master's program, our mission is to prepare students for professional jobs in a higher education institutions and to prepare students for doctoral studies if they are interested in academic research.

Focus areas:

- Academic Profession
- Comparative or International Studies
- Globalization or Internationalization
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Quality Assurance, Assessment, or Accreditation

Additional information: About the Director: Dr. Shin is an associate professor at Seoul National University. He served at the Korean Ministry of Education for about 20 years. His research interests are higher education policy, knowledge production and social development, and the academic profession. He is Co-Editor-in-Chief of the *International Encyclopedia of Higher Education*, to be published by Springer in 2014. Currently, he is a board member of *Higher Education*, *Tertiary Education and Management* and *Peabody Journal of Education*. Dr. Shin coedited several books, including *University Ranking* (2011), *Institutionalization of World-Class University* (2013), *Teaching and Research in Contemporary Higher Education* (2013), and *The Future of the Post-Massified University at the Crossroads*.

TAIWAN

NTCU-National Taichung University of Education

Master's Program in Management of Higher Education

Location: Taiwan (Taichung)

Website: <http://www.ntcu.edu.tw/eng/>

E-mail: sheu@mail.ntcu.edu.tw

Mission/program description: The master's degree program in management of higher education was established in 2012. It is the first program focusing on the management of higher education in Taiwan. The program aims to increase graduate students' knowledge and experience of management of higher education, to promote the professionalization of staff in universities, and to cultivate experts at managerial levels who respond to higher education requirements. The program places its main focus on a wide range of study domains, including theories and new issues of higher education, the higher education systems and policies in developing countries, and problems of Taiwanese higher education.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization
- Quality Assurance, Assessment, or Accreditation

Year established: 2012

Number of faculty: 1

Degrees (Enrollment):

- Masters (5 full-time, 5 part-time)

Delivery method:

- Master's: On-site only

UGANDA

Makerere University*

Ph.D. in Higher Education Management, Planning and Administration

Master of Arts in Higher Education

East African School of Higher Education Studies and Development

Location: Uganda (Kampala)

Website: <http://eaihesd.mak.ac.ug/study-programmes.html>

E-mail: highereduc@educ.mak.ac.ug

Mission/program description: To provide a learning environment imbued with the spirit of innovation and teamwork conducive to planning, managing and developing higher education, to enhance human resources, research and institutional capacity building, and support development programs for higher education in the East African Region and internationally.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Ph.D.
- Certificate

UNITED KINGDOM

Bath Spa University*

Professional Practice in Higher Education

School of Education

Location: UK (Bath, Somerset)

Website: <http://www.bathspa.ac.uk/schools/education/courses/postgraduate/professional-practice-in-higher-education>

E-mail: cltd@bathspa.ac.uk

Mission/program description: The Professional Practice in Higher Education (PPHE) program aims to help staff and research students to meet some of the key challenges of working in the rapidly changing world of higher education. These challenges – of teaching, supporting student learning, employability, sustainability, new technologies, team management, enterprise, quality assurance and external accountability – range across the whole business of higher education, and can rarely be addressed in isolation. They raise many questions about how best to enhance teaching and research within particular contexts, and about how managers and administrators can improve the effectiveness and efficiency of current practices, not least in terms of addressing students' needs and aspirations, enriching their learning experiences, and raising the enduring value of their learning outcomes.

* Information obtained from institution's website.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Certificate

Edge Hill University

MA Management of International Higher Education
Faculty of Education

Location: UK (Ormskirk, West Lancashire)

Website: <http://www.edgehill.ac.uk/study/courses/management-of-international-higher-education>

E-mail: heglobal.training@gmail.com

Mission/program description: To provide a cohesive continuing professional development framework, with academic rigor at the postgraduate level that delivers online and meets the needs of those who have management responsibilities for international activities.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization
- Student and Scholar Mobility

Year established: 2009

Number of faculty: 6

Degrees (Enrollment):

- Master's (10 part-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Additional information: The affiliated Centre for International Education provides various training and consultancy activities and is linked with the Confucius Institute at Edge Hill University.

Institute of Education, University of London

MA in Higher and Professional Education
Department of Lifelong and Comparative Education

Location: UK (London, Greater London)

Website: http://www.ioe.ac.uk/study/PMM9_HPE9IM.html

E-mail: v.carpentier@ioe.ac.uk

Mission/program description: The program provides critical insight into the changing field of higher and professional education in the context of a vibrant learning community. Participants explore, share and challenge existing knowledge and experience by engaging with different ideas, concepts, values and practices. They examine higher education policy in relation to their own personal experiences and professional and career development. The program connects contemporary theories to the practical issues that concern professionals in their everyday work contexts. It offers an interdisciplinary lens to key contemporary institutional, national and global issues concerning current policy and practice within higher and professional education.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education

Year established: 1988

Number of faculty: 9

Degrees (Enrollment):

- Master's (6 full-time, 19 part-time)

Delivery method:

- Master's: On-site only

Institute of Education, University of London

MBA in Higher Education Management

Centre for Higher Education Studies

Location: UK (London, Greater London)

Website: http://www.ioe.ac.uk/study/PMB9_HEM9IM.html

E-mail: enquiries@ioe.ac.uk

Mission/program description: The Master's degree (MBA in Higher Education Management) offers an intellectual and professional challenge as a component in the professional formation of future senior higher education managers; develops participants' understanding of the key concepts in the academic literature and in the field of professional practice relevant to higher education management; increases capacity for critical reflection on one's own professional practice, drawing on a range of theoretical and practice-based perspectives; and creates a community of practice, committed to mutual support and to enhancing and sharing professional insights.

Focus areas:

- Administration, Management, or Leadership

Year established: 2002

Number of faculty: 10

Degrees (Enrollment):

- Master's (25 part-time)

Delivery method:

- Master's: On-site only

Additional information:

The MBA operates on the basis of week-long residential modules, including: expert sessions given by a mix of external speakers, members of the program team and others from the Institute; syndicate group tasks; and meetings with Academic Advisers. The two cohorts (new entrants and second years) study together, so the curriculum is repeated every two years.

King's College London

Certificate and Master in Academic Practice / Ph.D. in Higher Education

King's Learning Institute

Location: UK (London, Greater London)

Website: <http://www.kcl.ac.uk/study/learningteaching/kli/pc/index.aspx>

E-mail: kelly.coate@kcl.ac.uk

Mission/program description: King's Learning Institute engages in high quality research, teaching and consultancy in all aspects of learning in academic and professional work, providing professional development opportunities informed by research of an international standard. The Institute offers a wide range of accredited programs in academic and professional learning, from certificate through to doctoral study.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning

Year established: 2001

Number of faculty: 14

Degrees (Enrollment):

- Master's (50 part-time)
- Ph.D. (3 full-time, 8 part-time)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Kingston University

Centre for Higher Education Research and Practice

Location: UK (Kingston-upon Thames, London)

Website: <http://www.kingston.ac.uk/centre-for-higher-education-research-and-practice/>

E-mail: t.linsey@kingston.ac.uk

Mission/program description: The Centre supports the development of research-informed learning and teaching and aims to make academic practice increasingly professional through accreditation and robust research.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Student Affairs or Student Development

Year established: 2013

Number of faculty: 12

Degrees (Enrollment):

- Master's
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Additional information: All programs are presently being re-validated against a National Standards Framework (i.e., Certificate, Diploma and Master's levels). The programs are also being developed in two modes, face-to-face and online. 52 students were enrolled on the PGCert programme in 2013. The MA in Higher Education will launch in September 2014. At present an Ed.D. is offered in the School of Education (jointly with Roehampton University) not through CHERP - but is available to all staff. Professional doctorates are in discussion.

Lancaster University

Higher Education Research, Evaluation and Enhancement

Higher Education Research and Evaluation Centre

Location: UK (Lancaster, Lancashire)

Website: http://www.lancaster.ac.uk/fass/edres/study/higher_education_research/index.htm

E-mail: kathryn.doherty@lancaster.ac.uk

Mission/program description: This Ph.D. qualification lasts over four years part-time and targets higher education professionals of all sorts. It provides research training rather than professional training.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning

Year established: 2013

Number of faculty: 7

Degrees (Enrollment):

- Ph.D. (23 part-time)

Delivery method:

- Doctoral: Online (or via distance) only

University of Bath

Doctorate in Business Administration (DBA) in Higher Education Management
School of Management

Location: UK (Bath, Somerset)

Website: <http://www.bath.ac.uk/management/dba/objectives/>

E-mail: dbahem@bath.ac.uk

Mission/program description: This doctoral program is aimed at those who are working in higher education, who already possess a postgraduate qualification from a recognized university. The program takes in 20 students a year from across the world. The focus is on higher education management.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Globalization or Internationalization

Year established: 2001

Number of faculty: 5

Degrees (Enrollment):

- DBA (20 part-time)

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

University of Kent

Certificate, Diploma, Master and Ph.D. in Higher Education
Centre for the Study of Higher Education

Location: UK (Canterbury, Kent)

Website: <http://www.kent.ac.uk/cshe/programmes/index.html>

E-mail: heprogsadmin@kent.ac.uk

Mission/program description: The Centre for the Study of Higher Education is an interdisciplinary research center which brings together academics from across the University of Kent with research interests in higher education. The Centre offers a varied program of research seminars, guest lectures by visiting academics, and work-in-progress seminars throughout the year, as well as opportunities for postgraduate study at master's and doctoral level.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning
- Law or Public Policy

Year established: 2011

Number of faculty: 5

Degrees (Enrollment):

- Master's (20 part-time)
- Ph.D. (1 full-time, 1 part-time)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional information:

Our core team of 5 education academics offers co-supervision with faculty from other disciplines (e.g., Psychology, Politics, Sociology). Our first Ph.D. students enrolled in 2013.

University of Liverpool

Doctor of Education, Higher Education

Centre for Lifelong Learning

Location: UK (Liverpool, Merseyside)

Website: http://www.liv.ac.uk/study/postgraduate/taught_courses/laureate_online_doctor_of_education_-_higher_education

Mission/program description: The program aims to form educational leaders of the future, offering graduates enhanced access to a wide range of leadership positions in the field of higher education, where the truly international practitioner is in great demand. The program offers experiences that are career enhancing through the development of enhanced research skills, the rigorous application of thoughtful practice supported by a high degree of peer support and networking that will continue beyond the program. The program offers a particularly strong international dimension, drawing as it does its student body from across the world. This allows a broader than normal opportunity to explore varied educational settings and realities.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning

Year established: 2011

Degrees (Enrollment):

- Ed.D.

Delivery method:

- Doctoral: Online (or via distance) only

University of Nottingham

MA International Higher Education

School of Education

Location: UK (Nottingham, Nottinghamshire)

Website: <http://www.nottingham.ac.uk/education/prospective/masters/international-higher-education/introduction.aspx>

E-mail: mia.bellusova@nottingham.ac.uk

Mission/program description: The overall aim/vision of the program is to develop awareness, understanding and knowledge of higher education internationalization as essential for the development of transformative practice across all functions and levels in higher education institutions in a global context.

Focus areas:

- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization

Year established: 2010

Number of faculty: 8

Degrees (Enrollment):

- Master's (10 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

University of Oxford

MSc Education (Higher Education)

Department of Education

Location: UK (Oxford, Oxfordshire)

Website: <http://www.education.ox.ac.uk/courses/higher-education/>

E-mail: hubert.ertl@education.ox.ac.uk

Mission/program description: The program provides a broad introduction into the complex field of theories and practice in higher education globally. It is aimed at future leaders in the field – academics, managers, policy-makers and researchers. The course provides a strong foundation for: teaching and learning in a wide variety of higher educational contexts; developing higher education curricula and learning programs to meet a range of local and international needs; using research to analyze and evaluate current structures and future reforms of higher education in different international contexts; and conducting doctoral, post-doctoral and professional research.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization

Year established: 2004

Number of faculty: 3

Degrees (Enrollment):

- Master's (11 full-time)

Delivery method:

- Master's: On-site only

University of Sheffield

Ph.D., Ed.D. and M.Ed. in Higher Education

School of Education

Location: UK (Sheffield, South Yorkshire)

Website: <http://www.sheffield.ac.uk/education/schoolofeducation>

E-mail: edu-enquiries@sheffield.ac.uk

Mission/program description: The Ph.D. and Ed.D. programs offer research training and professional preparation leading to research thesis in the field of higher education. The M.Ed. program offers research-informed professional development in the area of teaching and learning in higher education.

Focus areas:

- Administration, Management, or Leadership

Year established: 1995

Number of faculty: 10

Degrees (Enrollment):

- Master's (20 part-time)
- Ph.D. and Ed.D. (10 full-time, 50 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional information: The Ph.D. in higher education is primarily research-based, including a program of research training. The Ed.D. is a professional doctorate with taught components in stage one and a research thesis in stage two.

Degrees (Enrollment):

- Master's
- Ph.D. and Ed.D.
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Arizona

Arizona State University (ASU)*

Higher and Postsecondary Education Program

Mary Lou Fulton Teachers College

Location: USA (Tempe, Arizona)

Website: <http://education.asu.edu/programs/view/master-of-education-in-higher-and-postsecondary-education>

Mission/program description: The Master of Education in Higher and Postsecondary Education is designed to facilitate the professional development of those who work in colleges and universities in administrative or support positions. Through an educational trajectory that parallels that of ASU's New American University, graduates will be prepared to advance the institutional mission of their school and contribute to its success through a broader understanding of current issues and approaches as well as practical experience gained in the program. The program offers courses that integrate theory to practice through relevant research, models and applied skills.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

* Information obtained from institution's website.

Northern Arizona University*

Educational Leadership (Community College/Higher Education) Program
Department of Educational Leadership
College of Education

Location: USA (Flagstaff, Arizona)

Website: <http://nau.edu/COE/Ed-Leadership/Degrees-Programs/MEd-Ed-Leadership/>

Mission/program description: The master's program offers preparation for students planning to enter the community college/higher education field as a faculty member or for those who already have experience and wish to prepare for greater leadership responsibilities. This program is also appropriate for students with an unusual combination of teaching interests and who wish to qualify to teach or assume leadership roles in the community college. The doctorate program is primarily for individuals interested in K-12 Educational Administration or Community College/Higher Education Administration. Area III provides the opportunity for students to select their preferred emphasis.

Focus areas:

- Community College, Vocational, or Technical Education

Degrees (Enrollment):

- Master's
- Ed.D.

University of Phoenix

Higher Education Administration Program
School of Advanced Studies

Location: USA (Phoenix, Arizona)

Website: <http://www.phoenix.edu/programs/degree-programs/education/doctoral/Ph.D.-hea.html>

Mission/program description: The Doctor of Philosophy in Higher Education Administration degree program offered by University of Phoenix provides learners who hold a master's degree a means for expanding their research and analytical skills in preparation for leadership in post-secondary institutions. The program emphasizes ethical, collaborative, and global perspectives on higher education that are responsive to learners' dynamic needs. The Ph.D./HEA program has a 65-credit requirement that involves online modalities of instruction, residency requirements, a comprehensive examination, and a dissertation.

Focus areas:

- Academic Profession
- Economics, Financing, or Funding of Higher Education
- Student Affairs or Student Development
- Administration, Management, or Leadership
- Globalization or Internationalization

Year established: 2008

Number of faculty: 25+

Degrees (Enrollment):

- Ph.D.

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Arkansas

Arkansas State University*

College Student Personnel Services Program
Educational Leadership, Curriculum and Special Education
College of Education

Location: USA (Jonesboro, Arkansas)

Website: <http://www.astate.edu/info/academics/degrees/details.dot?mid=1d13a176-c446-46fc-bc95-9e3fd0791923>

E-mail: ahux@astate.edu

Mission/program description: The purpose of the M.S. degree in College Student Personnel Services is to train entry level professionals for a broad array of student services positions in higher education. The program has a heavy emphasis on developing skills in the areas of psychology and counseling. The Specialist in Community College Teaching Program provides a sixth-year intermediate degree to prepare teachers and administrators for the community college. The purpose of the Certificate in Student Affairs is to allow individuals currently working in institutions of higher education to upgrade their knowledge and skills related to working with college students.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's
- Certificate

Delivery method:

- Master's: Online (or via distance) only

* Information obtained from institution's website.

Additional Information:

The Master of Science in College Student Personnel Services (CSPS) program is delivered online.

Department of Higher Education and Adult and Lifelong Learning
College of Education and Health Professions

Location: USA (Fayetteville, Arkansas)

Website: <http://hied.uark.edu/>

E-mail: mtmille@uark.edu

Mission/program description: To graduate doctoral and master's degree students who come from diverse backgrounds and who are characterized by their competence and confidence to be effective leaders in the higher education workplace.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Ed.D.

University of Arkansas at Little Rock[†]

Higher Education Administration Program
Department of Educational Leadership
College of Education

Location: USA (Little Rock, Arkansas)

Website: <http://ualr.edu/edleadership/>

E-mail: jakuykendall@ualr.edu

Mission/program description: The mission of the Higher Education Administration Program is to provide a highly personalized experience, focusing on each student's specific needs and aspirations. It provides a thorough grounding in the major areas of knowledge relating to higher education as a field of study, as well as a broad familiarity with the theory, practice, and scholarship of higher education.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Student Affairs or Student Development

Number of faculty: 5

Degrees (Enrollment):

- Master's (15 full-time)
- Ed.D. (7 full-time)

California

Azusa Pacific University (APU)

Higher Education Leadership (Ed.D.), Higher Education (Ph.D.), and College Counseling and Student Development (M.S.)
Department of Higher Education
School of Behavioral and Applied Sciences

Location: USA (Azusa, California)
Website: <http://apu.edu/bas/highered>
E-mail: doctoralhighered@apu.edu

Mission/program description: APU's doctoral programs in higher education emphasize preparing values-driven scholars and leaders to have a positive impact on student learning and social justice in higher education. We strive to be a community of scholars and disciples who make a difference in the world. The Doctor of Education in Higher Education Leadership (Ed.D.) program prepares graduates for leadership roles in colleges and universities, especially in student development, academic support, academic leadership, and administration. The Doctor of Philosophy in Higher Education prepares graduates for positions as faculty, researchers, and academic leaders who are able to conduct original research that contributes to higher education policy and practice, and to interpret and communicate the results.

Focus areas:

- Administration, Management, or Leadership
- Private Higher Education and Privatization
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1999

Number of faculty: 11

Degrees (Enrollment):

- Master's (65 full-time, 10 part-time)
- Ph.D. and Ed.D. (90 full-time, 10 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

California State University, Long Beach[†]

Claremont Graduate University (CGU)*

Education (Higher Education/Student Affairs) Program

School of Educational Studies

Location: USA (Claremont, California)

Website: <http://www.cgu.edu/pages/1574.asp>

E-mail: information@cgu.edu

Mission/program description: The Master of Arts prepares individuals to staff professional entry-level and middle management positions in academic, administrative, institutional, public policy, and student affairs offices of two- and four-year colleges and universities, multi-campus systems, foundations, and government agencies. The Ph.D. program is designed for individuals with a commitment to applying a multidisciplinary view of theory and research. While CGU Education students are as diverse as the programs they design, they are, in general, mature professionals who bring a wealth of personal and professional experience to their studies, as well as a commitment to scholarly endeavors.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's
- Ph.D.

Fielding Graduate University

Educational Leadership for Change Program

School of Educational Leadership for Change

Location: USA (Santa Barbara, California)

Website: <http://www.fielding.edu/programs/education/elc/default.aspx>

E-mail: ktiner@fielding.edu

Mission/program description: The Fielding doctoral program is ideal for working professionals in K-12, higher education, non-profit, and community-based organizations who are seeking to expand their skills, and enhance their career opportunities and personal growth. The program offers a unique blended education model, combining face-to-face and online learning ideal for adults balancing busy lives. Many of our students have work, family, and community responsibilities, and seek a flexible and personalized approach to their education. Fielding faculty are mentors and guide our students through their learning experience.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Qualitative Research Methods

Year established: 1974

Number of faculty: 12

Degrees (Enrollment):

- Master's (35 full-time)
- Ed.D. (125 full-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The Ed.D. offers a flexible schedule for mid-career adults with a dissertation focus and emphasis on social and ecological justice.

San Diego State University[†]

Postsecondary Educational Leadership
Department of Administration, Rehabilitation, and Postsecondary Education
College of Education

Location: USA (San Diego, California)

Website: <http://interwork.sdsu.edu/main/degrees>

E-mail: frank.harris@sdsu.edu

Mission/program description: The Master's of Arts degree in education with a concentration in education leadership and a specialization in postsecondary education is intended for students seeking positions in college and university administration. Graduates of this program are well-prepared to deliver and assess programs and serve students in a range of institutional areas, including enrollment services, financial aid, and training and development. Graduates of this program are also prepared to work as service providers in governmental and non-profit organizations.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Student Affairs or Student Development

Number of faculty: 21

Degrees (Enrollment):

- Master's (55 students)
- Ed.D. (45 students)

Stanford University[†]

Higher Education Program
Social Sciences, Humanities, and Interdisciplinary Policy Studies in Education
Stanford Graduate School of Education

Location: USA (Stanford, California)

Website: <http://ed.stanford.edu>

E-mail: info@suse.stanford.edu

Mission/program description: The doctoral (Ph.D.) program in Higher Education is designed for students pursuing careers as academic faculty, administrators, policy analysts, and educational researchers. Since the Ph.D. is a scholarly degree, the core objective of our program is to prepare professionals to conduct research of exceptional quality. Our program features small courses, hands-on research training, and individualized mentoring. Students enroll full-time and typically complete the program in four to five years. Our curriculum emphasizes the mastery of particular theoretical frameworks and research methods in the social sciences. Each doctoral student obtains a minor in a related discipline or interdisciplinary area; doctoral students often pursue master's degrees in their chosen field concurrently with their coursework for the Ph.D.. Our home in Stanford's

[†] Information courtesy of Association for the Study of Higher Education (ASHE) Annual Program Questionnaire.

Graduate School of Education enables our students to appreciate the myriad connections between higher education and K-12 schooling. Students also make good use of the wider resources available at Stanford, routinely enrolling in courses throughout the University.

Focus areas:

- Law or Public Policy
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's
- Ph.D.

University of California, Los Angeles (UCLA)

Colorado

Colorado State University

Higher Education Leadership (Education and Human Resource Studies) Program
School of Education

Location: USA (Fort Collins, Colorado)

Website: <http://soe.chhs.colostate.edu/students/doctoral/hel/index.aspx>

E-mail: Linda.Kuk@colostate.edu

Mission/program description: The Higher Education Leadership specialization is designed to meet the needs of persons interested in leadership positions within administration at higher education institutions. The program is a hybrid distance program designed to be completed while the student remains employed full-time at an institution of higher education. Students can complete the program in 5 to 6 years and the program is cohort based with admission in the spring of each year.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Globalization or Internationalization
- Qualitative Research Methods
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 2008

Number of faculty: 7

Degrees (Enrollment):

- Ph.D. (45 part-time)

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The program is 60 hours post master's with 30 hours of content and 30 hours of research and includes preliminary exams, a dissertation, and a professional journal article submission. The research is both quantitative and qualitative and students can choose which methodology to apply to their research dissertation.

Colorado State University

Student Affairs in Higher Education
School of Education

Location: USA (Fort Collins, Colorado)
Website: <http://www.sahe.colostate.edu>
E-mail: sahe@colostate.edu

Mission/program description: Colorado State University's Student Affairs in Higher Education (SAHE) Master of Science degree is designed for students seeking careers in student affairs and higher education administration in a college setting. SAHE students combine academic preparation within the field with practical day-to-day knowledge of the operation of a university. All students use the University as a laboratory to gain practical experiences. Students complete a comprehensive portfolio that illustrates growth in multiple professional competency areas. The students complete self assessments which provides students with strategies to enhance their knowledge, skills, and experience as they focus on opportunities for professional development.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization
- Student Affairs or Student Development

Year established: 1968

Number of faculty: 25+

Degrees (Enrollment):

Nova Southeastern University*

Higher Education Leadership Concentration
Fischler School of Education

Location: USA (Fort Lauderdale, Florida)

Website: <http://www.fischlerschool.nova.edu/Ed.D./highereducation>

Mission/program description: The Doctor of Education with a concentration in Higher Education Leadership is designed specifically for practicing and aspiring educators, trainers, and staff developers working with adult learners. This concentration fosters the development of leadership skills to administer higher education programs and institutions through self-reflection, analysis, and best practices used to solve real problems in the workplace through practical application. The program focuses on providing broad knowledge of social, political, and economic forces at work in society, as well as developing leaders that can meet both current and future leadership challenges in higher education.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Ed.D.

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

University of Florida*

Higher Education Administration
College of Education

Location: USA (Gainesville, Florida)

Website: <http://education.ufl.edu/higher-education-administration/>

E-mail: contact-hea@coe.ufl.edu

Mission/program description: The Higher Education Administration program has been established for students aspiring to become community college and university administrators, deans, presidents and professors. America's community colleges and universities will soon face a critical leadership gap. As the baby boom generation approaches retirement age, many provosts, deans and college presidents are getting ready to add "emeritus" to their titles. As a result, openings in top leadership positions are expected to exceed the number of appropriately-trained individuals for many years to come. The University of Florida's College of Education is helping fill the gap. It's nationally recognized Higher Education Administration Program prepares future leaders for their roles in administrative positions in higher education. Our faculty and alumni shaped the community and state college system as we know it, and our graduates have gone on to crucial administrative positions at two- and four- year institutions. Join us in shaping the future of higher education.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Ed.D.
- Ph.D.

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

University of Florida*

Student Personnel in Higher Education
College of Education

Location: USA (Gainesville, Florida)

Website: <http://education.ufl.edu/student-personnel/>

E-mail: dianep@coe.ufl.edu

Mission/program description: The mission of the Student Personnel in Higher Education Master's degree program, in alignment with the University of Florida and College of Education, is to prepare graduate students for successful careers as exemplary student affairs leaders, scholars and practitioners. This is accomplished through a theoretical foundation, practical work experiences, and close collaboration with Division of Student Affairs staff. Students are prepared to contribute to a well-qualified and broadly diverse citizenry, leadership, and workforce in institutions of higher education globally.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's

Delivery method:

- Master's (on-site only)

University of Miami

Higher Education Administration Program (Enrollment Management and Student Life Development Concentrations)
School of Education and Human Development

Location: USA (Coral Gables, Florida)

Website: http://www.education.miami.edu/program/Programs.asp?Program_ID=25&Src=Graduate

E-mail: cphekoo@miami.edu

Mission/program description: Designed to produce highly effective administrators and leaders, the Higher Education Administration Program is based in enrollment management, the only program of its kind in the nation. Enrollment management is an institution-wide approach that uses theory, research, and teamwork to recruit and retain students and support their academic success, psychological development, and personal well-being.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Number of faculty: 5

Degrees (Enrollment):

- Master's (15 full-time, 6 part-time)
- Ed.D. (16 full-time, 9 part-time)
- Certificate

Delivery method:

- Master's: Online (or via distance) only
- Doctoral: On-site only

E-mail: Kathleenking@usf.edu

Mission/program description: The vision of the Higher Education Program is to continue to lead Florida in higher education graduate and doctoral studies. Our mission is to prepare educational administrators and faculty who seek employment or promotion in universities, four-year colleges, community colleges, state agencies, associations, and other settings related to the field of higher education. The Ph.D. in Higher Education has the ability to cover a breadth of expertise across the field. Our faculty experts in leadership, administration, college teaching, faculty development, and student affairs are able to guide students in building an academic background and research experience in their areas of specialty.

Focus areas:

- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- Globalization or Internationalization

Year established: 1998

Number of faculty: 8

Degrees (Enrollment):

- Ph.D. (3 full-time)

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Georgia

Georgia Southern University

Educational Leadership/Higher Education Administration Program
Department of Leadership, Technology, & Human Development
College of Education

Location: USA (Statesboro, Georgia)

Website: <http://coe.georgiasouthern.edu/edld/>

E-mail: gasc@georgiasouthern.edu

Mission/program description: The Educational Leadership/Higher Education Administration program aims to provide a culture of engagement that bridges theory with practice by extending the learning environment beyond the classroom and promoting student growth.

Focus areas:

- Academic Profession
- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1995

Number of faculty: 3

Degrees (Enrollment):

- Master's (40 full-time, 90 part-time)
- Ed.D.

* Information obtained from institution's website.

Delivery method:

- Master's: Online (or via distance) only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

University of Georgia

Institute of Higher Education

Location: USA (Athens, Georgia)

Website: <http://ihe.uga.edu/>

E-mail: ihe@uga.edu

Mission/program description: The Institute of Higher Education is an academic unit of the University of Georgia committed to advancing higher education policy, management, and leadership through research, graduate education, and outreach. The Institute's mission encompasses higher education issues at the campus, state, national, and international levels.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- Law or Public Policy

Year established: 1964

Number of faculty: 10

Degrees (Enrollment):

- Master's (1 full-time, 6 part-time)
- Ph.D. and Ed.D. (30 full-time, 30 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Hawaii

University of Hawaii at Manoa

Educational Administration Program (Higher Education Administration Concentration)

College of Education

Location: USA (Honolulu, Hawaii)

Website: <https://coe.hawaii.edu/academics/educational-administration>

E-mail: rheck@hawaii.edu

Mission/program description: Prepare students for a variety of mid-level administrative leadership positions in postsecondary institutions.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1988

Number of faculty: 3

Degrees (Enrollment):

- Master's (10 full-time, 20 part-time)
- Ph.D. (8 full-time, 16 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Idaho

Idaho State University[†]

Educational Leadership Program (Higher Education Administration Concentration)
College of Education

Location: USA (Pocatello, Idaho)

Website: http://ed.isu.edu/elid/elid_Ed.Dprogram.shtml

E-mail: thomjea2@isu.edu

Mission/program description: The mission of the Higher Education Concentration in the Educational Leadership Program in the College of Education at Idaho State University is to strengthen the State and Nation's higher education systems and provide opportunities for current and future higher education professionals by providing a program of study that equips participants with a broad understanding of professional practice and knowledge of both history and current conditions, while developing skills and dispositions fundamental to successful leadership practice. We assist in the development of knowledgeable, caring, ethical and socially conscious, reflective educational leaders and scholar-practitioners, committed to life-long learning and scholarship, who are able to make significant contributions to the organizations and communities they serve. Our mission is accomplished by consciously through the provision of highly interactive learning opportunities based on a learning bond between faculty and students and of high-quality, research-based, stimulating, and intellectually challenging educational experiences, utilizing available technology, appropriate authentic assessments.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 3

Degrees (Enrollment):

- Ed.D. (2 full-time, 37 part-time)

Illinois

DePaul University*

Counseling (College Student Development) Program
Human Services and Counseling Department
College of Education

Location: USA (Chicago, Illinois)

Website: http://education.depaul.edu/Programs/Graduate/Counseling-Academic_.asp

E-mail: jwhitman@depaul.edu

Mission/program description: Students in the diverse, globally-oriented environment of today's college campuses need the support of committed, knowledgeable student affairs personnel who have a deep understanding of how to assess and promote the growth and development of young adults. Dedicated, principled student affairs personnel interact with college students on a daily basis and make a substantial difference in their lives. The student affairs professional values the co-curricular aspects of student life and creates additional learning opportunities outside the classroom.

Focus areas:

- Student Affairs or Student Development

* Information obtained from institution's website.

† Information courtesy of Association for the Study of Higher Education (ASHE) Annual Program Questionnaire.

Degrees (Enrollment):

- Master's

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

DePaul University*

Public Service Management (Higher Education Administration Concentration)

College of Liberal Arts and Social Sciences

Location: USA (Chicago, Illinois)

Website: <http://las.depaul.edu/sps/Programs/Concentrations/HigherEducationAdministrationC.asp>

E-mail: las@depaul.edu

Mission/program description: For managers in post-secondary institutions of learning, this concentration teaches necessary analytical and administrative skills. The coursework helps students develop an understanding of management principles, policy analysis, and research within higher education. Electives provide opportunities to explore government relations and advancement topics, as well as develop deep competence in administration.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Eastern Illinois University†

College Student Affairs Program

Counseling and College Student Development

College of Education

Location: USA (Charleston, Illinois)

Website: <http://www.eiu.edu/csd>

E-mail: csd@eiu.edu

Mission/program description: The mission of the M.S. in College Student Affairs is to provide a dynamic curriculum for students interested in leadership careers in the field of student affairs in higher education. The program provides a strong foundation for knowledge and skills development needed for effective administration, efficient use of technology, and humanistic support of undergraduate and graduate education. Upon completion of the program, students will be prepared for entry and mid-level student affairs positions in post-secondary public and private education as well as state and federal agencies. Some graduates also pursue additional studies in Ph.D. programs and other terminal degrees.

Focus areas:

- Student Affairs or Student Development

Degrees (Enrollment):

- Master's (39 full-time, 2 part-time)

* Information obtained from institution's website.

† Information courtesy of Association for the Study of Higher Education (ASHE) Annual Program Questionnaire.

Illinois State University

Doctorate in Higher Education Administration

Department of Educational Administration and Foundations

Location: USA (Normal, Illinois)

Website: http://education.illinoisstate.edu/Ed.D._highered/

E-mail: manuraw@ilstu.edu

Mission/program description: The Higher Education Administration Program is designed for higher education faculty, staff, or agency personnel with master's degrees who are pursuing careers in higher education administration or research. The higher education concentration allows experienced educators and administrators to reflect on and advance their knowledge in ways that will further their careers and enhance their ability to make a contribution to higher education.

Focus areas:

- Access and Equity
- Community College, Vocational, or Technical Education
- Economics, Financing, or Funding of Higher Education
- History of Higher Education
- Qualitative Research Methods
- Quantitative Research Methods
- Administration, Management, or Leadership
- Comparative or International Studies
- Globalization or Internationalization
- Law or Public Policy
- Quality Assurance, Assessment, or Accreditation
- Student Affairs or Student Development

Year established: 1970

Number of faculty: 8

Degrees (Enrollment):

- Master's (50 full-time, 10 part-time)
- Ph.D. and Ed.D. (15 full-time, 70 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Kaplan University*

Higher Education Program

School of Graduate Education

Location: USA (Chicago, Illinois)

Website: <http://www.kaplanuniversity.edu/education/higher-education-master-degree.aspx>

E-mail: infoku@kaplan.edu

Mission/program description: The Master of Science in Higher Education program stresses the practical knowledge, critical thinking, research, and writing skills relevant to leaders in today's colleges and universities. Student interested in administration, teaching, student development, or other areas within higher education, have the opportunity to work closely with instructors and other students who share their interests.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Delivery method:

- Master's: Online (or via distance) only

Loyola University Chicago

Center for Comparative Education
School of Education

Location: USA (Chicago, Illinois)

Website: <http://luc.edu/cce>

E-mail: nsobe@luc.edu

Mission/program description: The Center for Comparative Education (CCE) is an interdisciplinary research center dedicated to bringing a global perspective to the study of educational policy and practice.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Globalization or Internationalization

Year established: 2006

Number of faculty: 2

Degrees (Enrollment):

- Master's (25 full-time, 25 part-time)
- Ph.D. (5 full-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Loyola University Chicago

Higher Education Program
School of Education

Location: USA (Chicago, Illinois)

Website: http://www.luc.edu/education/programs/hied-med_main.shtml

E-mail: bkelly4@luc.edu

Mission/program description: The M.Ed. program in higher education prepares professional educators for a wide variety of administrative roles and functions in post-secondary education. Because a graduate program in higher education is an applied field of study, the M.Ed. program emphasizes:

- Theoretical, cultural and historical perspectives regarding students, organizations and higher education;
- Research and assessment skills for higher education; and
- Application of research and theory to professional practice. The program educates socially just and ethically minded educators for the increasingly diverse higher education field.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1969

Number of faculty: 7

Degrees (Enrollment):

- Master's (25 full-time, 10 part-time)
- Ph.D. (4 full-time, 1 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Northwestern University[†]

M.S. in Higher Education Administration and Policy

School of Education and Social Policy

Location: USA (Evanston, Illinois)

Website: <http://www.sesp.northwestern.edu/higher-education/>

E-mail: ms-highered@northwestern.edu

Mission/program description: The Higher Education Administration and Policy Program prepares reflective and dynamic leaders for careers in higher education. Alumni work in colleges and universities, governmental agencies, and consulting firms concerned with higher education. Graduates have careers in fields including student affairs, admissions and enrollment management, financial aid, government and community relations, policy analysis, alumni relations, institutional and policy research, athletics administration, and change management. The curriculum is designed to expose students to the full institutional and social context of the higher education system. The course of study helps students to consider all of the important factors and stakeholders that will impact their professional practice. Experience with a wide range of careers and functions within higher education gives alumni career flexibility and helps them discover what types of positions most closely fit their interests. The programs exceptional internship placements and a distinctive master's research project contribute to high career placement rates for graduates.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's (18 full-time, 42 part-time)

Southern Illinois University

College Student Personnel Program

College of Education and Human Services

Location: USA (Carbondale, Illinois)

Website: <http://ehs.siu.edu/eahe/programs/higher-edu-program/index.php>

E-mail: donahoo@siu.edu

Mission/program description: The College Student Personnel (CSP) Program offers students access to both theoretical foundations and applied experiences in higher education and student affairs. The College Student Personnel concentration prepares students for leadership and administration in community college and university environments serving divisions such as residence life, student development and programming, student centers, admissions and recruitment, student life and activities, orientation and new student services, student discipline and judicial affairs, and academic advising. Program graduates have gone on to successful careers in student affairs administration at public and private institutions across the country and outside of the United States.

Focus areas:

- Qualitative Research Methods
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1958

Number of faculty: 3

Degrees (Enrollment):

- Master's (38 full-time, 1 part-time)
- Ph.D. (5 full-time, 48 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

University of Illinois, Urbana-Champaign

Division of Higher Education

College of Education

Location: USA (Champaign, Illinois)

Website: <http://education.illinois.edu/epol/programs/highered>

E-mail: epol@education.illinois.edu

Mission/program description: The program curriculum is designed to provide graduate students with a theoretical and practical understanding of the social, political, and economic issues encompassing the development and future challenges of higher and postsecondary institutions. Curricular priorities include integrating theory and practice, maintaining strong interdisciplinary areas of study, fostering high quality research, and enhancing leadership development. Students are expected to attain these academic objectives through a set of interrelated core courses that examine relevant conceptual and theoretical developments in history, public policy, diversity, and philosophy.

Focus areas:

- Access and Equity
- Community College, Vocational, or Technical Education
- Law or Public Policy

Year established: 1960

Number of faculty: 10

Degrees (Enrollment):

- Master's (19 full-time, 5 part-time)
- Ph.D. and Ed.D. (10 full-time, 19 part-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Western Illinois University*

College Student Personnel Program

College of Education & Human Services

Location: USA (Macomb, Illinois)

Website: <http://www.wiu.edu/coehs/csp/>

E-mail: CSP@wiu.edu

Mission/program description: The mission of the College Student Personnel program at Western Illinois University is to produce outstanding entry-level student affairs practitioners who possess the knowledge and skills to facilitate the learning and development of students. Preparation is guided by an understanding of college student diversity and the dynamic nature of higher education.

Focus areas:

- Access and Equity
- Quality Assurance, Assessment, or Accreditation
- Student Affairs or Student Development

Year established: 1947

Number of faculty: 11

Degrees (Enrollment):

- Master's (70 full-time, 5 part-time)
- Ph.D. and Ed.D. (45 full-time, 75 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Taylor University

Master of Arts in Higher Education and Student Development (MAHE) Program
School of Sciences, Education, and Business

Location: USA (Upland, Indiana)

Website: <http://www.taylor.edu/academics/graduate/master-higher-education/>

E-mail: mahe@taylor.edu

Mission/program description: The purpose of the MAHE program is to prepare graduates to provide thoughtful and effective service within diverse higher educational settings. MAHE will employ an engaged instructional methodology to teach, model, and promote whole person education and to cultivate change agents who will provide exemplary higher educational service and leadership from a Christian perspective. Taylor University invites students to connect with current research, thinking critically in order to form a personal philosophy of student development that will inspire future work in higher education.

Focus areas:

- Student Affairs or Student Development

Year established: 2007

Number of faculty: 6

Degrees (Enrollment):

- Master's (33 full-time, 1 part-time)

Delivery method:

- Master's: On-site only

Iowa

Iowa State University (ISU)

Higher Education Program

School of Education

Location: USA (Ames, Iowa)

Website: <http://www.education.iastate.edu/graduate/higher-education/>

E-mail: rreason@iastate.edu

Mission/program description: The ISU School of Education offers a Doctor of Philosophy (Ph.D.) degree in Education (higher education emphasis) designed to prepare mid- to senior-level administrators to be leaders in their respective educational settings by combining theory and practice of effective leadership. ISU also offers a master's degree program with a specialization in higher education.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Student Affairs or Student Development

Number of faculty: 12

Degrees (Enrollment):

- Master's (60 full-time, 20 part-time)
- Ph.D. (10 full-time, 30 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: Students can emphasize the study of higher education administration (broadly defined) or community college leadership.

The University of Iowa[†]

Higher Education and Student Affairs Program (HESA)

Educational Policy and Leadership Studies

College of Education

- Master's
- Other

Delivery method:

- Master's: Online (or via distance) only

Additional Information: For the Master's program, most students are part-time and go through the program at differing paces. Morehead State University offers the Ed.S. (Educational Specialist) degree, which falls between the MA and Ed.D.

University of Kentucky

Department of Educational Policy Studies & Evaluation
College of Education

Location: USA (Lexington, Kentucky)

Website: <http://education.uky.edu/EPE/>

E-mail: bethg@uky.edu

Mission/program description: As an interdisciplinary department, historical, socio-cultural, organizational, and comparative/international perspectives inform the study and evaluation of local, national, and global educational trends and issues. The program's strong tradition of field studies emphasizes ethnographic, historical, and context-based research. The Department of Educational Policy Studies and Evaluation also offers advanced educational statistics, measurement, and evaluation techniques. MS, Ed.D., and Ph.D. programs in Higher Education prepare students to address consequential issues in post-secondary education as scholarly practitioners and researchers. The Graduate Certificate in International Education prepares higher education professionals for international services careers. Faculty research focuses on international/comparative higher education, popular culture, diversity, faculty development, athletics, and student transitions.

Focus areas:

- Access and Equity
- Comparative or International Studies
- History of Higher Education

Year established: 1970

Number of faculty: 8

Degrees (Enrollment):

- Master's
- Ph.D. and Ed.D.
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

University of Louisville*

Higher Education Program
College of Education and Human Development

Location: USA (Louisville, Kentucky)

Website: <http://louisville.edu/education/degrees/ma-he>

E-mail: aaron.phillips@louisville.edu

* Information obtained from institution's website.

Mission/program description: The Higher Education Program, which includes online options, is designed for students who wish to qualify for college administrative positions, and for students who work full-time in a university setting and take classes part-time. Students may also take classes full-time.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 3

Degrees (Enrollment):

- Master's

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

University of Louisville*

College Student Personnel Program

College of Education and Human Development

Location: USA (Louisville, Kentucky)

Website: <http://louisville.edu/education/degrees/graduate>

E-mail: ecpyinfo@louisville.edu

Mission/program description: The College Student Personnel Program is designed to prepare prospective professionals for positions in student affairs administration in institutions of higher education. Theory and practice are critically important components of the program, all of which share a common focus—preparation of professionals knowledgeable about adult student development and administration in college student personnel settings. Students are required to pursue a logical sequence of study that permits a well-balanced preparation in theory, research, and field experiences in students affairs practice. This includes knowledge of current roles and functions of college student personnel professionals as well as historical perspective of the field's development.

Focus areas:

- Student Affairs or Student Development

Number of faculty: 6

Degrees (Enrollment):

- Master's
- Ph.D.

Western Kentucky University

Student Affairs Program

Department of Counseling and Student Affairs

Location: USA (Bowling Green, Kentucky)

Website: <http://www.wku.edu/csa/sa/index.php>

Mission/program description: The Master of Arts in Education degree in Student Affairs is designed to prepare students to obtain entry and mid-level student affairs professional positions. Through a theory-based yet applications-oriented program, students gain necessary skills and competencies to succeed in a variety of student affairs units and postsecondary settings. The Counseling and Student Affairs faculty comprised of academics and practitioners cultivate active partnerships with student affairs professionals to provide a living learning laboratory for student professional development. Program content covers three broad areas: theoretical foundations, professional practice, and administrative effectiveness. Individual students are also provided with opportunities to focus on specific content areas which may be of particular interest.

Focus areas:

- Globalization or Internationalization
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Degrees (Enrollment):

- Master's
- Certificate

Delivery method:

- Master's: On-site only

Additional Information: Western Kentucky University also offers a Graduate Certificate Program in International Student Services. The Certificate in International Student Services offers graduate-level students preparation to manage educational exchange, lead campus internationalization, and provide international student services. Students pursuing the Certificate in International Student Services may complete the certificate program by itself or along with the master's in Student Affairs. Successful graduates will have earned their certificate through theory-based instruction, application of material through internship, and an international experience.

Louisiana

Louisiana State University

Higher Education Program

School of Education

Location: USA (Baton Rouge, Louisiana)

Website: <http://lsu.edu/highered>

E-mail: bbourke@lsu.edu

Mission/program description: The Higher Education Program prepares educational leaders for key positions in colleges and universities as administrators, educators, and scholars. Through an examination of higher education theory and practice, the program seeks to help students understand the diverse nature of higher education institutions and their participants. With this understanding, graduates are expected to develop reflective, individualized styles of leadership that encompass educational excellence, contextualized practices, and respect for others.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1995

Number of faculty: 5

Degrees (Enrollment):

- Master's (30 full-time, 2 part-time)
- Ph.D. (20 full-time, 30 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Northwestern State University[†]

Student Affairs in Higher Education Program
Educational Technology Leadership Program
Gallaspay College of Education and Human Development

Location: USA (Natchitoches, Louisiana)
Website: <http://delt.nsula.edu/student-affairs-in-higher-education/>
E-mail: pichonh@nsula.edu

Mission/program description: The Northwestern State University programs reaffirm and expand the State's commitment to developing a stronger and more effective postsecondary education system in support of Louisiana's economy. The continuing attention to access is joined with a strong emphasis on success, guiding students from freshman enrollment through to completion. They address the challenge to provide what the State, its communities, its businesses, and its residents need: more college-educated men and women who are prepared to contribute to the economy, culture, and general societal well-being of Louisiana.

Focus areas:

- Student Affairs or Student Development

Degrees (Enrollment):

- Master's (30 full-time, 3 part-time)

The University of New Orleans*

Doctoral Degree (Ph.D.) in Educational Administration - Higher Education Concentration
Department Educational Leadership, Counseling, and Foundations
College of Education & Human Development

Location: USA (New Orleans, Louisiana)
Website: <http://www.uno.edu/coehd/AdvancedPrograms/educational-leadership-counseling-foundations/Ph.D.EDAD.aspx>
E-mail: aohanlon@uno.edu

Mission/program description: The higher education concentration integrates theory and research in order to develop scholars of administration, research, and teaching who aspire to broaden understanding of higher education. Knowledge developed through faculty guidance in the program will give students the background to inform policy and practice through scholarly research and its application.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Ph.D.

Maine

† Information courtesy of Association for the Study of Higher Education (ASHE) Annual Program Questionnaire.

Mission/program description: The University of Maine's graduate programs in Higher Education advance the student-centered knowledge, values, and skills essential for effective programmatic and institutional leadership in today's colleges and universities.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 3

Degrees (Enrollment):

- Master's
- Ph.D.

University of Southern Maine

M.S. in Adult and Higher Education

Location: USA (Gorham, Maine)

Website: <http://usm.maine.edu/adult-education>

E-mail: mbrady@usm.maine.edu

Mission/program description: The Adult and Higher Education Program prepares professionals to work with adult learners for careers in four different sectors: public schools, corporations, community non-profit agencies, and institutions of higher education.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1972

Number of faculty: 1

Degrees (Enrollment):

- Master's (60 part-time)

Delivery method:

- Master's: Online (or via distance) only

Maryland

Morgan State University*

Higher Education Program

Department of Advanced Studies Leadership & Policy

School of Education and Urban Studies

Location: USA (Baltimore, Maryland)

Website: http://www.morgan.edu/school_of_education_and_urban_studies/departments/advanced_studies_leadership_and_policy/degreesmajors.html

E-mail: benjamin.welsh@morgan.edu

Mission/program description: The Ph.D. Program in Higher Education at Morgan State University is a research doctorate in higher education as a field of study, which is designed for those persons whose interests are primarily related to high quality professional preparation to pursue careers in which research and other scholarly skills are absolutely essential. As a competency-based program that focuses more on learning than the mere accumulation of credits, the Ph.D. in Higher Education Program has as its broad mission the preparation of professors, scholars, policy analysts, and administrators who can assume leadership roles in either the public or private sector.

* Information obtained from institution's website.

The master's program provides advanced preparation and enhances career opportunities for qualified persons. It helps to create greater diversity of learning experiences and expands opportunities for scholarship and research while allowing for greater economy of scale in program administration.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's
- Ph.D.

University of Maryland*

Higher Education Concentration

Higher Education, Student Affairs, International Education Policy Program

Counseling, Higher Education, Special Education Department

Location: USA (College Park, Maryland)

Website: <http://www.education.umd.edu/CHSE/academics/specialization/HE.html>

E-mail: mtitus@umd.edu

Mission/program description: The University of Maryland nationally recognized graduate program in Higher Education prepares students for leadership positions in higher education administration, policy analysis, and scholarship. Students select a primary and secondary field of specialization from among the following: governance and leadership; academic management; law, federal and state policy; and curriculum and teaching. In conjunction with their faculty advisor, students can design an area of specialization to meet their individual needs.

Focus areas:

- Administration, Management, or Leadership
- Curriculum & Instruction or Teaching & Learning
- Law or Public Policy

Degrees (Enrollment):

- Master's
- Ph.D.

University of Maryland

Student Affairs Concentration

Higher Education, Student Affairs, International Education Policy Program

Counseling, Higher Education, Special Education Department

Location: USA (College Park, Maryland)

Website: <http://www.education.umd.edu/CHSE/academics/specialization/StudentAffairs1.html>

E-mail: SAgard-GA@umd.edu

Mission/program description: The Student Affairs program is committed to the professional preparation of administrators and student development educators in higher education environments. The program is modeled and directed by the core values of student development, multiculturalism, leadership, scholarship and research, and ethical practices.

Focus areas:

- Access and Equity
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1959

Number of faculty: 3

Degrees (Enrollment):

- Master's (18 full-time)
- Ph.D. (9 full-time, 8 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Massachusetts

Bay Path College

Master of Science in Higher Education Administration Program
School of Management and Social Justice

Location: USA (Longmeadow, Massachusetts)

Website: <http://graduate.baypath.edu/graduate-programs/programs-online/ms-programs/higher-education-administration>

E-mail: lway@baypath.edu

Mission/program description: Bay Path College's Master of Science in Higher Education Administration Program prepares students to be leaders and innovators in the rapidly changing field of higher education administration. Four program concentrations allow students to focus on preparation for leadership in a variety of roles that are critical to advancing our nation's colleges and universities and meeting the challenges of global, demographic, and technological change. Housed in the college's School of Management and Social Justice, this degree encourages students to explore the intersection of data-driven decision making and compassionate leadership, to develop new solutions to the educational challenges that lie ahead.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 9

Degrees (Enrollment):

- Master's (10 full-time, 60 part-time)

Delivery method:

- Master's: Online (or via distance) only

Boston College

Higher Education Program
Educational Leadership & Higher Education Department
Lynch School of Education

Location: USA (Chestnut Hill, Massachusetts)

Website: <http://www.bc.edu/content/bc/schools/lsoe/academics/departments/eahe.html>

E-mail: alemanan@bc.edu

Mission/program description: The Boston College approach to the study of higher education and the preparation of professionals in the field includes three basic elements. The first is an understanding of the important issues relating to post-secondary institutions—including insights from history, sociology, philosophy, psychology, economics, and political science. The second is exposure to the theoretical and empirical knowledge base of administration, and the managerial and policy-making issues facing higher education. The third focus is on an applied administrative experience that will expose professionals to a range of practical issues in higher education. For master's students, this is in the form of a supervised field experience, and for doctoral students it is in the form of research or administrative assistantship experiences. Our commitment is to link analysis with action, to combine understanding with the techniques needed to solve the complex problems of higher education. Underlying

the curriculum is a concern for values—for understanding the basic nature of the academic enterprise and applying social and moral values to the management of higher education and ethical decision making.

Focus areas:

- Access and Equity
- Comparative or International Studies
- Law or Public Policy
- Administration, Management, or Leadership
- Globalization or Internationalization
- Student Affairs or Student Development

Year established: 1968

Number of faculty: 6

Degrees (Enrollment):

- Master's (65 full-time, 29 part-time)
- Ph.D. (15 full-time, 14 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Boston University*

Higher Education Administration Specialization
Policy, Planning & Administration Program
School of Education

Location: USA (Boston, Massachusetts)

Website: <http://www.bu.edu/sed/academics/graduate/edm/ppa/>

E-mail: jhscott@bu.edu

Mission/program description: Higher Education Administration is a specialization within the Policy, Planning & Administration Program. The specialization is designed to give students a broad foundation in education at all levels as well as insight into the background, prospects, and social/personnel functions of higher education. Alumni of this program go on to careers in student life, financial aid, admissions, career services, and many other administrative functions within institutions of higher education.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Harvard University

Higher Education Program
Graduate School of Education

Location: USA (Cambridge, Massachusetts)

Website: <http://gse.harvard.edu>

E-mail: gseadmissions@harvard.edu

Mission/program description: The Higher Education Program prepares students who wish to better understand and influence the course of American higher education. Examining historical and contemporary issues in higher education, the curriculum focuses on leadership, administration, and governance; policymaking and decision making; planning and finance; and diversity. Graduates assume leadership positions as researchers, faculty members, administrators, and policy analysts in colleges and universities, research institutes, and state and federal organizations.

Focus areas:

- Administration, Management, or Leadership
- Economics, Financing, or Funding of Higher Education
- History of Higher Education

Number of faculty: 9

Degrees (Enrollment):

- Master's (35 full-time, 8 part-time)
- Ph.D. (6 full-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Merrimack College[‡]

Higher Education Program
School of Education

Location: USA (North Andover, Massachusetts)

Website: http://www.merrimack.edu/academics/graduate/education/med_higher_education/

E-mail: marines@merrimack.edu

Mission/program description: The Master's in Higher Education (M.Ed.) Program prepares students to be administrative leaders in colleges and universities, working with students in a variety of roles supporting the advancement of higher education. The curriculum focuses on learning and development of college students, college access, equity and diversity, and organizational development. Students will gain a broad understanding of current trends, leadership challenges, and opportunities to advance social justice in higher education

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's (35 full-time, 12 part-time)

Northeastern University*

College Student Development and Counseling Program
Counseling & Applied Educational Psychology Department
Bouvé College of Health Sciences

Location: USA (Boston, Massachusetts)

Website: <http://www.northeastern.edu/bouve/caep/programs/csdc.html>

E-mail: v.johnson@neu.edu

Mission/program description: The College Student Development and Counseling Program at Northeastern University aims to create mindful, action-oriented leaders, specifically in the field of higher education and student affairs. It is the goal of the program to focus on counseling, college student development, the history and philosophy of the student affairs profession, and the organization and administration of the field. The program will provide emerging professionals with the academic and experiential background that will allow them to be able to design, create, and administer student personnel programs that teach leadership, foster development, value diversity, and compliment the academic experience of college students.

University of Massachusetts Amherst

Higher Education Concentration
Department of Educational Policy, Research, and Administration
College of Education

Location: USA (Amherst, Massachusetts)

Website: <http://www.umass.edu/education/departments/epra/higher-education>

Mission/program description: The Higher Education concentration is designed for individuals interested in pursuing careers in academic affairs and student affairs as administrators, faculty, researchers, and policy analysts in colleges, universities, and state and federal agencies. The master's degree with a concentration in Higher Education is the equivalent of a two-year full-time program aimed at preparing students with the knowledge competencies, skills, and ethics necessary to be leaders in higher education in the 21st century.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Student Affairs or Student Development

Number of faculty: 6

Degrees (Enrollment):

- Master's (35 full-time, 10 part-time)
- Ed.D. (15 full-time, 30 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

University of Massachusetts Boston[†]

Higher Education Administration Program
Department of Leadership in Education
College of Education and Human Development

Location: USA (Boston, Massachusetts)
Website: <http://www.umb.edu/academics/cehd/leadership>
E-mail: highereducation@umb.edu

Mission/program description: The Higher Education Administration Program is distinguished by five defining characteristics:

- It is committed to fostering organizational change, and to preparing administrators and educational leaders to make significant improvements in colleges and universities.
- It is designed on the cohort model, in which students who enter at the same time take courses and do field work together—a model that fosters collaborative approaches to learning, decision-making, and problem-solving.
- It is focused on the opportunities, challenges, and concerns that characterize urban higher education.
- It is designed to serve experienced, working practitioners who are committed to expanding and strengthening their capacities for leadership.
- It is intended to serve as a means by which increased numbers of women and members of minority groups may become educational leaders.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 6

Degrees (Enrollment):

- Ed.D. (64 students)

Michigan

Andrews University^{*}

Higher Education Administration Program
School of Graduate Studies & Research

Location: USA (Berrien Springs, Michigan)
Website: <http://www.andrews.edu/grad/programs/higher-educational-administration-distance-learning.html>
E-mail: graduate@andrews.edu

Mission/program description: Higher Education Administration Program students at the master level typically work in administrative and executive positions of student services such as enrollment, admissions, financial services, athletics, and residential life. At the doctoral level, the program serves students who wish to pursue careers and academic positions in teaching and research in colleges and universities, as well as corporate training or policy making positions at the private and state level. The curriculum has an international focus that includes visiting international universities to interact with faculty and students of institutions in different countries around the world.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Ph.D. and Ed.D.

Delivery method:

- Master's: Online (or via distance) only
- Doctoral: Online (or via distance) only

E-mail: aheiselt@colled.msstate.edu

Mission/program description: The Master of Science (M.S.) with an emphasis in Student Affairs provides a broad base on which students may build and advance their careers within higher education. Courses in the program address issues for student affairs administrators including assessment and college student development. The program can be completed as a full-time student in two academic years (9 credits/academic semester). Full-time students will commence coursework in the fall of the academic year.

* Information obtained from institution's website.

Focus areas:

- Student Affairs or Student Development

Degrees (Enrollment):

- Master's

The University of Mississippi

Higher Education and Student Personnel Program

School of Education

Location: USA (Oxford, Mississippi)

Website: http://education.olemiss.edu/academics/programs/higher_ed_ma.html

E-mail: holleman@olemiss.edu

Mission/program description: The Master of Arts in Higher Education and Student Personnel is a 42 hour program examining the various aspects of higher education administration. The program fosters a strong theoretical understanding of the underpinnings of college and university function, including the functions around student life. This program also provides professional preparation through practicum and graduate assistantship opportunities for those seeking full-time enrollment. The program is designed for those who seek to work at a college or university in different administrative roles such as financial aid, housing, or other areas of postsecondary education.

Degrees (Enrollment):

- Master's
- Ph.D.

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The University of Mississippi also has a part-time online only program: http://education.olemiss.edu/academics/programs/higher_ed_online_ma.html

University of Southern Mississippi[†]

Higher Education Administration Program

Department of Educational Studies and Research

Education and Psychology

Location: USA (Hattiesburg, Mississippi)

Website: <https://www.usm.edu/higher-education-research-statistics>

E-mail: lilian.hill@usm.edu

Mission/program description: The mission of the Ed.D./Ph.D. Higher Education Administration Program within the Department of Educational Studies and Research provides options for individuals interested in both administrative and faculty/research roles within post-secondary institutions. The program emphasizes the acquisition of skills and knowledge needed to perform effectively in various positions in higher education. Students seeking academic careers, e.g., scholarly study of higher education, university teaching, and policy analysis, are encouraged to take the Ph.D. track. Students seeking administrative positions, e.g., student affairs, institutional research and effectiveness, continuing education, and others, are encouraged to take the Ed.D. track. The program provides a foundation for graduates to generate new knowledge about post-secondary education and lead their organizations through visionary planning, strategic utilization of resources, effective motivation of employees, and practical application of research.

The mission for M.Ed. in Higher Education with emphasis in Student Affairs is to provide entry-level professionals with the essential knowledge, skills, values, and attitudes necessary for practice in higher education/student affairs. Graduates of the

program are prepared to work as student development educators and administrators in a higher education setting. The Student Affairs Administration emphasis places a priority on professional education that integrates academic course work with mentorship and practicum experiences in the field of student affairs.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's (15 full-time, 12 part-time)
- Ph.D. and Ed.D. (10 full-time, 71 part-time)

New York

Baruch College (City University of New York)

Higher Education Administration Program

School of Public Affairs

Location: USA (New York, New York)

Website: <http://www.baruch.cuny.edu/spa/academics/graduatedegrees/highereducationadmin.php>

E-mail: jeffrey.apfel@baruch.cuny.edu

Mission/program description: The Higher Education Administration Program prepares professionals for administrative leadership and supervisory positions in the administration of colleges and universities. The flexible curriculum emphasizes higher education

management, personnel management, and information systems with the primary focus on the improved performance of the practitioner. The courses provide the knowledge base needed to understand the history and operation of colleges and universities in this country, and develop effective management, interpersonal and problem-solving skills, and advanced technological skills.

Focus areas:

- Administration, Management, or Leadership

Year established: 1993

Number of faculty: 8

Degrees (Enrollment):

- Master's (20 full-time, 100 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Canisius College*

College Student Personnel Administration Program
Graduate Education & Leadership Department
School of Education and Human Services

Location: USA (Buffalo, New York)

Website: <http://www.canisius.edu/cspa>

E-mail: estaneks@canisius.edu

Mission/program description: The master's program in College Student Personnel Administration (CSPA) at Canisius College prepares student affairs practitioners to work in all sectors of higher education administration while emphasizing the unique context of private, independent colleges and universities. The CSPA program combines the in-class education of graduate coursework with the experiential learning of required internships to achieve its mission. Graduate assistantships are also available, which provide additional experience. Graduates of the College Student Personnel Administration master's degree program will:

- Be prepared to enter the student affairs profession as practitioners in multiple administrative sub-fields (residence life, student activities, career services, etc.);
- Be able to use the foundations of theory and practical experience to make sound and ethical professional decisions;
- Be prepared to participate as professionals in the education of the whole student, consistent with the Jesuit value of cura personalis ("care for the person"), regardless of the institutional context of their work; and
- Understand the value of contributing to their profession through participation in professional associations, and through activities such as presentations and publications and serving in leadership positions.

Focus areas:

- Student Affairs or Student Development

Degrees (Enrollment):

- Master's (56 full-time, 3 part-time)

- Master's

Columbia University[†]

Higher and Postsecondary Education Program
Organization and Leadership Department
Teachers College

Location: USA (New York, New York)

Website: <http://www.tc.columbia.edu/O&L/>

E-mail: org&leadership@tc.edu

Mission/program description: The Program in Higher and Postsecondary Education prepares educators and leaders for administrative and academic positions in a broad range of postsecondary educational institutions. The mission is two-fold. First, the program prepares scholar-practitioners who create and implement cutting-edge policy based upon enhanced skills as professional educators, researchers, and theory-builders. Second, it develops a smaller number of researcher-theorists who prepare professionals in the field of higher education. Further, the Higher and Postsecondary Education Program strives to create knowledge, knowledgeable practitioners, and practicing scholars concerned broadly with teaching, learning, and scholarly and professional development; organizational and institutional analysis, including abilities to probe and develop the structures, processes, policies, and technologies that comprise colleges, universities, and state and national systems of tertiary education; and social and comparative perspectives, with attention to the social, cultural, economic, and historic contexts of knowledge production, policy, and institutional development.

Focus areas:

- Administration, Management, or Leadership

Year established: 1913

Number of faculty: 11

Degrees (Enrollment):

- Master's (22 full-time, 90 part-time)
- Ed.D. (4 full-time, 14 part-time)

North Carolina

Appalachian State University[†]

College Student Development Program

Human Development and Psychological Counseling Department

Location: USA (Boone, North Carolina)

Website: <http://csd.appstate.edu/>

E-mail: clarkcr@appstate.edu

Mission/program description: The graduate program in College Student Development sets as its primary mission the development of knowledgeable and skilled professionals for positions of responsibility as practitioners in student affairs or in a related helping profession. An emphasis is placed on mastering the concepts of human development and examining the implications of this knowledge base for the design of educationally appropriate practice.

Focus areas:

- Student Affairs or Student Development

Degrees (Enrollment):

- Master's (36 full-time)

North Carolina State University

Higher Education Administration & Adult and Community College Education Program

Department of Leadership, Policy, and Adult & Higher Education

Location: USA (Raleigh, North Carolina)

Website: <http://ced.ncsu.edu/lpahe>

E-mail: higher_ed@ncsu.edu

Mission/program description: North Carolina's State University's program provides exceptional opportunities for students interested in higher education administration or adult and community college education to explore a core body of knowledge, gain real-world professional experience, and pursue advanced study. Program content is informed by relevant theory, scholarly research, and best practice in the field. Individuals completing a master's or doctoral program of study will develop the expertise required for entry or advancement in: colleges and universities, governmental agencies, and public service organizations.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Quality Assurance, Assessment, or Accreditation

Year established: 1982

Number of faculty: 15

Degrees (Enrollment):

- Master's (44 full-time, 21 part-time)
- Ph.D. and Ed.D. (18 full-time, 125 part-time)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional Information: A major feature of this program is the ongoing professional socialization that occurs in conjunction with coursework and research. It includes opportunities for students to participate and present at major scholarly and professional conferences; co-author with faculty members; and gain consulting experience within and outside of the university. In addition, many of the program's doctoral students are fully funded through assistantships that enable them to integrate theory and practice and perform as early career researchers and professionals.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1963

Number of faculty: 8

Degrees (Enrollment):

- Master's (75 full-time, 1 part-time)
- Ph.D. (18 full-time, 25 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Kent State University

Higher Education Administration and Student Personnel Program
Education, Health, and Human Services Department

Location: USA (Kent, Ohio)

Website: <http://www.kent.edu/ehhs/hied/index.cfm>

E-mail: mmerril@kent.edu

Mission/program description: The Higher Education Administration (HIED) program prepares students for careers as highly effective higher education administrators and staff professionals. The coursework prepares students for the varied challenges facing two-year, four-year, and graduate institutions today and in the future.

Focus areas:

- Administration, Management, or Leadership
- Globalization or Internationalization
- Student Affairs or Student Development
- Community College, Vocational, or Technical Education
- Quality Assurance, Assessment, or Accreditation

Year established: 2005

Number of faculty: 5

Degrees (Enrollment):

- Master's (72 students)
- Ph.D. (33 students)
- Certificate

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Additional Information: Kent State also offers a certificate in the Internationalization of Higher Education to prepare students for a wide variety of positions within international higher education such as international student advising, study abroad, and international admissions among others.

Miami University

Student Affairs in Higher Education Program
College of Education, Health, and Society

Location: USA (Oxford, Ohio)
Website: <http://miamioh.edu/sahe>
E-mail: sahe@miamioh.edu

Mission/program description: The Miami Student Affairs in Higher Education program operates on the assumption that student learning is a complex phenomenon in which dimensions of students' intellectual, identity, and interpersonal development are interdependent. Intellectual growth can and does occur in students' out-of-class interactions. The program's view of an effective educational environment involves academic and student affairs educators working as partners to educate students. In order to foster such educational environments, it prepares graduates to effectively transform higher education and student affairs practice to promote learning, intercultural maturity, self-authorship, and social engagement.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1962

Number of faculty: 6

Degrees (Enrollment):

- Master's (48 full-time, 2 part-time)
- Ph.D. (9 full-time, 9 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

The Ohio State University

Higher Education and Student Affairs Program
College of Education and Human Ecology

Location: USA (Columbus, Ohio)
Website: <http://ehe.osu.edu/educational-studies/hesa/>
E-mail: spa@osu.edu

Mission/program description: For 65 years, the Higher Education and Student Affairs (HESA) Program at The Ohio State University has prepared leaders in higher education and student affairs throughout the nation and the world. HESA enjoys a long and prestigious tradition of cultivating individuals for leadership as administrators, faculty, and policy-makers in post-secondary education and diverse cultural contexts.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1948

Number of faculty: 6

Degrees (Enrollment):

- Master's (50 full-time, 4 part-time)
- Ph.D. (20 full-time, 10 part-time)

Delivery method:

- Master's: On-site only
- Doctoral: On-site only

Ohio University*

Higher Education and Student Affairs Programs
Department of Counseling and Higher Education
Patton College of Education

Location: USA (Athens, Ohio)

Website: <http://www.ohio.edu/education/academic-programs/counseling-and-higher-education/>

Mission/program description: The area of higher education and student affairs consists of graduate programs in college student personnel and higher education administration. The primary mission of this area is to prepare people for leadership roles in colleges, universities and other agencies devoted to adult learning. Adult learning occurs not only in traditional institutions of higher education, but also in business and industry, social and government agencies, the military and health care organizations.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's
- Ph.D.

The University of Akron*

Higher Education Administration Program
Department of Educational Foundations and Leadership

Location: USA (Akron, Ohio)

Website: <http://www.uakron.edu/education/academic-programs/EFL/programs/higher-ed/index.dot>

E-mail: skruse@uakron.edu

Mission/program description: The Higher Education Administration Program mission is to prepare college and university leaders to shape organizational goals, influence the character of educational programs and to affect institutional performance. Professional management skills are developed as they relate to larger issues of educational mission and purpose. Coursework includes educational foundations, administration, curriculum, student development, history, law, student services, finance, and clinical inquiry and experiences as a means to enhance educational leader performance.

Focus areas:

- Administration, Management, or Leadership

Number of faculty: 3

Degrees (Enrollment):

- Master's
- Certificate

* Information obtained from institution's website.

University of Dayton

Ph.D. in Educational Administration, Higher Education Concentration
School of Education and Health Sciences

Location: USA (Dayton, Ohio)

Website: http://www.udayton.edu/education/learn/graduate/major_educational_leadership_Ph.D..php

E-mail: mwelkener1@udayton.edu

Mission/program description: The Doctor of Philosophy in Educational Leadership Program (higher education concentration) is designed for educators who are committed to providing leadership at the collegiate level. The program seeks to prepare scholar-practitioners and leaders who:

- Value both speculative and practical knowledge and engage in continuous inquiry on professional concerns;
- Deliberate with colleagues upon organizational purposes and the means for achieving them;
- Work selflessly with others; and
- Commit themselves to improving the quality of life within society.

Focus areas:

- Administration, Management, or Leadership

Year established: 1990

Number of faculty: 11

Degrees (Enrollment):

- Ph.D. (5 full-time, 5 part-time)

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information:

The administration, faculty, and staff take a Catholic and Marianist approach to education that:

- Maintains an environment of intellectual, social, spiritual and emotional growth;
- Models reflective practitioner behavior;
- Engages students in inquiry on the major issues and challenges confronting the profession;
- Supports foundational research efforts that have implications for social policy;
- Maintains rigorous academic standards;
- Provides quality classroom instruction;
- Provides and maintains a spirit of equity in program conduct; and
- Conducts interpersonal interactions with integrity and justice.

- Master's (30 students)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

University of Oklahoma

Adult and Higher Education Program

Department of Educational Leadership & Policy Studies

Location: USA (Norman, Oklahoma)

Website: <http://www.ou.edu/education/elps/graduate-programs>

E-mail: edah@ou.edu

Mission/program description: The Adult and Higher Education (EDAH) Program is an interdisciplinary degree specifically designed to address significant post-secondary issues facing the globe, nation, and society. The program seeks to understand how adult learners learn, how professionals develop themselves, the concept of leadership, and the ways to develop the necessary skills and understanding to become effective leaders in a variety of organizational settings.

Focus areas:

- | | |
|---|---|
| ■ Academic Profession | ■ Access and Equity |
| ■ Administration, Management, or Leadership | ■ Community College, Vocational, or Technical Education |
| ■ Curriculum & Instruction or Teaching & Learning | ■ Economics, Financing, or Funding of Higher Education |
| ■ History of Higher Education | ■ Law or Public Policy |
| ■ Quality Assurance, Assessment, or Accreditation | ■ Student Affairs or Student Development |
| ■ Student and Scholar Mobility | ■ Student Identity, Diversity, or Multiculturalism
(e.g., gender, race, minority groups) |

Year established: 1989

Number of faculty: 13

Degrees (Enrollment):

- Master's (144 full-time, 20 part-time)
- Ph.D. (8 full-time, 20 part-time)
- Other

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The Intercollegiate Athletics Administration concentration within the Adult and Higher Education Program is one of its kind and has become a destination program nationally.

Oregon

Oregon State University*

College Student Services Administration Program
College of Education

Location: USA (Corvallis, Oregon)
Website: <http://education.oregonstate.edu>
E-mail: askcoed@oregonstate.edu

Mission/program description: The program's primary mission is to prepare individuals for professional administrative positions in student services departments at two- and four-year colleges and universities. The curriculum emphasizes administrative leadership and management of programs and services. Included in these programs and services are: residence halls and student housing; enrollment management (admissions, orientation, and financial aid); career services; college unions; student and co-curricular activities; recreational sports; international programs; individual and group advising; general student affairs/services; and other student and academic support programs.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1966

Degrees (Enrollment):

- Master's

Oregon State University*

Community College Leadership Program
College of Education

Location: USA (Corvallis, Oregon)
Website: <http://education.oregonstate.edu/community-college-leadership>
E-mail: askcoed@oregonstate.edu

Mission/program description: The Community College Leadership Program (CCLP) prepares faculty and administrators for leadership roles in technical and community colleges and similar organizations. The CCLP focus is on the application of quality research to the problems and opportunities in community colleges.

Focus areas:

- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education

Degrees (Enrollment):

- Ed.D.

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: In the first two years, students meet two weekends per term in the fall, winter and spring. In the summer, students have a one-week intensive course at a convenient location in Oregon. After the first two years, students are enrolled in "instructional research" courses each term to complete their thesis work until graduation. No face-to-face course meetings are required after the first two years.

Oregon State University

Master's in Adult Education (EdM)

College of Education

Location: USA (Corvallis, Oregon)

Website: <http://education.oregonstate.edu/adult-education-masters-degree-program>

E-mail: shelley.dubkin-lee@oregonstate.edu

Mission/program description: The mission of the Master's in Adult Education Program is to prepare students to educate adults in various settings and in a variety of modalities.

Focus areas:

- Academic Profession
- Curriculum & Instruction or Teaching & Learning

Year established: 1999

Number of faculty: 7

Degrees (Enrollment):

- Master's (28 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Portland State University

Postsecondary, Adult, and Continuing Education Program

Graduate School of Education

Location: USA (Portland, Oregon)

Website: <http://www.pdx.edu/elp/postsecondary-adult-and-continuing-education-pace-specialization>

E-mail: elpadmit@pdx.edu

Mission/program description: The mission of Portland State University's program is to develop adult educators who are able to anticipate and respond to the changing developmental issues of diverse adult learners, organizations, and communities.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Number of faculty: 8

Degrees (Enrollment):

- Master's (30 full-time, 70 part-time)
- Ed.D. (5 students)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The doctoral program is at the School level (Graduate School of Education). Approximately 5 students are on the "postsecondary" track; admitted as a cohort every 2 years.

Pennsylvania

Drexel University

M.S. in Higher Education

Location: USA (Philadelphia, Pennsylvania)

Website: <http://drexel.edu/soe/academics/graduate/higher-education/overview/>

Mission/program description: Drexel's M.S. in Higher Education offers an invaluable credential from one of the nation's top providers of educational programs. Students of the program undergo rigorous preparation to lead complex administrative and management positions in higher education institutions and the associations, organizations, government agencies, foundations, and corporations that make up the broader higher education landscape. The program's objective is to develop self-motivated leaders who can communicate effectively, work collaboratively, and affect change within the broadest context of a transformative higher education community.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Geneva College

Master of Arts in Higher Education (MAHE) Program

Location: USA (Beaver Falls, Pennsylvania)

Website: http://www.geneva.edu/page/higher_ed

E-mail: hed@geneva.edu

Mission/program description: The mission of the MAHE Program is to cultivate a vision for higher education that is rooted in a Christian view of life, characterized by a consideration of foundational issues, and committed to the preparation of perceptive and principled leaders for colleges and universities.

Focus areas:

- Curriculum & Instruction or Teaching & Learning
- History of Higher Education
- Student Affairs or Student Development

Year established: 1994

Number of faculty: 4

Degrees (Enrollment):

- Master's (36 full-time, 34 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)

Additional Information: The on-site program takes 2 years (20 months) to complete, and the hybrid program takes 3 years to complete.

Kutztown University*

Student Affairs in Higher Education Program
Counseling & Student Affairs Department

Location: USA [Kutztown, Pennsylvania]

Website: <http://www2.kutztown.edu/academics/graduate-programs/student-affairs-in-higher-education.htm>

Mission/program description: With a Master of Education in Student Affairs in Higher Education, graduate students are prepared for professional careers in student affairs in institutions of higher education. Research skills and an application of these skills through professional work are an asset to this program.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Degrees (Enrollment):

- Master's

Marywood University

Higher Education Administration Program
McGowan Center for Graduate and Professional Studies

Location: USA [Scranton, Pennsylvania]

Website: http://www.marywood.edu/education/graduate-programs/ms_higher_education_administration.html

E-mail: saddlert@marywood.edu

Mission/program description: The Master of Science (M.S.) degree in Higher Education Administration will prepare students for a variety of mid-level careers in public and private colleges and universities. Career opportunities in the field of higher education administration include: student services, enrollment management, institutional advancement, alumni affairs, institutional research, career development, academic advising/support, and international affairs. Courses are designed to ground students in the theoretical framework necessary to guide current and future study and career development in higher education. An internship adds practical experience to the learning process.

Focus areas:

- Administration, Management, or Leadership
- Law or Public Policy
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 2004

Number of faculty: 2

Degrees (Enrollment):

- Master's (10 full-time, 15 part-time)
- Ph.D. (5 full-time, 20 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

* Information obtained from institution's website.

Messiah College[†]

Focus areas:

- Student Affairs or Student Development

Number of faculty: 2

Degrees (Enrollment):

- Master's (24 full-time, 8 part-time)

South Carolina

Clemson University*

Student Affairs Practice & Educational Leadership Program

School of Education

Location: USA (Clemson, South Carolina)

Website: <http://www.clemson.edu/hehd/departments/education/academics/graduate/MEd-SA/>

Mission/program description: The M.Ed. Program in Student Affairs Practice at Clemson University is designed to produce student affairs generalists, defined as competent practitioner-scholars who:

- Understand how divisions of student affairs function as interconnected working units, and how divisions of student affairs complement the academic mission of institutions of higher learning;
- Learn and apply a multitude of practitioner-based competencies (modeled on the ACPA/NASPA Professional Competencies for Student Affairs Practitioners) in a student-centered manner; and
- Can contribute to higher education in a variety of ways, in a variety of positions, and in a variety of institutional settings.

Clemson's Ph.D. program in educational leadership is designed primarily for working professionals to provide a strong background in five domains: leadership, research, policy, ethics and diversity. The Ph.D. prepares students to discover, integrate and apply knowledge as leaders in schools and postsecondary educational institutions and agencies. This is accomplished through close association with, and apprenticeship to, faculty members experienced in research, teaching and leadership. Doctoral students in educational leadership work closely with faculty on shared interests focused on leadership issues from the point of admission through their dissertation defense.

* Information obtained from institution's website.

It also assists individuals as well as public and private agencies and institutions in improving professional practice and performance within higher education. The faculty extends the limits of knowledge in the field of higher education and refines existing theory, practice, and policy.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Number of faculty: 12

Degrees (Enrollment):

- Master's (107 students)
- Ph.D. (37 students)

South Dakota

University of South Dakota[†]

Adult and Higher Education Program
School of Education

Location: USA (Vermillion, South Dakota)

Website: <http://www.usd.edu/edad>

E-mail: Karen.Card@usd.edu

Mission/program description: M.A. and Ed.D. degrees in Adult and Higher Education have been developed for those in the fields of adult education, and higher education teaching and administration. These degrees help develop professionals who can add substantially to the field with original and ongoing work as well as perform effectively as practitioners on the job. The Adult and Higher Education program encourages the student/learner to be a participant in the process, to choose directions, and to make worthwhile contributions. This climate of encouragement directly affects the program by providing stimulation and relevance to an individual's educational experience.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Number of faculty: 4

Degrees (Enrollment):

- Master's (15 full-time, 55 part-time)
- Ed.D. (10 full-time, 45 part-time)

Tennessee

East Tennessee State University

Doctor of Education Degree in Educational Leadership
Clemmer College of Education

Location: USA (Johnson City, Tennessee)
Website: <http://www.etsu.edu/elpa>
E-mail: elpa@etsu.edu

University of Tennessee

College Student Personnel Master's Program

Department of Educational Leadership and Policy Studies

College of Education, Health, and Human Sciences

Location: USA (Knoxville, Tennessee)

Website: http://elaps.utk.edu/college_student_personnel/

E-mail: nmertz@utk.edu

Mission/program description: The College Student Personnel program is a two-year, practitioner-oriented master's degree program designed to prepare student personnel administrators to serve the student and administrative needs of colleges and universities. Philosophically based in higher education administration, and resting on standards articulated by the Council for the Advancement of Standards for Student Services/Student Development Programs, the program prepares individuals for the wide and growing variety of student university service positions in post-secondary education including: admissions, advising, orientation, housing, athletics, disability services, career counseling, development, international education, alumni relations, student activities, Greek life, financial aid, recruiting, and recreation.

Focus areas:

- Administration, Management, or Leadership
- Student Affairs or Student Development

Year established: 1960

Number of faculty: 7

Degrees (Enrollment):

- Master's (36 students)

Delivery method:

- Master's: On-site only

Additional Information: Students hold an assistantship in student affairs, serve at least two internships, and the placement rate for students after graduation is almost 100%.

Vanderbilt University*

Higher Education Leadership and Policy Program

Peabody College of Education and Human Development

Location: USA (Nashville, Tennessee)

Website: http://peabody.vanderbilt.edu/departments/lpo/higher_education_leadership/index.php

E-mail: peabody.admission@vanderbilt.edu

Mission/program description: The Higher Education Leadership and Policy Program consistently receives a ranking within the top 10 of such programs in the United States. We offer courses that fulfill requirements for three degrees: the Master's in Education in Higher Education Administration, the Doctorate in Education in Higher Education Leadership and Policy, and the Doctor of Philosophy in Leadership and Policy Studies with a concentration in Higher Education. Higher education as an academic field of study seeks an understanding of the external and internal environments of colleges and universities as social institutions. The external environment includes the higher education systems of the world, U.S. national and state policies, and policy-makers, parents, and prospective donors to colleges and universities.

Focus areas:

- Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Ph.D. and Ed.D.

Texas

Baylor University

Higher Education & Student Affairs Program

School of Education

Location: USA (Waco, Texas)

Website: <http://baylor.edu/soe/eda/hesa>

E-mail: Rishi_Sriram@baylor.edu

Mission/program description: The Master of Science in Higher Education & Student Affairs (HESA) Program at Baylor University distinctively balances career experience and academic rigor to prepare professionals who desire to have a meaningful, lasting influence on students' lives in higher education settings.

* Information obtained from institution's website.

Focus areas:

- Administration, Management, or Leadership
- History of Higher Education
- Student Affairs or Student Development

Year established: 1999

Number of faculty: 8

Degrees (Enrollment):

- Master's (30 full-time, 4 part-time)
- Ph.D.

Delivery method:

- Master's: On-site only

Additional Information: Adding a newly approved Ph.D. program in Higher Education Studies & Leadership.

Dallas Baptist University

Master of Education in Higher Education; Ph.D. in Leadership Studies; Ed.D. in Educational Leadership

Gary Cook School of Leadership

Location: USA (Dallas, Texas)

Website: <http://www.dbu.edu>

E-mail: graduate@dbu.edu

Mission/program description: The M.Ed. in Higher Education program is committed to fulfilling the University mission of providing Christ-centered, quality higher education in order to produce servant leaders who possess the ability to integrate faith and learning through their respective callings and career opportunities. The purpose of the Dallas Baptist University Ed.D. in Educational Leadership is to provide Christ-centered, quality, research-based doctoral studies in the area of educational leadership to adult practitioner-learners in order to produce servant leaders who have the ability to integrate faith and learning for the purpose of school improvement. The purpose of the Doctor of Philosophy in Leadership Studies program is to equip persons of exceptional ability and promise to serve in executive leadership positions within business, education, industry, ministry, civic, or governmental contexts, requiring competence in empirical research with an emphasis on original inquiry that creates new knowledge or theory.

Focus areas:

- Administration, Management, or Leadership
- History of Higher Education
- Quantitative Research Methods

Number of faculty: 15

Degrees (Enrollment):

- Master's (40 full-time, 10 part-time)
- Ph.D. and Ed.D. (40 full-time, 100 part-time)
- Certificate

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: On-site only

Texas A&M University*

Higher Education Administration Program

Department of Educational Administration & Human Resource Development

Location: USA [College Station, Texas]

Website: <http://eahr.tamu.edu/degrees-and-programs/graduate-degree-programs/higher-education-administration>

E-mail: jnelson@tamu.edu

Mission/program description: The Master of Science (M.S.) is a 42-hour program that enhances the student's knowledge and skills so that he/she may enter a mid-level management position at the college level. There are five required courses with the remaining courses to be in the support field and specialization areas. The Doctor of Philosophy is a 73-hour degree program which will prepare students for leadership roles in higher education administration, teaching, and research through an emphasis of integrating theory and practice. With a concentration in a variety of areas, students are able to achieve their personal goals. The degree has several required courses with the remaining courses that will include a support field in a related discipline.

Focus areas:

Administration, Management, or Leadership

Degrees (Enrollment):

- Master's
- Ph.D.

Texas A&M University

Student Affairs Administration in Higher Education Master's Program

Department of Educational Administration and Human Resource Development

Location: USA [College Station, Texas]

Website: <http://eahr.tamu.edu/degrees-and-programs/graduate-degree-programs/student-affairs-administration-higher-education>

E-mail: kpparrott@tamu.edu

Mission/program description: The Student Affairs Administration in Higher Education Program strives to prepare practitioner scholars for leadership in college and university student affairs in Texas, throughout the nation, and internationally. With a focus on the application of theory to practice, students experience a balance of coursework and field work grounded in student development and learning, social justice, and administration.

Focus areas:

- Law or Public Policy
- Student Affairs or Student Development
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

Year established: 1992

Number of faculty: 9

Degrees (Enrollment):

- Master's [30 full-time, 2 part-time]

Delivery method:

- Master's: On-site only

Additional Information: The Student Affairs Administration in Higher Education (SAAHE) specialization provides coursework and practica/internships leading to a master of science (M.S.) degree in educational administration. The full-time SAAHE curriculum emphasizes a blend of classroom learning with practical experience. In addition to coursework [39 credit hours] and two semesters of comprehensive practica/internships [150 clock hours each], all of our students hold student affairs graduate assistantships either within the division of student affairs, the academic colleges, or academic services. One of the most distinctive

* Information obtained from institution's website.

aspects of the program is that it operates on a cohort basis, which allows approximately 15 full-time students to enter each fall and to progress together throughout the entire program. This unique structure and the environment at Texas A&M University cultivate support, encouragement, and friendships from the moment that the SAAHE experience begins.

Texas A&M University-Commerce

Higher Education Program

Department of Educational Leadership

Location: USA (Commerce, Texas)

Website: <http://www.tamuc.edu/academics/colleges/educationHumanServices/departments/educationalLeadership/default.aspx>

E-mail: jon.travis@tamuc.edu

Mission/program description: The program in Higher Education Leadership focuses on developing faculty and educational leaders and provides advanced experiences that offer practical preparation emphasizing unique skills in teaching and leadership in Higher Education. The program seeks to extend the knowledge and intellectual maturity of students while enabling graduates to function at a high level of performance as community/junior and senior college faculty and administrators; trainers and managers in business and industry; and/or faculty and administrators in technology-related areas as they relate to higher education.

Focus areas:

- Access and Equity
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education

Year established: 1962

Number of faculty: 5

Degrees (Enrollment):

- Master's (30 full-time, 160 part-time)
- Ed.D. (50 full-time, 140 part-time)

Delivery method:

- Master's: Hybrid (via a mix of on-site and online/distance)
- Doctoral: Hybrid (via a mix of on-site and online/distance)

Additional Information: The doctoral program in Higher Education ranks second in the state of Texas for graduates who serve as college presidents.

Texas A&M University-Kingsville

University of Virginia

Higher Education Program
Center for the Study of Higher Education
Curry School of Education

Location: USA [Charlottesville, Virginia]

Website: <http://curry.virginia.edu/academics/areas-of-study/higher-education>

E-mail: curry-admissions@virginia.edu

Mission/program description: The Center for the Study of Higher Education administers the Higher Education program at the Curry School of Education. Established in 1969, the Center is an instructional, research, and service unit of the Curry School. The instructional program provides college, university, and adult education leaders with the opportunity to explore established and emerging practices and policies in higher education, to analyze current issues and programs, and to think critically about institutional priorities and commitments. The center also coordinates the master of education program in Student Affairs Practice in Higher Education (SAPHE), which includes a strand in higher education administration. This program prepares students for a variety of professional positions within student affairs. Each year the entering cohort includes 12 to 18 full-time and part-time students.

Focus areas:

- Access and Equity
- Economics, Financing, or Funding of Higher Education
- Student Affairs or Student Development
- Curriculum & Instruction or Teaching & Learning
- History of Higher Education
- Student Identity, Diversity, or Multiculturalism [e.g., gender, race, minority groups]

Year established: 1964

Number of faculty: 9

Higher Education Program
Educational Leadership & Policy Studies
School of Education

Location: USA (Blacksburg, Virginia)
Website: <http://www.soe.vt.edu/highered>
E-mail: vthed@vt.edu

Mission/program description: The doctoral program in Higher Education (HED) provides mid-level professionals with the essential knowledge, skills, values, and attitudes necessary for advanced practice in the field of student affairs and higher education administration. Graduate students are prepared to work as student development educators and administrators in higher education. Specifically, students may expect post-graduate employment at cabinet levels of student affairs and academic administration or as faculty in graduate preparation programs. Many students have gone on to work with non-profit, governmental, and non-governmental policy-oriented organizations as well.

The Master's program in Higher Education (HED) provides entry-level professionals with the essential knowledge, skills, values, and attitudes necessary for practice in higher education. Graduate students are prepared to work as student development educators and administrators in higher education. Specifically, students may expect employment in residential programs, campus activities, career planning, judicial programs, counseling, admissions, financial aid, student orientation, special services, and related campus programs.

University of Washington

Higher Education Program

College of Education

Location: USA (Seattle, Washington)

Website: <https://education.uw.edu/programs/graduate/lhe>

E-mail: highered@uw.edu

Mission/program description: The Leadership in Higher Education (LHE) Program is designed to prepare multidimensional leaders through experiences integrating theory and practice. The program develops scholarly practitioners by establishing robust partnerships with community-based organizations and campus-based departments and programs. These partnerships provide field-based internships and exposure to deep content knowledge shared by higher education stakeholders. Theoretical coursework that focuses on real-world experience through the use of case studies and theory-to-practice class activities further support the scholar-practitioner training model. Additionally, coursework and internships build student ability to navigate complex higher education organizational structures, emphasizing the importance of relationships between the centrality of the student experience, organizational dynamics, and change. The program also prepares students for the demanding technological needs of current higher education delivery models and encourages you to stay current in technological systems and trends.

- Private Higher Education and Privatization

Year established: 2009

Number of faculty: 2

Degrees (Enrollment):

- Ph.D.

Delivery method:

- Doctoral: Hybrid (via a mix of on-site and online/distance)

Worldwide, a total of 473 different degrees—at the master’s and doctoral (Ph.D. and Ed.D.) level—are awarded across the 277 academic programs identified by the inventory. By category, there are 253 master’s degree options around the world, 145 Ph.D. options, and 75 Ed.D. options. Ed.D. programs are offered in just 7 countries—the United States, China, the United Kingdom, Japan, Canada, Australia, and Egypt. Ph.D. degree options are available in 22 different countries, while master’s degrees can be obtained in 23 different countries. Unlike past editions of the inventory, this time we also asked academic program respondents to indicate if they offer certificates or any other kind of credential, apart from master’s, Ph.D., and Ed.D. degrees. Programs in 10 different countries indicated they award some type of certificate in higher education.

All told, the inventory provides information on 280 journals and other relevant higher education publications published in 22 different languages in 35 different countries. The United States and the English language dominate this landscape. Just over 68 percent of the publications are published in English. Among the 190 total publications produced in English, just 20 are published in both English and another language(s); in 7 of these cases the second language is French, while the remaining bilingual (or multilingual) publications feature English-Afrikaans, English-Arabic, English-Czech-Slovak, English-Japanese, English-Malay, English-Russian, English-Spanish, English-Swedish-Danish-Norwegian and English-Turkish combinations.

6. A Worldwide Inventory of Higher Education: Journals and Publications

INTERNATIONAL

Active Learning in Higher Education

Focus: *Active Learning in Higher Education* is devoted to all aspects of development, innovations and good practice in higher education teaching and learning, including the use of information and communication technologies (ICTs) and issues concerning the management of teaching and learning.

Language(s): English
Frequency: 3/yr
Publisher: SAGE Publications
Website: <http://alh.sagepub.com/>

Arts and Humanities in Higher Education: An International Journal of Theory, Research and Practice

Focus: *Arts and Humanities in Higher Education* publishes articles, reviews and scholarly comments relating to the arts and humanities in higher education.

Language(s): English
Frequency: 4/yr
Publisher: SAGE Publications
Website: <http://ahh.sagepub.com/>

Borderless Report

Focus: The Observatory is an independent, global strategic services organization that conducts high-level research and disseminates emerging trends, best practices, policy frameworks, and assessment and quality assurance information relevant to cross-border higher education program delivery across the globe.

Language(s): English
Frequency: 8/yr
Publisher: The Observatory on Borderless Higher Education
Website: <http://www.obhe.ac.uk/>

Bridges

Focus: *Bridges* - and their association with connection and communication - are kept in mind when reporting on European, American or Canadian science, technology and higher education policy.

Language(s): English
Frequency: 4/yr
Publisher: Office of Science and Technology (OST) - Embassy of Austria, Washington DC
Website: <http://www.ostina.org/en/bridges-magazine-current-issue>

Comparative and International Higher Education

Focus: *Comparative and International Higher Education* serves as a professional forum supporting development, analysis, and dissemination of theory-, policy-, and practice-related issues that influence higher education.

Language(s): English

Frequency: 2/yr

Publisher: Comparative and International Education Society (CIES), Higher Education Special Interest Group

Website: <http://www.higheredSIG.org>

Distance Education

Focus: *Distance Education* publishes research and scholarly material in the fields of open, distance and flexible education.

Language(s): English

Frequency: 3/yr

Publisher: Routledge, Taylor and Francis Group

Sponsoring organization: Open and Distance Learning Association of Australia Inc. (ODLAA)

Website: <http://www.tandfonline.com/toc/cdie20/current#.UK7N6hbVSIg>

Globalisation, Societies and Education

Focus: *Globalisation, Societies and Education* aims to fill the gap between the study of education and broader social, economic and political forces by analyzing the complexities of globalization. The Journal seeks to provide means for affecting, as well as reflecting the experiences, distribution, contributions and outcomes of education at all levels and in all settings.

Language(s): English

Frequency: 4/yr

Publisher: Routledge, Taylor and Francis Group

Website: <http://www.tandfonline.com/toc/cgse20/current>

Higher Education

Focus: This publication examines educational developments throughout the world in universities, polytechnics, colleges, and vocational and education institutions. It reports on developments in both public and private higher education sectors.

Language(s): English

Frequency: 12/yr

Publisher: Springer Science+Business Media B.V.

Website: <http://www.springer.com/education+%26+language/higher+education/journal/10734>

Higher Education Evaluation and Development

Focus: *Higher Education Evaluation and Development* mainly focuses on quality assurance, assessment, and ranking issues.

Language(s): English

Frequency: 2/yr

Publisher: Higher Education Evaluation & Accreditation Council of Taiwan

Website: <http://aspers.airiti.com/ehe/WebHome.aspx>

Higher Education Forum

Language(s): English
Frequency: 1/yr
Publisher: Research Institute for Higher Education, Hiroshima University
Website: http://en.rihe.hiroshima-u.ac.jp/pl_default_1.php?c=Higher+Education+Forum

Higher Education Policy

Focus: *Higher Education Policy* aims at advancing scholarly understanding of the policy process (development, implementation, impact and responses) applied to higher education.

Language(s): English
Frequency: 4/yr
Publisher: Palgrave Macmillan Journals
Sponsoring organization: International Association of Universities
Website: <http://www.palgrave-journals.com/hep/index.html>

Higher Education Quarterly

Focus: *Higher Education Quarterly* publishes international articles concerned with policy, strategic management and ideas in higher education.

Language(s): English
Frequency: 4/yr
Publisher: Wiley-Blackwell
Sponsoring organization: Society for Research into Higher Education
Website: <http://www.wiley.com/bw/journal.asp?ref=0951-5224>

Higher Education Review

Focus: *Higher Education Review* is an academic journal concerned with policy and practice, with contributions soundly based in research or scholarship, but with implications for reform or change. It seeks to ensure rigor in these analyses by taking a problem-oriented approach; it is concerned to help formulate the problems of higher education, to consider alternative solutions and to test them.

Language(s): English
Frequency: 3/yr
Publisher: Tyrrell Burgess Associates
Website: <http://www.highereducationreview.com>

IAU Horizons

Focus: Each issue features the following sections: IAU activities, upcoming events and specific projects the IAU has undertaken; IAU collaboration and networking; membership news; new publications; and a global calendar of events.

Language(s): English and French
Frequency: 3/yr
Publisher: International Association of Universities
Website: <http://www.iau-aiu.net/content/iau-horizons>

Industry and Higher Education

Focus: With a strong emphasis on practical aspects, the journal covers organizational, economic, political, legal, and social issues relating to developments in education-industry collaboration.

Language(s): English
Frequency: 6/yr
Publisher: I P Publishing Ltd.
Website: <http://www.ippublishing.com/ihe.htm>

International Higher Education

Focus: Through *International Higher Education*, a network of distinguished international scholars offers commentary and current information on key issues that shape higher education worldwide.

Language(s): English, Russian, Chinese, Spanish, and Portuguese
Frequency: 4/yr
Publisher: Boston College Center for International Higher Education
Website: <http://www.bc.edu/research/cihe/ihe.html>

International Journal for Academic Development

Focus: The purpose of the journal is to enable academic and educational developers in higher education across the world to exchange ideas about practice and extend the theory of educational development, with the goal of improving the quality of higher education internationally.

Language(s): English
Frequency: 3/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: International Consortium for Educational Development
Website: <http://www.tandf.co.uk/journals/titles/1360144X.asp>

International Journal for the Scholarship of Teaching & Learning

Focus: *International Journal for the Scholarship of Teaching & Learning* is an international vehicle for articles, essays, and discussions about the scholarship of teaching and learning (SoTL) and its applications in higher and tertiary education today.

Language(s): English
Frequency: 2/yr
Publisher: Center for Teaching, Learning & Scholarship, Georgia Southern University
Website: <http://academics.georgiasouthern.edu/ijstol/>

International Journal of Continuing Education and Lifelong Learning

Language(s): English
Frequency: 2/yr
Publisher: School of Professional and Continuing Education (HKU SPACE), University of Hong Kong
Website: <https://w5.hkuspace.hku.hk/journal/index.php/ijcell>

International Journal of Lifelong Education

Focus: The *International Journal of Lifelong Education* provides a forum for debate on the principles and practice of lifelong, adult, continuing, recurrent and initial education and learning, whether in formal, institutional or informal settings. Common themes include social purpose in lifelong education, and sociological, policy and political studies of lifelong education.

Language(s): English
Frequency: 6/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandfonline.com/toc/tled20/current>

International Journal of Sustainability in Higher Education

Focus: *International Journal of Sustainability in Higher Education* is the first scholarly publication to specifically address the need for the dissemination of information on sustainability matters at higher education institutions.

Language(s): English
Frequency: 4/yr
Publisher: Emerald Group Publishing Limited
Website: <http://info.emeraldinsight.com/products/journals/journals.htm?id=ijshe>

International Journal of Teaching and Learning in Higher Education

Focus: The specific emphasis of the *International Journal of Teaching and Learning in Higher Education* is the dissemination of knowledge for improving higher education pedagogy.

Language(s): English
Frequency: 3/yr
Publisher: International Society for Exploring Teaching and Learning and Center for Instructional Development and Educational Research (Virginia Tech)
Website: <http://www.isetl.org/ijtlhe/>

International Journal of University Teaching and Faculty Development

Focus: The *International Journal of University Teaching and Faculty Development* is an international and multidisciplinary Journal concerned with teaching for students at university level and faculty development. The Journal will look at how teaching and research can be brought into a closer relationship.

Language(s): English
Frequency: 4/yr
Publisher: Nova Publishers
Website: https://www.novapublishers.com/catalog/product_info.php?cPath=125&products_id=10541

International Review of Research in Open and Distance Learning

Focus: The *International Review of Research in Open and Distance Learning* disseminates original research, theory, and best practice in open and distance learning worldwide.

Language(s): English
Frequency: 3-6/yr
Publisher: Athabasca University
Website: <http://www.irrodl.org/index.php/irrodl>

The Internet and Higher Education: A Quarterly Review of Innovations in Post-Secondary Education

Focus: *The Internet and Higher Education* is devoted to addressing contemporary issues and future developments related to online learning, teaching, and administration on the Internet in post-secondary settings.

Language(s): English
Frequency: 4/yr
Publisher: Elsevier B.V.
Website: <http://www.journals.elsevier.com/the-internet-and-higher-education/>

Journal of Adult and Continuing Education

Focus: The *Journal of Adult and Continuing Education* provides a forum for rigorous theoretical and practical work in the broad fields of lifelong learning and adult, community and continuing education.

Language(s): English
Frequency: 2/yr
Publisher: Manchester University Press
Website: <http://www.manchesteruniversitypress.co.uk/cgi-bin/subscribe?showinfo=ip02?>

Journal of Applied Research in Higher Education

Focus: The central aim of the *Journal of Applied Research in Higher Education* is to promote improved practice by encouraging informed debate into pedagogic and related matters in higher education.

Language(s): English
Frequency: 2/yr
Publisher: Emerald
Sponsoring organization: Higher Education Teaching and Learning
Website: <http://www.emeraldinsight.com/products/journals/journals.htm?id=jarhe>

Journal of Education and Work

Focus: The *Journal of Education and Work* examines how knowledge, skills, values and attitudes both about and for work and employment are developed within the education system. The journal also explores the various forms of industrial training and accreditation in the economic system, including changes in the economic and industrial infrastructure which influence the type of employees required. Work in the informal economy is also included.

Language(s): English
Frequency: 5/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandfonline.com/loi/cjew20>

Journal of Further and Higher Education

Focus: The *Journal of Further and Higher Education* publishes articles and book reviews representing the whole field of post-16 education and training. Topic areas include management and administration, teacher education and training, curriculum, staff and institutional development, and teaching and learning strategies and processes.

Language(s): English
Frequency: 6/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: University and College Union
Website: <http://www.tandfonline.com/loi/cjfh20#.Ujsa4BbVSIg>

Journal of Geography in Higher Education

Focus: The *Journal of Geography in Higher Education* is committed to promote, enhance and share geography learning and teaching in all institutions of higher education throughout the world, and provides a forum for geographers and others, regardless of their specialisms, to discuss common educational interests, to present the results of educational research, and to advocate new ideas.

Language(s): English
Frequency: 4/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandf.co.uk/journals/titles/03098265.asp>

Journal of Higher Education Policy and Management

Focus: The *Journal of Higher Education Policy and Management* is an international journal of professional experience and ideas in post-secondary education. It is a must read for those seeking to influence educational policy making.

Language(s): English
Frequency: 6/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: Association for Tertiary Education Management (ATEM) and the LH Martin Institute
Website: <http://www.tandf.co.uk/journals/titles/1360080X.asp>

Journal of Marketing for Higher Education

Focus: The *Journal of Marketing for Higher Education* is a multi-disciplinary journal and publishes papers from all the major disciplines that connect with the marketing of higher education.

Language(s): English
Frequency: 2/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandfonline.com/toc/wmhe20/current#.UjMu8hbVSIg>

Journal of Research in International Education

Focus: The *Journal of Research in International Education* seeks to advance the understanding and significance of international education. It sets out to undertake a rigorous consideration of the educational implications of the fundamental relationship between human unity and human diversity that 'education for international understanding' requires.

Language(s): English
Frequency: 3/yr
Publisher: SAGE Publications
Website: <http://jri.sagepub.com/>

Quality Update International

Focus: *Quality Update International* is a newsletter covering a selection of information and news relating to higher education and quality assurance around the world.

Language(s): English
Frequency: 11/yr
Publisher: Quality Assurance Agency
Website: <http://www.qaa.ac.uk/PUBLICATIONS/Pages/default.aspx>

Research in Post-Compulsory Education

Focus: *Research in Post-Compulsory Education* recognizes the need for more international research and analysis and the generation of relevant theory in order to identify policy needs and trends as well as priorities in this growing area.

Language(s): English
Frequency: 4/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: Further Education Research Association (FERA)
Website: <http://www.tandf.co.uk/journals/titles/13596748.asp>

Research into Higher Education Abstracts

Focus: *Research into Higher Education Abstracts* exists to propagate knowledge about, and encourage discussion of, significant research into higher education.

Language(s): English
Frequency: 3/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: Society for Research into Higher Education
Website: <http://www.tandf.co.uk/journals/titles/00345326.asp>

Revista de Universidad y Sociedad del Conocimiento (Journal of the University and the Knowledge Society)

Focus: A bilingual refereed research e-journal in e-learning, university and network society.

Language(s): Spanish and English
Frequency: 2/yr
Publisher: Universitat Oberta de Catalunya and its eLearn Center, and the University of New England and its DeHub.
Website: <http://rusc.uoc.edu/ojs/index.php/rusc/index>

Studies in Continuing Education

Focus: *Studies in Continuing Education* publishes material which will contribute to improving practice in the field of continuing education and to bring theory and practice into closer association.

Language(s): English
Frequency: 3/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandf.co.uk/journals/titles/0158037X.asp>

Studies in Higher Education

Focus: *Studies in Higher Education* seeks to enhance understanding of higher education policy, institutional management and performance, teaching and learning, and the contribution of higher education to society and the economy.

Language(s): English
Frequency: 10/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: Society for Research into Higher Education
Website: <http://www.tandf.co.uk/journals/titles/03075079.asp>

Teaching in Higher Education

Focus: The journal addresses the roles of teaching, learning and the curriculum in higher education in order to explore and clarify the intellectual challenges which they present. The journal is interdisciplinary and aims to open up discussion across subject areas by involving all those who share an enthusiasm for learning and teaching.

Language(s): English
Frequency: 8/yr
Publisher: Routledge, Taylor and Francis Group
Website: <http://www.tandfonline.com/toc/cthe20/current#.Ujsn0hbVSIg>

Tertiary Education and Management

Focus: *Tertiary Education and Management* is intended to create a better linkage of research, policy and practice in teaching and learning as well as in higher education management, governance and organization.

Language(s): English
Frequency: 4/yr
Publisher: Routledge, Taylor and Francis Group
Sponsoring organization: European Higher Education Society
Website: <http://www.tandfonline.com/toc/rtem20/current#.Ujm-3BbVSIg>

Tuning Journal for Higher Education

Focus: The *Tuning Journal for Higher Education* is an international electronic journal publishing in English original research studies and reviews in all aspects of outcome oriented, student centered learning at the third level.

Language(s): English
Frequency: 2/yr
Publisher: Tuning Academy, Universidad de Deusto, Spain
Sponsoring organization: European Commission's Directorate-General for Education and Culture
Website: <http://www.tuningjournal.org/index.php/tuning/index>

University Values

Focus: *University Values* is an electronic bulletin featuring articles, essays and announcements promoting discussion and understanding of university values, including access, accountability/transparency, academic freedom/quality, autonomy/good governance, and social responsibility.

Language(s): English
Frequency: 1/yr
Publisher: Scholars at Risk
Website: <http://www.scholarsatrisk.nyu.edu/Workshop/bulletin.php>

University World News

Focus: With international competition and collaboration between universities growing apace, it has never been more important for higher education managers, researchers, scholars and public officials to keep abreast of developments in their field and in rival and partner institutions worldwide. *University World News* is dedicated to providing such coverage.

Language(s): English
Frequency: 52/yr
Publisher: Higher Education Web Publishing Ltd
Website: <http://www.universityworldnews.com/>

World Education News and Reviews (WENR)

Language(s): English
Frequency: 12/yr
Publisher: World Education Services (WES)
Website: <http://www.wes.org/ewenr/>

AFRICA

Journal of Higher Education in Africa (Revue de l'enseignement supérieur en Afrique)

Focus: The *Journal of Higher Education in Africa* publishes analysis, information, and critique on contemporary issues of higher education on the continent with special emphasis on research and policy matters.

Language(s): English and French
Frequency: 2/yr
Publisher: Council for the Development of Social Science Research in Africa (CODESRIA)
Website: <http://www.codesria.org/spip.php?rubrique54&lang=en>

Journal of Student Affairs in Africa

Focus: The *Journal of Student Affairs in Africa* publishes scholarly research and reflective discussions about the theory and practice of student affairs in Africa.

Language(s): English
Frequency: 2/yr
Publisher: African Minds and University of the Western Cape Library e-Publications
Website: <http://jsaa.ac.za/index.php/JSAA>

Makerere Journal of Higher Education

Focus: The aim of the *Makerere Journal of Higher Education* is to provide a medium for exchange of ideas among scholars and practitioners on how to improve on the management of higher education, within different cultural settings.

Language(s): English
Frequency: 2/yr
Publisher: Department of Higher Education of Makerere University
Sponsoring organization: East African Institute of Higher Education Studies and Development

ASIA

ASEAN Journal of Teaching and Learning in Higher Education

Focus: *ASEAN Journal of Teaching & Learning in Higher Education* is devoted to the dissemination of information on teaching and learning in higher educational context.

Language(s): English and Malay
Frequency: 2/yr
Publisher: Centre for Academic Advancement University Kebangsaan Malaysia (UKM)
Website: <http://www.ukm.my/jtlhe/>

Asian Journal of Distance Education

Focus: The main aim of the *Asian Journal of Distance Education* is to disseminate scholarly works and information useful to researchers and practitioners in the growing field of distance education in Asia. The Journal also aims to provide a forum for discussions within and directly relating to Asia and so elicits Asian local theoretical and practical solutions to address local concerns.

Language(s): English
Frequency: 2/yr
Publisher: The Asian Society of Open and Distance Education
Website: <http://www.asianjde.org>

EUROPE

ACA Newsletter – Education Europe

Focus: The monthly *ACA Newsletter – Education Europe* provides policymakers and practitioners worldwide with concise and up-to-date information on the latest developments in higher education policy at the national, European, and global levels. It also highlights important events, presents recent research on education and training matters, and informs on the latest European Union funding opportunities.

Language(s): English
Frequency: 12/yr
Publisher: Academic Cooperation Association (ACA)
Website: <http://www.eua.be/newsletters.aspx>

European Educational Research Journal

Focus: The *European Educational Research Journal* publishes aspects of educational research which illuminate the cases and contents of the emerging borderless space of European educational research.

Language(s): English
Frequency: 6/yr (beginning in 2014)
Publisher: European Educational Research Association
Website: <http://www.wwords.co.uk/eej/index.asp>

European Journal of Education

Focus: The *European Journal of Education* presents recent research and policy analysis with a primary focus on Europe, placed in an international perspective.

Language(s): English
Frequency: 4/yr
Publisher: Wiley-Blackwell

Publisher: Association of Governing Boards of Universities and Colleges
Website: <http://www.agb.org/trusteeship>

Women in Higher Education

Focus: *Women in Higher Education* is designed to help smart women on campus get wise about how gender affects their being successful in the male-dominated world of higher education. Its goals are to enlighten, encourage, and empower women on campus.

Language(s): English
Frequency: 12/yr
Publisher: Wenniger Company
Website: <http://www.wihe.com>

APPENDIX

Questionnaire for the 3rd Edition of A Worldwide Inventory: Higher Education Research Centers, Academic Programs, and Journals

A Project of the Boston College Center for International Higher Education (CIHE)

The Boston College Center for International Higher Education (CIHE) cordially invites you to complete the survey below, which should take no more than 10 minutes of your time.

You have been invited to complete this survey on the basis of your identification as a representative of a research center or academic program focused on the study of higher education.

The data you provide will be incorporated into a global inventory of higher education research centers and academic programs, under the title “Higher Education: A Worldwide Inventory of Centers and Programs (3rd Edition).” The first and second editions of the Inventory were published in 2001 (Oryx) and 2006 (Sense). Dissemination plans for the third edition will likely involve an online resource and a print publication.

The goal of this inventory exercise is to provide scholars, policymakers, and other interested stakeholders with a definitive list of where research and study of higher education is being undertaken around the world. The final product resulting from this project will include not only the basic inventory information, but also an analysis of trends and developments in the field of higher education as a focus of research and study.

Thank you in advance for taking the time to complete this survey. Your input is extremely important in helping us map the global landscape of higher education as a field of inquiry.

Should you have any questions or comments about the survey, please direct these to highered@bc.edu.

1) Academic Program or Research Center/Institute

If your entity has BOTH an academic program and a research center, please fill out and submit this survey TWICE. We apologize for this inconvenience but our experience shows that combining info may yield blurry & inaccurate information. If you need to complete the survey twice, feel free to skip any questions where you have already provided the relevant answers in the first set of survey responses.

- An academic program (focused on teaching and professional preparation and offering a formal degree or credential)
- A center or institute (mainly concerned with research, policy analysis, or related activities)
- Other

2) Formal Name

What is the formal name of your program, center, or institute?

3) Host Organization

If applicable, what is the name of the larger organization in which your program, center or institute is located? (For example, our Center for International Higher Education is located within Boston College. Others may be located within an international organization or a Ministry of Education.)

4) Location within Host Organization

Where does your program, center, or institute “sit” within the broader host organization? (For example, the Boston College Center for International Higher Education is situated within the School of Education. Some centers located in ministries may be situated within a Department of Higher Education.)

5) Country

In what country is your program, center, or institute located?

City

In what city is your program, center, or institute located?

State/Province/Region

In what state, province, region is your program, center, or institute located?

6) Mission or Purpose

What is the mission or primary purpose of your program, center, or institute? Explain in fewer than 100 words.

7) Website

Please provide the website of your program, center, or institute.

8) Email Address

A contact e-mail address that we may include in the publication

9) Year Established

In what year was your program, center, or institute established?

10) Funding

a) Primary Funding Source

What is your primary source of direct funding? Examples may include, student tuition, university support, government allocations, foundation grants, etc.

b) Secondary Funding Source (if applicable)

What is your secondary source of funding?

11) Publications

Questions 11a-11c below ask you to provide the titles of up to 3 publications REGULARLY produced by your program, center, or institute. "Regular publications" come out on a more or less steady schedule (monthly, twice a year, etc.)

a) Regular Publication #1

Please list a publication regularly published by your program, center, or institute. Examples may include, a journal, newsletter, electronic publication, book series, working paper series, report, etc.

- Website Link (if applicable)
- Frequency of Publication

b) Regular Publication #2

- Website Link (if applicable)
- Frequency of Publication

c) Regular Publication #3

- Website Link (if applicable)
- Frequency of Publication

12) Research & Expertise

Please indicate the primary research and expertise areas of your program, center, or institute (*Select a MAXIMUM of three)

Check a MAXIMUM of three

- Academic Profession
- Access and Equity
- Administration, Management, or Leadership
- Community College, Vocational, or Technical Education
- Comparative or International Studies
- Curriculum & Instruction or Teaching & Learning
- Economics, Financing, or Funding of Higher Education
- Globalization or Internationalization
- History of Higher Education
- Law or Public Policy
- Private Higher Education and Privatization
- Qualitative Research Methods
- Quality Assurance, Assessment, or Accreditation
- Quantitative Research Methods
- Student Affairs or Student Development
- Student and Scholar Mobility
- Student Identity, Diversity, or Multiculturalism (e.g., gender, race, minority groups)

13) Number of Faculty, Researchers, and Professional Staff

How many faculty, researchers, and professional staff in the field of higher education are in your program, center, or institute? Individuals need not be involved on a full-time basis, however, their participation should be significant (choose 1 to 25+).

Academic Program Details

Questions 14-16 only apply to academic programs.

14) Credential(s) Granted

For an academic program, what credential(s) are offered?

- Ph.D.
- Masters
- Ed.D.
- Certificate
- Other

15) Master's Programs

a) Full-Time Master's Student Enrollment

If applicable, on average how many FULL-TIME master's (M.A) students are enrolled in your degree program (on an annual basis)?

b) Part-Time Master's Student Enrollment

If applicable, on average how many PART-TIME master's (M.A) students are enrolled in your degree program (on an annual basis)?

c) Time to Complete the Program

On average, how long does it take for master's students to complete the program?

d) Delivery Method

Please indicate how the master's program is delivered.

- On-site only
- Online (or via distance) only
- Hybrid (via a mix of on-site and online/distance)

15) Doctoral Programs

a) Full-Time Doctoral Student Enrollment

If applicable, on average how many FULL-TIME doctoral students are enrolled in your degree program (on an annual basis)?

b) Part-Time Doctoral Student Enrollment

If applicable, on average how many PART-TIME doctoral students are enrolled in your degree program (on an annual basis)?

c) Time to Complete the Program

On average, how long does it take for doctoral students to complete the program?

d) Delivery Method

Please indicate how the doctoral program is delivered.

- On-site only
- Online (or via distance) only
- Hybrid (via a mix of on-site and online/distance)

e) Coursework & Research Mix

Please indicate whether the doctoral program focuses primarily on research or has a combination of research and course work.

- Primarily research-based
- A mix of research & course work

Additional Information

Please provide any additional information that you would like us to know about your center or program. You can also use this space to direct questions or comments to the survey administrator.

Contact Information

17) Your Name

Please provide your name in case we need to contact you to clarify the information you have provided in this survey.

- First
- Last

18) Your Email

Please provide your e-mail address in case we need to contact you to clarify the information you have provided in this survey.

ABOUT THE AUTHORS

Laura E. Rumbley is associate director of the Center for International Higher Education at Boston College, and a lecturer in higher education. She is co-editor of the *Journal of Studies in International Education* and chair of the Publications Committee for the European Association for International Education.

Philip G. Altbach is research professor and director of the Center for International Higher Education at Boston College. He has served as editor of the *Review of Higher Education*, *Comparative Education Review*, and as founding editor of *Educational Policy*. He is author, most recently, of *The International Imperative in Higher Education*.

David A. Stanfield was a staff member at Carnegie Mellon University in Doha, Qatar, and later a research assistant at the Center for International Higher Education at Boston College. He now serves as the Head of Research and Development for the Council of International Schools (CIS), based in Leiden, the Netherlands.

Yukiko Shimmi, formerly a research assistant at the Boston College Center for International Higher Education, is a lecturer in international education at Hitotsubashi University in Tokyo.

Ariane de Gayardon is a research assistant at the Center for International Higher Education at Boston College, and was formerly teaching at Kings College London, UK.

Roy Y. Chan is a doctoral student in higher education administration at Boston College.
